DEKLARACJA MISJI

Artykuł 15 ust. 1 rozporządzenia (UE, Euratom) nr 883/2013:

Komitet Nadzoru regularnie monitoruje wykonywanie przez Urząd jego zadań dochodzeniowych w celu wzmocnienia niezależności Urzędu we właściwym wykonywaniu kompetencji powierzonych mu na mocy niniejszego rozporządzenia.

Komitet Nadzoru monitoruje w szczególności rozwój sytuacji w zakresie stosowania gwarancji proceduralnych i czasu trwania dochodzeń na podstawie informacji przekazywanych przez dyrektora generalnego zgodnie z art. 7 ust. 8.

Misja Komitetu Nadzoru OLAF określona w rozporządzeniu (UE, Euratom) nr 883/2013 ⁽¹⁾ polega na wzmocnieniu niezależności OLAF-u we właściwym wykonywaniu powierzonych mu kompetencji ⁽²⁾. Aby KN mógł wykonać swoją misję, prawodawca Unii powierzył mu potrójną funkcję:

- KN jest **organem nadzorczym** OLAF-u i stoi na straży jego niezależności; KN regularnie monitoruje wykonywanie przez OLAF jego funkcji dochodzeniowej, a w szczególności rozwój sytuacji w zakresie stosowania gwarancji proceduralnych i czasu trwania dochodzeń,
- KN pełni **funkcję doradczą** wobec dyrektora generalnego OLAF-u, którego wspiera w wypełnianiu jego obowiązków:
 - przekazując mu wyniki z prowadzonego przez KN monitorowania wykonywania przez OLAF jego funkcji dochodzeniowej, stosowania gwarancji proceduralnych i czasu trwania dochodzeń oraz, w stosownych przypadkach, przedstawiając odpowiednie zalecenia,
 - przekazując mu opinie, w tym również, w stosownych przypadkach, zalecenia dotyczące między innymi zasobów niezbędnych do wykonywania przez OLAF zadań dochodzeniowych, priorytetów odnoszących się do dochodzeń oraz czasu trwania dochodzeń,
 - przekazując swoje uwagi (w tym, w stosownych przypadkach, zalecenia) dotyczące wytycznych w sprawie procedur dochodzeniowych (oraz wszelkich zmian tych wytycznych) przyjętych przez dyrektora generalnego zgodnie z art. 17 ust. 8 rozporządzenia,
- KN jest **partnerem w dialogu** z instytucjami UE, którym przedstawia sprawozdania ze swojej działalności, na wniosek których może wydawać opinie i z którymi prowadzi wymianę poglądów na szczeblu politycznym, w ten sposób zapewniając instytucjom UE wyjątkową wiedzę ekspercką opartą na doświadczeniu KN w zakresie monitorowania.

⁽¹⁾ Rozporządzenie Parlamentu Europejskiego i Rady (UE, Euratom) nr 883/2013 z dnia 11 września 2013 r. dotyczące dochodzeń prowadzonych przez Europejski Urząd ds. Zwalczania Nadużyć Finansowych (OLAF) oraz uchylające rozporządzenie (WE) nr 1073/1999 Parlamentu Europejskiego i Rady i rozporządzenie Rady (Euratom) nr 1074/1999 (Dz.U. L 248 z 18.9.2013, s. 1).

PRZEDMOWA PRZEWODNICZĄCEGO

Jako przewodniczący Komitetu Nadzoru Europejskiego Urzędu ds. Zwalczenia Nadużyć Finansowych mam przyjemność przedstawić Państwu roczne sprawozdanie z działalności naszego Komitetu zgodnie z art. 15 ust. 9 rozporządzenia (UE, Euratom) nr 883/2013.

Jest to drugie sprawozdanie z działalności obecnego Komitetu Nadzoru i zawiera ono przegląd głównych działań przeprowadzonych w okresie sprawozdawczym liczonym od dnia 1 lutego 2013 r. do dnia 31 stycznia 2014 r.

Rozdziały 1 i 2 zawierają kompleksowy opis działań KN w zakresie monitorowania. Rozdziały te dotyczą w szczególności monitorowania wykonywania przez OLAF jego funkcji dochodzeniowej oraz zarządzania OLAF-em w związku z jego zadaniami dochodzeniowymi. **Rozdziały 3 i 4** dotyczą stosunków KN z OLAF-em oraz z instytucjami UE i innymi zainteresowanymi stronami. **Rozdziały 5 i 6** zawierają przegląd metod pracy Komitetu, dokumentów programowych przyjętych przez Komitet oraz uwagi dotyczące jego sekretariatu.

Pod koniec okresu sprawozdawczego jeden z członków KN, Jens Madsen, opuścił Komitet, aby objąć nowe, ambitne stanowisko w swojej krajowej administracji. Korzystając z okazji, w niniejszym sprawozdaniu pragnę podziękować Jensowi Madsenowi za jego cenny wkład w prace Komitetu oraz pragnę powitać Dimitriosia Zimianitisa — nowego członka Komitetu od dnia 1 lutego 2014 r.

Ponadto chciałbym złożyć szczególne podziękowania pracownikom naszego sekretariatu za ich nieocenione wsparcie i wysokiej jakości pracę, które w dużej mierze stanowią o skuteczności monitorowania przez Komitet wykonywania przez OLAF jego funkcji dochodzeniowej.

Bruksela, dnia 12 marca 2014 r.

Johan DENOLF

1. MONITOROWANIE DOCHODZEŃ OLAF-u

1. Komitet Nadzoru OLAF (KN) monitoruje różne aspekty działań dochodzeniowych OLAF-u na podstawie informacji, które dyrektor generalny OLAF-u ma obowiązek przedstawić, oraz informacji żądanych przez KN z jego własnej inicjatywy.

Artykuł 15 ust. 1 akapit trzeci rozporządzenia (UE, Euratom) nr 883/2013:

Komitet Nadzoru przekazuje dyrektorowi generalnemu opinie, w tym również, w stosownych przypadkach, zalecenia dotyczące między innymi zasobów niezbędnych do wykonywania przez Urząd zadań dochodzeniowych, priorytetów Urzędu odnoszących się do dochodzeń oraz czasu trwania dochodzeń. Opinie te mogą być wydawane z jego własnej inicjatywy lub na wniosek dyrektora generalnego lub instytucji, organu, urzędu lub agencji, nie ingerując jednak w przebieg dochodzeń będących w toku.

Instrukcje dla pracowników dotyczące procedur dochodzeniowych

2. Dnia 7 lutego 2013 r. dyrektor generalny OLAF-u przedłożył KN egzemplarz zmienionej wersji instrukcji dla pracowników dotyczących procedur dochodzeniowych (instrukcje dla pracowników). Dnia 5 lipca 2013 r. dyrektor generalny OLAF-u przedstawił KN drugą zmienioną wersję instrukcji dla pracowników mającą na celu dostosowanie procedur dochodzeniowych OLAF-u do nowych przepisów przewidzianych w rozporządzeniu (UE, Euratom) nr 883/2013 (projekt rozporządzenia). Dyrektor generalny OLAF-u poinformował KN o swoim zamiarze przyjęcia zmienionych instrukcji dla pracowników w dniu 31 lipca 2013 r.
3. Dnia 30 lipca 2013 r. KN przedstawił szereg uwag i pytań dotyczących zmienionych instrukcji dla pracowników ⁽¹⁾, zaznaczając przy tym, że w tak krótkim czasie nie może przeprowadzić szczegółowej analizy zmienionych instrukcji dla pracowników. KN przeanalizował w szczególności przepisy dotyczące procedury selekcji oraz prowadzenia dochodzenia i spraw dotyczących koordynacji.
4. KN uznał, że w zmienionych instrukcjach dla pracowników należy między innymi:
 - wyraźnie stwierdzić, iż przewidziane w rozporządzeniu pojęcie „wystarczających podejrzeń” stanowi warunek wstępny wszczęcia dochodzenia,
 - wyraźnie przedstawić podział na osoby dokonujące selekcji i osoby prowadzące kontrolę dochodzeń w dziale selekcji i kontroli dochodzeń,
 - zachować wyraźny podział na dochodzenia wewnętrzne i zewnętrzne ze względu na różnice w uprawnieniach dochodzeniowych OLAF-u,
 - zawrzeć przepisy dotyczące organizacji szerszej wewnętrznej kontroli zgodności z prawem nie tylko działań dochodzeniowych wymienionych w instrukcjach dla pracowników, lecz także działań, które nie zostały konkretnie przewidziane w instrukcjach dla pracowników, a które mogą jednak potencjalnie powodować ingerencję w prawa osób objętych dochodzeniem.
5. Dnia 5 września 2013 r. na wniosek KN dyrektor generalny OLAF-u przedstawił swoje uwagi i dodatkowe informacje dotyczące kwestii poruszonych przez KN. Poinformował on również KN o zakończeniu wprowadzania zmian do instrukcji dla pracowników, w których uwzględniono niektóre uwagi KN, i przekazał KN końcowy projekt nowych wytycznych dla pracowników OLAF-u dotyczących procedur dochodzeniowych, zastępujących instrukcje dla pracowników.

Priorytety polityki dochodzeniowej

6. Opinia nr 1/2014 zawiera ocenę priorytetów polityki dochodzeniowej OLAF-u, które corocznie są ustalane przez dyrektora generalnego OLAF-u i publikowane w rocznym planie zarządzania ⁽²⁾.
7. KN porównał priorytety polityki dochodzeniowej na 2012 r. i na 2013 r. z projektem priorytetów polityki dochodzeniowej na 2014 r. i z zadowoleniem przyjął fakt, że priorytety na 2014 r. zdefiniowano lepiej w rezultacie uwag KN wyrażonych w trakcie posiedzeń technicznych z dyrektorem generalnym OLAF-u, zgodnie z którymi priorytety polityki dochodzeniowej nie powinny zawierać ogólnych zasad (które zawsze należy brać pod uwagę, podejmując decyzje dotyczące wszczęcia dochodzenia), a jedynie konkretne obszary lub rodzaje nadużyć finansowych, które OLAF powinien traktować priorytetowo.
8. KN ustalił, że w projekcie priorytetów polityki dochodzeniowej na 2014 r. całkowicie wykluczono wskaźniki finansowe, które w poprzednich latach były zawyżone. KN podkreślił, że tego rodzaju wskaźniki powinny mieć znaczenie przy dokonywaniu oceny stopnia występującego ryzyka nadużyć finansowych i mogą być przydatne jako element odniesienia oraz jako wewnętrzne wytyczne dotyczące stosowania zasady proporcjonalności. KN zwrócił również uwagę na potrzebę ponownego rozważenia polityki w zakresie pomocniczości/wartości dodanej oraz stosowania jej z zachowaniem ostrożności, a także na potrzebę regularnej oceny priorytetów polityki dochodzeniowej.
9. KN wskazał, że konieczne jest wyjaśnienie priorytetów polityki dochodzeniowej i zalecił, aby dyrektor generalny OLAF-u wydał wytyczne dotyczące stosowania zasad wyboru ustanowionych w rozporządzeniu (UE, Euratom) nr 883/2013 oraz aby rozpoczęto konstruktywny dialog z zainteresowanymi stronami na temat określenia i wdrożenia priorytetów polityki dochodzeniowej, zwłaszcza w odniesieniu do wskaźników finansowych i możliwych działań następczych dotyczących spraw oddalonych, w przypadku gdy ocena takich spraw prowadzi do wniosku, że istnieją wystarczające podejrzenia nadużycia finansowego. Na tym etapie KN nadal trudno jest docenić wyniki działalności OLAF-u w obszarach objętych priorytetami polityki dochodzeniowej, ponieważ sam OLAF nie przeprowadził żadnej oceny skutków priorytetów polityki dochodzeniowej. W związku z tym KN poprosił dyrektora generalnego OLAF-u o przedłożenie oceny wyników wdrożenia priorytetów polityki dochodzeniowej na 2012 i 2013 r. w każdym z priorytetowych obszarów, wraz ze streszczeniem informacji zwrotnych przedłożonych przez zainteresowane strony.

⁽²⁾ Zob. załącznik 3.

Selekcja spraw w OLAF-ie

10. W opinii nr 2/2014 dotyczącej wyboru spraw w OLAF-ie ⁽¹⁾ dokonano oceny efektywności, jakości i przejrzystości procesu selekcji w OLAF-ie. Ocenę KN przeprowadzono między innymi na podstawie analizy próbki składającej się z 293 opinii działu selekcji i kontroli dochodzeń OLAF-u, w których zalecono oddalenie spraw lub wszczęcie dochodzenia/spraw dotyczących koordynacji.
11. W pierwszej kolejności KN dokonał oceny efektywności działań z zakresu selekcji, analizując zasoby, jakie udostępniono działowi selekcji i kontroli dochodzeń, aby mógł wykonywać swoje zadania, oraz konkretne wyniki osiągnięte w latach 2012 i 2013. Z ustaleń KN wynika, że czasami brakowało fachowej wiedzy technicznej, dochodzeniowej oraz znajomości języka lub wiedza ta była niewystarczająca; nie przedstawiono w wystarczającym stopniu analizy prawnej; w niektórych przypadkach czas przeznaczony na dokonanie selekcji (obowiązkowy okres dwóch miesięcy) nie wydawał się odpowiedni; potrzebna jest również jasna procedura dotycząca sposobu postępowania w odniesieniu do osób zgłaszających przypadki naruszenia.
12. Następnie KN dokonał oceny jakości opinii pod względem ich zgodności z kryteriami wyboru określonymi przez dyrektora generalnego OLAF-u. KN ustalił, że instrukcje dotyczące wdrażania kryteriów wyboru nie były ściśle przestrzegane: oceniając kompetencje OLAF-u do działania, w niewielkim stopniu brano pod uwagę stosowne instrumenty prawne; osobom dokonującym selekcji brakowało dokładnych wskaźników umożliwiających ocenę wystarczalności informacji; w przypadku gdy istniały takie wskaźniki, nie korzystano z nich w sposób stały i konsekwentny; często korzystano z niepotwierdzonych oświadczeń.
13. Ponadto dokładnie zbadano przejrzystość procesu selekcji, analizując przepływ informacji w trakcie całego procesu selekcji, w szczególności w zakresie współpracy między działem selekcji i kontroli dochodzeń a działami dochodzeniowymi.
14. KN skierował szereg zaleceń do dyrektora generalnego OLAF-u mających na celu usprawnienie działań z zakresu selekcji prowadzonych przez dział selekcji i kontroli dochodzeń. Jako ogólny wniosek ze swojej oceny KN wydał ostateczne zalecenie, aby OLAF przeprowadził wewnętrzną ocenę działań prowadzonych przez dział selekcji i kontroli dochodzeń mającą na celu ustalenie między innymi poziomu niezbędnych zasobów, mocnych i słabych stron działu oraz „poziomu błędu” w odniesieniu do ocenianych spraw. KN poprosił również dyrektora generalnego, aby poinformował on Komitet o działaniach następczych podjętych w związku z zaleceniami zawartymi w tej opinii w terminie jednego roku od jej przyjęcia.

Czas trwania dochodzeń

Artykuł 11 ust. 7 rozporządzenia (WE) nr 1073/1999:

Jeżeli dochodzenie trwa dłużej niż 9 miesięcy, dyrektor informuje Komitet Nadzoru o powodach, ze względu na które nie można jeszcze zakończyć dochodzenia i przewidywanym terminie jego zakończenia.

Art. 7 ust. 8 rozporządzenia (UE, Euratom) nr 883/2013:

Jeżeli dochodzenie nie może zostać zakończone w terminie 12 miesięcy po jego wszczęciu, dyrektor generalny, po upływie tego 12-miesięcznego okresu, a następnie co sześć miesięcy, składa sprawozdanie Komitetowi Nadzoru, wskazując przyczyny i środki naprawcze przewidziane w celu przyspieszenia dochodzenia.

15. KN monitorował czas trwania dochodzeń OLAF-u, wykorzystując jako źródło informacji sprawozdania dotyczące dochodzeń trwających dłużej niż 9 miesięcy ⁽²⁾ oraz sprawozdania sporządzone w sprawach przekazanych krajowym organom sądowym przez OLAF na podstawie dawnego rozporządzenia (WE) nr 1073/1999, a także inne dokumenty związane ze sprawami, w przypadku gdy udzielono dostępu do systemu zarządzania sprawami OLAF-u (CMS).
16. KN rozpoczął analizę przyczyn przedstawionych przez OLAF w celu wyjaśnienia czasu trwania spraw trwających dłużej niż dziewięć miesięcy: zawikłaność sprawy, której dotyczy dochodzenie, brak zasobów, niski priorytet sprawy, brak współpracy. KN zauważył rozbieżność między dyrekcjami dochodzeniowymi a ich działami, dotyczącą dokładności przedstawianych wyjaśnień. Analiza KN jest nadal w toku.
17. W rozporządzeniu (UE, Euratom) nr 883/2013 wprowadzono dwie istotne zmiany mające na celu umożliwienie KN lepszego monitorowania czasu trwania dochodzeń: zastąpienie sprawozdań dotyczących spraw trwających dłużej niż dziewięć miesięcy sprawozdaniami dotyczącymi spraw trwających dłużej niż 12 miesięcy (co lepiej odpowiada faktycznej sytuacji, ponieważ większość dochodzeń OLAF-u trwa więcej niż 12 miesięcy) oraz nałożenie na OLAF nowego obowiązku polegającego na przedkładaniu regularnych sprawozdań co sześć miesięcy po upływie pierwszych 12 miesięcy, co pozwoli KN na śledzenie całego cyklu prowadzenia dochodzenia.

⁽¹⁾ Zob. załącznik 4. Chociaż opinię tę przyjęto w marcu 2014 r., KN postanowił załączyć ją do niniejszego sprawozdania z działalności, ponieważ niemal wszystkie prace nad tą opinią przeprowadzono w okresie sprawozdawczym.

⁽²⁾ W 2013 r. do KN wpłynęło 186 sprawozdań dotyczących dochodzeń trwających dłużej niż dziewięć miesięcy.

18. Dnia 31 stycznia 2014 r. do KN po raz pierwszy wpłynęły 83 sprawozdania dotyczące spraw trwających dłużej niż 12 miesięcy z 243 tego rodzaju spraw. KN z obawą zauważył, że chociaż OLAF dokonał rewizji formularza roboczego wykorzystanego w tych sprawozdaniach zgodnie z wymogami rozporządzenia (UE, Euratom) nr 883/2013, to jednak nowe sprawozdania przesłane do KN zawierały niewystarczające informacje, w szczególności w odniesieniu do elementów, dzięki którym KN mogłyby sprawdzić potencjalne występowanie nadmiernych opóźnień w dochodzeniach. Przykładowo w 33 z 83 sprawozdań dotyczących spraw trwających dłużej niż 12 miesięcy wskazano przyczyny i środki naprawcze przewidziane w celu przyspieszenia dochodzenia, nie przedstawiając jednak żadnych opartych na faktach informacji (tj. opisu faktów, działań dochodzeniowych podjętych przez OLAF oraz ich chronologii, ewentualnych okresów beczynności, rodzaju nadużycia finansowego, skutków finansowych, kwestii dotyczących przedawnienia itp.), bez których KN nie może dokonać pełnej oceny czasu trwania dochodzenia. Chociaż w rozporządzeniu (UE, Euratom) nr 883/2013 wzmocniono rolę KN w zakresie kontroli czasu trwania dochodzeń, OLAF nie przedstawia z własnej inicjatywy informacji wystarczających do wypełnienia przez KN tej misji. KN poruszył tę kwestię na posiedzeniu z udziałem dyrektora generalnego OLAF-u i oczekuje, że przedkładane w przyszłości sprawozdania będą miały bardziej opisowy charakter.
19. Na posiedzeniu technicznym OLAF poinformował KN o narzędziach stosowanych przez OLAF do monitorowania czasu trwania spraw, na które w głównej mierze składa się system umieszczania znaczników w CMS wskazujących terminy, w których należy przedłożyć sprawozdania dotyczące spraw trwających dłużej niż 12 miesięcy i następujące po nich sprawozdania przedkładane co sześć miesięcy. OLAF utworzył również nową strukturę kierownictwa niższego szczebla w działach dochodzeniowych, która odpowiada między innymi za monitorowanie czasu trwania dochodzeń. KN z zadowoleniem przyjmuje starania OLAF-u i jego gotowość do podnoszenia świadomości pracowników dochodzeniowych w zakresie ograniczeń czasowych. Jednocześnie KN podkreśla, że przedkładane mu sprawozdania dotyczące spraw trwających dłużej niż 12 miesięcy i następujące po nich sprawozdania przedkładane co sześć miesięcy mogą stanowić przydatne narzędzie zarządzania dla samego OLAF-u umożliwiające monitorowanie czasu trwania dochodzenia, co jest jednak niemożliwe z uwagi na brak zawartości merytorycznej w większości takich sprawozdań. Ma to szczególne znaczenie w przypadku spraw, których przedłużający się czas trwania może mieć niekorzystny wpływ na reputację i życie zawodowe osób objętych dochodzeniem lub może skutkować przedawnieniem późniejszych krajowych procedur prawnych.

Sprawy przekazane krajowym organom sądowym

Artykuł 11 ust. 7 rozporządzenia (WE) nr 1073/1999:

Dyrektor informuje komitet o przypadkach wymagających przekazania informacji organom sądowym państwa członkowskiego.

Artykuł 17 ust. 5 akapit trzeci rozporządzenia (UE, Euratom) nr 883/2013:

Dyrektor generalny okresowo informuje Komitet Nadzoru o:

(...)

b) przypadkach przekazania informacji organom sądowym państw członkowskich (...).

20. W rozporządzeniu (UE, Euratom) nr 883/2013 wprowadzono istotną zmianę dotyczącą spraw, które OLAF zamierza przekazać krajowym organom sądowym: OLAF nie musi informować KN o takich sprawach przed ich przekazaniem (tak jak w dawnym rozporządzeniu (WE) nr 1073/1999), a jedynie okresowo po ich przekazaniu.
21. Między dniem 1 lutego 2013 r. a dniem 30 września 2013 r. (do czasu wejścia w życie rozporządzenia (UE, Euratom) nr 883/2013) do KN wpłynęło 56 spraw ⁽¹⁾ wymagających przekazania informacji krajowym organom sądowym. W 18 sprawach na wniosek KN udzielono dostępu do dokumentów związanych ze sprawą znajdujących się w CMS.
22. KN nie był jednak w stanie dokładnie zbadać tych spraw przed ich przekazaniem krajowym organom sądowym z uwagi na fakt, że dostęp do akt sprawy w CMS uzyskałby dopiero po upływie pięciodniowego okresu przewidzianego w poprzednich porozumieniach z OLAF-em. Dokonana przez KN ocena stosowania przez OLAF gwarancji proceduralnych opiera się głównie na informacjach zawartych w opiniach dotyczących sprawozdań końcowych lub śródkresowych oraz w zaleceniach wydanych przez dział selekcji i kontroli dochodzeń ⁽²⁾ oraz — w przypadku gdy udzielono dostępu do spraw — na dokumentach związanych ze sprawami zarejestrowanych w CMS. KN zauważył, że ze wszystkich opinii działu selekcji i kontroli dochodzeń wynika, iż wszystkie działania dochodzeniowe przeprowadzono zgodnie z mającymi zastosowanie normami prawnymi. Na podstawie wspomnianych opinii

⁽¹⁾ W rocznym sprawozdaniu z działalności KN za 2012 r. zgłoszono 21 spraw wymagających przekazania informacji krajowym organom sądowym, które OLAF przekazał KN w styczniu 2013 r. Całkowita liczba spraw zgłoszonych w 2013 r. wynosi 77.

⁽²⁾ OLAF przekazał KN opinie dotyczące końcowego/okresowego sprawozdania i zaleceń w 72 sprawach z 77 przekazanych krajowym organom sądowym w 2013 r.

oraz innych przeanalizowanych dokumentów KN zidentyfikował jedynie odosobnione problemy dotyczące przestrzegania przez OLAF gwarancji proceduralnych (np. w jednej sprawie brak poinformowania osoby objętej dochodzeniem o zakończeniu dochodzenia, a w innej sprawie — brak pisemnego upoważnienia do przesłuchania osoby objętej dochodzeniem⁽¹⁾).

23. W jednej sprawie osoba objęta dochodzeniem zgłosiła KN domniemane poważne naruszenie przez OLAF wymogu dotyczącego poufności. Nie mając jednak żadnych odpowiednich narzędzi do zbadania sprawy (zdarzenie nie zostało wspomniane w aktach sprawy OLAF-u), KN mógł jedynie przekazać skargę dyrektorowi generalnemu OLAF-u, który zaprzeczył, aby takie naruszenie miało miejsce.
24. Dnia 31 stycznia 2014 r. KN otrzymał informacje dotyczące 17 kolejnych spraw, w których informacje przekazano organom sądowym państw członkowskich od dnia 1 października 2013 r. (od wejścia w życie rozporządzenia (UE, Euratom) nr 883/2013). Z uwagi na fakt, że informacje te wpłynęły w ostatnim dniu okresu objętego niniejszym sprawozdaniem z działalności, KN zwrócił się z wnioskiem o udzielenie dodatkowych informacji i zbada te sprawy później w 2014 r.

Decyzje o odroczeniu przekazania informacji instytucji, organowi, urzędowi lub agencji

Artykuł 4 ust. 6 rozporządzenia (UE, Euratom) nr 883/2013:

W przypadku gdy w wyniku dochodzeń wewnętrznych okaże się, że urzędnik, inny pracownik, członek instytucji lub organu, szef urzędu lub agencji lub członek personelu może stać się osobą objętą dochodzeniem, o fakcie tym informowana jest instytucja, organ, urząd lub agencja, do której osoba ta przynależy. (...)

W wyjątkowych przypadkach przekazywanie takich informacji może zostać odroczone na podstawie uzasadnionej decyzji dyrektora generalnego, która jest przekazywana Komitetowi Nadzoru po zamknięciu dochodzenia.

25. W rozporządzeniu (UE, Euratom) nr 883/2013 po raz pierwszy na dyrektora generalnego OLAF-u nałożono obowiązek przekazywania KN uzasadnionej decyzji o odroczeniu przekazania informacji instytucji, organowi, urzędowi lub agencji, do których należy dana osoba objęta wewnętrznym dochodzeniem, po zakończeniu dochodzenia. Dnia 31 stycznia 2014 r. OLAF poinformował KN, że od czasu wejścia w życie rozporządzenia nie było żadnych przypadków odroczenia przekazania informacji.

Zalecenia dyrektora generalnego OLAF-u

Artykuł 11 ust. 7 rozporządzenia (WE) nr 1073/1999:

Dyrektor informuje komitet o przypadkach, w których dana instytucja, organ, urząd lub agencja nie podjęła działań wynikających z jego zaleceń.

Artykuł 17 ust. 5 akapit trzeci rozporządzenia (UE, Euratom) nr 883/2013:

Dyrektor generalny okresowo informuje Komitet Nadzoru o:

a) przypadkach niezastosowania się do zaleceń dyrektora generalnego (...).

26. W okresie sprawozdawczym i w praktyce od początku pełnienia swojego mandatu KN otrzymywał bardzo ograniczone informacje dotyczące spraw, w których nie zastosowano się do zaleceń dyrektora generalnego. W wyniku własnego dochodzenia KN stwierdził, że, podobnie jak w poprzednich latach, nie zastosowano się do znacznej liczby takich zaleceń. W swoich poprzednich sprawozdaniach z działalności KN podkreślił, że wydaje się, iż sam OLAF w przeszłości nie dysponował odpowiednimi narzędziami monitorowania umożliwiającymi mu prawidłowe śledzenie wykonywania jego zaleceń przez organy krajowe i unijne.
27. Po reorganizacji OLAF-u w 2012 r. monitorowanie wykonywania jego zaleceń zostało zdecentralizowane poprzez przeniesienie tego zadania na działy dochodzeniowe. Obecnie OLAF pracuje nad opracowaniem i wdrożeniem nowych narzędzi monitorowania umożliwiających lepsze śledzenie wyników i skutków jego zaleceń. KN zauważył, że OLAF podjął już znaczne starania mające na celu ocenę wykonania jego zaleceń, zwłaszcza zaleceń o charakterze sądowym i finansowym. Przykładowo OLAF dokonuje obecnie przeglądu ponad 600 spraw zakończonych wydaniem zaleceń o charakterze sądowym. KN z zainteresowaniem przyjął schemat oceny zastosowany w tym przeglądzie, zgodnie z którym działania następcze krajowych organów sądowych dotyczące zaleceń skontrolowano w odniesieniu do kluczowych etapów krajowych postępowań sądowych (wszczynania dochodzeń, decyzji dotyczących postawienia w stan oskarżenia lub zwolnienia, wyroków uniewinniających lub skazujących itp.). Jeżeli chodzi o działania następcze dotyczące zaleceń o charakterze finansowym, OLAF dąży do udoskonalenia swoich procedur tak, aby mógł ustalać kwoty **rzeczywiście odzyskane** do budżetu UE.

⁽¹⁾ W drugiej z wymienionych sytuacji przesłuchanie osoby objętej dochodzeniem przeprowadzono na podstawie zasad zawartych w poprzednim podręczniku OLAF-u.

28. KN uznaje złożoność tego działania, które nadal jest w toku, i z zadowoleniem przyjmuje gotowość OLAF-u do udoskonalania swoich narzędzi monitorowania. Na tym etapie i z powodu braku istotnych informacji jest jednak zbyt wcześnie, aby KN mógł docenić wpływ zmian wynikających z reorganizacji na skuteczność i efektywność prac OLAF-u w zakresie monitorowania. KN oczekuje od OLAF-u przekazywania lepszych informacji w przyszłości, po wdrożeniu odpowiednich narzędzi monitorowania.

Procedury OLAF-u w zakresie rozpatrywania skarg

29. W swojej opinii nr 2/2013 (ustanowienie wewnętrznej procedury OLAF-u dotyczącej skarg) przyjętej w grudniu 2013 r. ⁽¹⁾ KN zbadał możliwości dotyczące środków odwoławczych dostępne dla osób objętych dochodzeniami OLAF-u w odniesieniu do ewentualnych naruszeń ich praw i gwarancji proceduralnych. KN ustalił, że takie osoby nie mają do dyspozycji wystarczających i bezpośrednich środków prawnych, aby odwołać się w związku z ewentualnymi naruszeniami za pośrednictwem mechanizmu zewnętrznego (sądu UE lub sądu krajowego, Europejskiego Rzecznika Praw Obywatelskich, Europejskiego Inspektora Ochrony Danych) albo wewnętrznego (samego OLAF-u).
30. KN podkreślił, że w nowym rozporządzeniu (UE, Euratom) nr 883/2013 dotyczącym dochodzeń prowadzonych przez OLAF nie rozwiązano tego problemu, ponieważ nie wprowadzono w nim mechanizmu rozpatrywania indywidualnych skarg. KN wyraził opinię, że obecną lukę prawną można wypełnić za pomocą sformalizowanej procedury składania skarg w OLAF-ie, w szczególności w odniesieniu do domniemanych naruszeń praw podstawowych i gwarancji proceduralnych w trakcie dochodzenia OLAF-u.
31. KN zalecił zatem, aby dyrektor generalny OLAF-u ustanowił i opublikował taką wewnętrzną procedurę po przeprowadzeniu konsultacji z KN dotyczących szczegółów. KN stwierdził, że pragnąłby, aby dyrektor generalny OLAF-u przedstawiał KN regularne sprawozdania dotyczące skarg wpływających do OLAF-u i podejmowanych w związku z nimi działań następczych.
32. W styczniu 2014 r. OLAF opublikował na swoich stronach internetowych opis działań podejmowanych w OLAF-ie podczas rozpatrywania skarg. W następstwie wniosku KN o przedstawienie pisemnej decyzji dotyczącej ustanowienia odpowiedniej procedury dyrektor generalny OLAF-u, w swoim piśmie z dnia 17 lutego 2014 r., potwierdził, że uznaje przedmiotową publikację za sformalizowanie istniejących procedur, co nie wymagało z jego strony wydania formalnej decyzji na piśmie.
33. **W rezultacie KN musi stwierdzić, że jego zalecenie nie zostało zrealizowane. KN jest zaniepokojony zagrożeniem polegającym na wprowadzaniu w błąd obywateli, którzy chcieliby złożyć skargę do OLAF-u. Mogą oni uznać, że tekst zamieszczony na stronach internetowych OLAF-u stanowi dla nich ramy prawne dotyczące skargi, podczas gdy w rzeczywistości właściwa procedura (w odniesieniu do skarg dotyczących gwarancji proceduralnych) formalnie nie istnieje, ponieważ nie ma żadnego aktu prawnego stanowiącego podstawę prawną takiej procedury.**

Skargi i wnioski kierowane do Komitetu Nadzoru

34. W badanym okresie sprawozdawczym do KN wpłynęło **14 skarg i wniosków** od osób fizycznych. Stanowi to wzrost o 100 % w porównaniu z poprzednim rokiem. Skargi dotyczyły między innymi domniemanego braku poszanowania praw podstawowych i gwarancji proceduralnych, naruszenia poufności dochodzeń, zbyt długiego czasu trwania dochodzeń i rzekomo bezprawnego kończenia spraw bez wydania zaleceń. Skargi kierowały głównie osoby objęte dochodzeniami OLAF-u, lecz także osoby zgłaszające przypadki naruszenia niezadowolone z decyzji podjętych przez OLAF w związku ze zgłoszonym przez nie domniemanym nadużyciem finansowym.
35. W odpowiedzi na skargi KN podkreślił, że w ramach obecnie obowiązującego rozporządzenia KN nie został wyznaczony do pełnienia funkcji organu rozpatrującego skargi. KN wziął jednak pod uwagę wspomniane skargi w ramach systemowego monitorowania funkcji dochodzeniowej OLAF-u i — w przypadkach, w których uznał to za stosowne — zwrócił się do OLAF-u o udzielenie dalszych informacji i wyjaśnień lub pełnego dostępu do akt spraw w CMS.
36. W styczniu 2014 r. do KN wpłynęło formalne powiadomienie od instytucji UE, która wyraziła swoje obawy dotyczące rzekomo nieuzasadnionej ingerencji OLAF-u w prawo do ochrony danych osobowych urzędników tej instytucji. W swojej odpowiedzi KN podkreślił, że przedmiotowy zarzut dotyczył trwającego dochodzenia, w które KN nie może interweniować. KN wskazał również, że właściwym organem do rozpatrywania tego rodzaju skargi jest Europejski Inspektor Ochrony Danych oraz że KN będzie musiał poczekać na jego decyzję.

⁽¹⁾ Zob. załącznik 2.

37. Do KN wpłynęły dwa wnioski o udzielenie dostępu do jego opinii nr 2/2012. KN uznał, że dokument, którego dotyczyły wnioski, był objęty zakresem wyjątków określonych w art. 4 rozporządzenia (WE) nr 1049/2001 Parlamentu Europejskiego i Rady ⁽¹⁾, w szczególności w art. 4 ust. 2 tiret drugie i trzecie oraz w art. 4 ust. 1 lit. b), a zatem w tym czasie nie mógł zostać publicznie ujawniony. KN wyraził jednak gotowość do przedłożenia wspomnianego dokumentu, jeżeli zostanie złożony taki wniosek, w ramach trwającego postępowania sądowego.
38. Ponadto krajowy organ sądowy zwrócił się z wnioskiem o zniesienie nienaruszalności archiwów KN w odniesieniu do opinii nr 2/2012 oraz obowiązku pozostawania w rezerwie członków KN do celów postępowania krajowego. KN przychylił się do tego wniosku.
39. Regulamin pracowniczy urzędników Unii Europejskiej i warunki zatrudnienia innych pracowników Unii Europejskiej stanowią, że każdy urzędnik lub inny pracownik, który dowiadyuje się o faktach, które mogą wzbudzić podejrzenie co do nielegalnej działalności lub o postępowaniu związanym z wykonywaniem obowiązków służbowych, które może stanowić poważne zaniedbanie w wypełnianiu zobowiązań urzędników unijnych, niezwłocznie powiadamia swojego bezpośredniego przełożonego lub dyrektora generalnego, lub, jeżeli uznaje to za właściwe, Sekretarza Generalnego lub OLAF ⁽²⁾. Zasady te mają takie samo zastosowanie w OLAF-ie, co oznacza, że pracownicy OLAF-u mają obowiązek zgłoszenia jednemu ze swoich przełożonych w hierarchii OLAF-u lub, jeżeli uznają to za właściwe, bezpośrednio Sekretarzowi Generalnemu Komisji wszelkich informacji faktycznych i dowodów dotyczących ewentualnych bezprawnych działań lub poważnych uchybień związanych z wykonywaniem działalności zawodowej w ramach OLAF-u, które są im znane. Aby uwzględnić szczególną sytuację pracowników OLAF-u chcących zgłosić ewentualne nieprawidłowości w OLAF-ie, uzgodniono ⁽³⁾ z KN, że takie sprawy będą zgłaszane jego przewodniczącemu.
40. Do KN nigdy nie wpłynęło żadne tego rodzaju zgłoszenie. Możliwe, że pracownicy OLAF-u nie zostali należycie powiadomieni o przedmiotowej procedurze, ale co ważniejsze, KN nie przyznano żadnych narzędzi umożliwiających prowadzenie działań następczych w związku z takimi ewentualnymi skargami oraz zapewnienie skutecznego dochodzenia i środka odwoławczego.

2. MONITOROWANIE ZARZĄDZANIA FUNKCJĄ DOCHODZENIOWĄ OLAF-u

Artykuł 6 ust. 2 decyzji Komisji ustanawiającej OLAF, zmienionej decyzją Komisji 2013/478/UE ⁽⁴⁾: Po konsultacji z Komitetem Nadzorczym dyrektor generalny przekazuje dyrektorowi generalnemu ds. budżetu wstępny projekt budżetu, który ma zostać włączony do załącznika dotyczącego Urzędu w sekcji ogólnego budżetu Unii Europejskiej dotyczącej Komisji.

Artykuł 15 ust. 1 akapit trzeci rozporządzenia (UE, Euratom) nr 883/2013:

Komitet Nadzoru przekazuje dyrektorowi generalnemu opinie, w tym również, w stosownych przypadkach, zalecenia dotyczące między innymi zasobów niezbędnych do wykonywania przez Urząd zadań dochodzeniowych (...).

Wstępny projekt budżetu OLAF-u na rok 2014

41. Aby potwierdzić, że w budżecie OLAF-u należy uwzględnić niezależność OLAF-u w prowadzonych przez niego działaniach dochodzeniowych oraz że OLAF dysponuje zasobami, dzięki którym funkcjonuje skutecznie i efektywnie jako służba międzyinstytucjonalna pod względem intensyfikacji zwalczania nadużyć finansowych, KN przyjął **opinię nr 1/2013** dotyczącą **wstępnego projektu budżetu OLAF-u na rok 2014** ⁽⁵⁾.
42. KN przeanalizował przydział zasobów do działań priorytetowych oraz strategię w zakresie zasobów ludzkich. Zalecenia KN dotyczyły w szczególności działań następczych w związku z dochodzeniami oraz opracowania wskaźników dotyczących efektywności i jakości funkcji dochodzeniowej zgodnych z polityką UE w zakresie zwalczania nadużyć finansowych i strategią Komisji w zakresie zwalczania nadużyć finansowych. Zalecono również, aby OLAF skupił się na szkoleniu, rozwoju zawodowym, planowaniu przejmowania funkcji i odpowiedniej równowadze pomiędzy pracownikami świadczącymi usługi wspierające a pracownikami dochodzeniowymi.
43. KN podkreślił znaczenie konsultacji z KN poprzez faktyczną i merytoryczną wymianę opinii między dyrektorem generalnym OLAF-u a KN **przed** przesłaniem wstępnego projektu budżetu w jakiegokolwiek formie dyrektorowi generalnemu ds. budżetu.

⁽⁵⁾ Zob. załącznik 1.

44. Ponadto KN zalecił wprowadzenie oddzielnej pozycji w budżecie OLAF-u zarówno dla KN, jak i dla jego sekretariatu, w celu wyjaśnienia kosztów funkcji KN oraz podkreślenia międzyinstytucjonalnego charakteru KN i jego sekretariatu w przejrzysty sposób. Ponadto KN podkreślił, że ważne jest, aby dyrektor generalny przydzielał sekretariatowi KN wystarczające zasoby i zapewniał jego niezależne funkcjonowanie.
45. KN poparł wstępny projekt budżetu na rok 2014 pod warunkiem uwzględnienia zaleceń zawartych w przedmiotowej opinii.

Reorganizacja OLAF-u i badania zadowolenia personelu

46. Wyniki badania przeprowadzonego w 2013 r. w całej Komisji, po którym nastąpiło wewnętrzne badanie w OLAF-ie, świadczą o niskim poziomie zadowolenia personelu z ich środowiska pracy. KN jest szczególnie zaniepokojony trzema elementami ze względu na ich potencjalny wpływ na efektywność funkcji dochodzeniowej OLAF-u:
- według personelu OLAF-u szeroko zakrojona reorganizacja Urzędu nie spowodowała zmniejszenia obciążenia administracyjnego pracowników dochodzeniowych ani zwiększenia przejrzystości procedur wewnętrznych,
 - pracownicy nie uważali, że kadra kierownicza wyższego szczebla OLAF-u komunikuje się z nimi w wystarczającym stopniu lub przykłada należyta uwagę do udzielanych przez nich informacji zwrotnych,
 - w następstwie reorganizacji OLAF-u w 2012 r. wszyscy kierownicy wyższego szczebla i ponad 75 % kierowników średniego szczebla zostało na nowo wyznaczonych do ich obecnych działów/dyrekcji, wielu pracowników odeszło, a ponad jedna czwarta pozostałego personelu rozważała odejście, co łącznie budzi poważne wątpliwości dotyczące ciągłości wiedzy eksperckiej w Urzędzie.
47. W związku z tym KN zwrócił się do dyrektora generalnego OLAF-u o regularne przekazywanie informacji na temat środków przewidywanych lub wdrożonych w celu rozwiązania wspomnianych problemów.

3. WSPÓŁPRACA Z OLAF-em

Działania następcze OLAF-u w związku z zaleceniami wydanymi przez Komitet Nadzoru

48. W 2012 r. KN wydał szereg zaleceń skierowanych do dyrektora generalnego OLAF-u, dotyczących w szczególności ochrony praw podstawowych i gwarancji proceduralnych⁽¹⁾. Ze wstępnej analizy KN wynika, że wdrożenie większości zaleceń z 2012 r. nie było zadowalające. Odpowiedzi dyrektora generalnego OLAF-u nie zawierały wystarczającego uzasadnienia dla braku realizacji zaleceń ani merytorycznych informacji dotyczących sposobu, w jaki zalecenia rzekomo wdrożono. Dlatego też KN zbada tę kwestię w oddzielnej opinii, którą wyda w 2014 r.

Porozumienia robocze z OLAF-em

49. W okresie sprawozdawczym KN prowadził obszerne i długie dyskusje z dyrektorem generalnym OLAF-u na temat dostępu KN do informacji dotyczących spraw. Wynik tych dyskusji znajduje odzwierciedlenie w porozumieniach roboczych⁽²⁾ podpisanych przez dyrektora generalnego OLAF-u i przewodniczącego KN dnia 14 stycznia 2014 r. W porozumieniach określono: (i) zakres informacji przekazywanych KN dotyczących działań dochodzeniowych OLAF-u; (ii) metodykę przekazywania informacji; oraz (iii) ramy czasowe. Ich celem jest osiągnięcie właściwej równowagi pomiędzy obowiązkiem OLAF-u polegającym na ochronie poufności danych związanych z jego dochodzeniami a potrzebami KN w zakresie monitorowania.
50. Jeżeli chodzi o sprawy przekazane krajowym organom sądowym, KN stwierdził, że pragnąłby otrzymać kopię opinii skierowanych przez dział selekcji i kontroli dochodzeń do dyrektora generalnego OLAF-u dotyczących sprawozdania końcowego i zaleceń, aby umożliwić KN monitorowanie zmian dotyczących stosowania gwarancji proceduralnych. Ponieważ dokument ten może zawierać dane osobowe, KN uzgodnił z OLAF-em, że w pierwszej kolejności poprosi o opinię w tej kwestii Europejskiego Inspektora Ochrony Danych. Obecnie oczekuje się na przedmiotową opinię.

⁽¹⁾ Zob. streszczenie w załączniku 7.

⁽²⁾ Zob. załącznik 10.

51. Dnia 31 stycznia 2014 r., czyli ostatniego dnia okresu sprawozdawczego, którego dotyczy niniejsze sprawozdanie, po raz pierwszy na podstawie porozumień roboczych przekazano informacje, które dyrektor generalny OLAF-u ma obowiązek regularnie przekazywać KN. W rezultacie bardziej szczegółowa ocena realizacji porozumień zostanie przedstawiona w następnym sprawozdaniu.
52. Chociaż KN uznaje, że porozumienia robocze są istotnym osiągnięciem, obecnie uważa on, iż należy udoskonalić ich realizację, zwłaszcza pod względem treści informacji, które OLAF przekazuje KN. W przeciwnym razie KN nie będzie w stanie skutecznie pełnić swoich funkcji w zakresie monitorowania.

4. WSPÓLPRACA Z ZAINERESOWANYMI STRONAMI

Posiedzenia z instytucjami UE

53. W okresie od maja do lipca 2013 r. wezwano KN do przedstawienia wniosków z jego sprawozdania z działalności za 2012 r. Parlamentowi (Komisji Kontroli Budżetowej), Radzie (Grupie Roboczej ds. Zwalczenia Nadużyć Finansowych) i Trybunałowi Obrachunkowemu.
54. Na kilku innych posiedzeniach z udziałem Komisji Kontroli Budżetowej i komisarza Algirdasa Šemety KN przedstawił wyniki dochodzeń OLAF-u oraz informacje dotyczące poszanowania praw podstawowych. KN przedstawił również swoje wnioski dotyczące skuteczności nadzoru OLAF-u, reformy rozporządzenia w sprawie OLAF-u oraz nowej struktury nadzoru OLAF-u zaproponowanej w komunikacie Komisji „Poprawa zarządzania OLAF-u oraz wzmocnienie gwarancji proceduralnych w dochodzeniach” ⁽¹⁾.
55. W listopadzie 2013 r. KN zorganizował nieformalną wymianę opinii dotyczących wyzwań, przed którymi stanął OLAF i jego KN po wejściu w życie rozporządzenia (UE, Euratom) nr 883/2013.

Wymiana opinii z instytucjami UE

56. W sierpniu 2013 r. KN rozpoczął przygotowania do sformalizowanej wymiany poglądów z Komisją, Parlamentem, Radą i Trybunałem Obrachunkowym na temat polityki związanej z działaniami OLAF-u, jak przewidziano w art. 16 rozporządzenia (UE, Euratom) nr 883/2013. KN zaproponował, aby w pierwszej kolejności skoncentrowano się na ramach nadzoru zreformowanego OLAF-u. Niestety administracja Komisji zorganizowała posiedzenia przygotowawcze z udziałem wszystkich pozostałych uczestników, ale z wyłączeniem KN. Nadal konieczne jest zatem ustalenie, czy w ramach pierwszej wymiany poglądów zostaną spełnione cele określone w rozporządzeniu.

Otwarte posiedzenie Parlamentu Europejskiego na temat gwarancji proceduralnych

57. W październiku 2013 r., w oparciu o posiadane doświadczenie w zakresie monitorowania, KN przyjął **stanowisko** dotyczące **wzmocnienia gwarancji proceduralnych w OLAF-ie** ⁽²⁾. Stanowisko KN dotyczące ewentualnych nowych zmian prawnych w rozporządzeniu (UE, Euratom) nr 883/2013, zaproponowanych przez Komisję w jej komunikacie, przedstawiono na otwartym posiedzeniu zorganizowanym przez Parlament ⁽³⁾.
58. KN z zadowoleniem przyjął wniosek Komisji, wskazując jednak, że niektóre rozwiązania strukturalne należy jeszcze raz rozważyć ze szczególnym uwzględnieniem niezależności OLAF-u i KN. W szczególności należy unikać wszelkich potencjalnych konfliktów kompetencji między obecną a przewidywaną strukturą nadzoru oraz dublowania się ich pracy. KN zaproponował alternatywne rozwiązania, w ramach których zachowano by przydatne instrumenty zaproponowane przez Komisję, jednocześnie włączając je jednak do kompleksowego mechanizmu nadzoru.

Spółczesność obywatelskie

59. Biuro Transparency International przy UE podjęło decyzję o przeprowadzeniu oceny systemu rzetelności życia publicznego w UE ⁽⁴⁾. W styczniu 2014 r. odbyło się spotkanie przewodniczącego KN i członków sekretariatu KN z przedstawicielami biura Transparency International przy UE, na którym omawiano kwestie takie, jak stosunki między OLAF-em a KN, odpowiedzialność i niezależność OLAF-u oraz zasady etyki zawodowej, jakimi rządzi się sam KN.

5. ZARZĄDZANIE KOMITETEM NADZORU

Rola Komitetu Nadzoru na mocy rozporządzenia (UE, Euratom) nr 883/2013

60. W rozporządzeniu (UE, Euratom) nr 883/2013 wprowadzono szereg zmian dotyczących roli KN i jego narzędzi monitorowania. Znaczną część posiedzeń KN przeznaczono zatem na omówienie wpływu tych zmian na działalność KN.
61. KN przeprowadził dogłębną analizę zmian dotyczących misji i roli KN, jego podstawowych zadań oraz narzędzi z zakresu monitorowania i sprawozdawczości. W związku z nowym rozporządzeniem w sprawie OLAF-u w **dokumencie** KN dotyczącym **misji, kompetencji i celów KN** ⁽¹⁾ wyjaśniono przedmiotowe zmiany, model monitorowania KN i rolę jego sekretariatu, którego niezależne funkcjonowanie jest gwarancją niezależności samego KN.

Priorytety i cele

62. KN określił strategiczne cele i priorytety na nadchodzący okres swojego mandatu, ukierunkowane na zwiększenie skuteczności i wpływu jego podstawowej działalności, a zatem na wsparcie funkcji dochodzeniowej OLAF-u i zwiększenie jego niezależności. KN określił następujące cele strategiczne: (i) opracowanie skutecznych i pragmatycznych narzędzi monitorowania; (ii) usprawnienie współpracy z OLAF-em i jego dyrektorem generalnym; (iii) działanie w charakterze zainteresowanej strony w ramach realizacji polityki w zakresie zwalczania nadużyć finansowych; (iv) zwiększenie widoczności KN wśród instytucji UE i państw członkowskich; (v) opracowanie metod pracy KN; (vi) zabezpieczenie niezależnego funkcjonowania KN i jego sekretariatu; (vii) wkład we wnioski ustawodawczy dotyczące wzmocnienia nadzoru OLAF-u. Aby osiągnąć te cele, KN określił szereg priorytetów, które również przedstawił w dokumencie dotyczącym **misji, kompetencji i celów KN**, który stanowi jednocześnie **strategię śródkresową** KN.

Kodeks postępowania

63. Dnia 9 października 2013 r. KN przyjął **kodeks postępowania** wraz z **uzasadnieniem** dotyczącym **gwarancji bezstronności i ryzyka konfliktu interesów przy wykonywaniu funkcji monitorowania** ⁽²⁾. KN podkreślił, że jego członkowie na ogół sprawują kluczowe funkcje w ich krajowym systemie sądownictwa lub w administracji krajowej, dzięki czemu mogą działać w charakterze odpowiednika/partnera OLAF-u na szczeblu krajowym na każdym etapie sprawy OLAF-u. Jednocześnie regularnie monitorują oni sprawy OLAF-u, w szczególności sprawy wymagające przekazania informacji krajowym organom sądowym. W związku z tym może dochodzić do sytuacji, w których osoby te będą zajmowały się tą samą sprawą OLAF-u zarówno w ramach ich obowiązków krajowych, jak i jako członkowie KN. Kluczowe znaczenie ma zatem dopilnowanie, aby rozpatrywanie danej sprawy w takiej podwójnej roli nie powodowało żadnych faktycznych ani potencjalnych konfliktów interesów stwarzających zagrożenie dla zaufania publicznego dotyczącego bezstronności i obiektywności pracy takich osób. KN przeprowadził przegląd takich szczególnych zadań członków KN, które potencjalnie mogą prowadzić do wystąpienia konfliktu interesów, a następnie sporządził spis konkretnych sytuacji, w których może dochodzić do konfliktów interesów. W kodeksie postępowania przewidziano jasną procedurę dotyczącą zarządzania w przypadku wystąpienia konfliktu interesów.
64. W celu ujęcia tej polityki i kodeksu postępowania w wyraźnych ramach prawnych KN uznał, że odpowiednim działaniem będzie zmiana jego regulaminu. Obecnie prowadzone są prace nad zmianą regulaminu.

Metody pracy

65. W marcu 2013 r. KN powitał nowego członka — Tuomasa PÖYSTI. Na swoim posiedzeniu w październiku 2013 r. KN wybrał Johana DENOLFA na stanowisko przewodniczącego na kolejny rok.
66. Od lutego 2013 r. do stycznia 2014 r. włącznie KN zorganizował 11 posiedzeń plenarnych w Brukseli i Luksemburgu. Przewodniczący, sprawozdawcy i członkowie sekretariatu spotykali się też regularnie, aby pracować nad określonymi kwestiami, a także nad przygotowaniem posiedzeń plenarnych i nad związanymi z nimi działaniami następczymi.
67. Do każdej badanej istotnej kwestii KN wydelegował *sprawozdawcę*. Dotyczyło to zwłaszcza budżetu OLAF-u, analizy procedur OLAF-u dotyczących rozpatrywania skarg, instrukcji dyrektora generalnego dla pracowników w zakresie procedur dochodzeniowych, priorytetów polityki dochodzeniowej OLAF-u oraz analizy procesu selekcji w OLAF-ie. *Sprawozdawcy* współpracowali z sekretariatem KN przy przygotowaniu projektów opinii lub dokumentów na potrzeby omówienia ich na posiedzeniach plenarnych.

⁽¹⁾ Zob. załącznik 8.

⁽²⁾ Zob. załącznik 9.

68. Na posiedzeniu plenarnym w lutym 2013 r. sekretariat KN przedstawił kadrze kierowniczej wyższego szczebla OLAF-u metody pracy KN, w szczególności w odniesieniu do spraw przekazywanych przez OLAF krajowym organom sądowym. Wyjaśniono również, jakie informacje są niezbędne KN do prawidłowego wykonywania jego zadań. Prezentacja ta posłużyła jako podstawa do opracowania przez KN zestawu **wytycznych dotyczących monitorowania**. Od czasu wejścia w życie rozporządzenia (UE, Euratom) nr 883/2013 KN prowadzi prace nad ustanowieniem nowych wytycznych dotyczących monitorowania.

6. SEKRETARIAT KOMITETU NADZORU

69. W skład sekretariatu KN wchodzi prawnicy, pracownicy dochodzeniowi i asystenci, którzy zapewniają codzienne monitorowanie działań dochodzeniowych OLAF-u i wspierają członków KN w wykonaniu ich zadań. Sekretariat otrzymuje wszystkie informacje dostarczane do KN i przeprowadza własną wewnętrzną analizę. Sekretariat odpowiada także za sporządzanie opinii prawnych dla członków KN.

70. KN pragnie podkreślić, że jego sekretariat musi mieć możliwość udzielania KN pomocy w wykonaniu jego funkcji monitorowania w sposób lojalny i skuteczny, nie narażając się na ryzyko ewentualnych konfliktów interesów jako personel OLAF-u podlegający dyrektorowi generalnemu OLAF-u. W ciągu kilku ostatnich lat KN stale podkreślał znaczenie swojego niezależnego i skutecznego działania, które wymaga niezależnego i odpowiednio obsadzonego sekretariatu pomimo przynależności do struktury OLAF-u funkcjonującego niezależnie i pod wyłączną kontrolą KN. KN z zadowoleniem przyjmuje fakt, że niezależność funkcjonowania jego sekretariatu jest obecnie zagwarantowana rozporządzeniem (UE, Euratom) nr 883/2013 ⁽¹⁾.

71. KN określił cztery podstawowe warunki zapewniające niezależność funkcjonowania sekretariatu: (i) rekrutacja, ocena i awans kierownika sekretariatu na podstawie decyzji KN; (ii) przeklasyfikowanie kierownika sekretariatu na kierownika wyższego szczebla; (iii) rekrutacja, ocena i awans pracowników sekretariatu dokonywane przez jego kierownika; (iv) dalsze przekazanie wykonania budżetu sekretariatu jego kierownikowi. KN rozpoczął trwające nadal dyskusje z dyrektorem generalnym OLAF-u na temat wdrożenia tego nowego wymogu regulacyjnego.

72. KN jest również zadowolony, że dyrektor generalny OLAF-u ponownie ustalił, że liczba stanowisk przydzielonych sekretariatowi ma wynosić osiem, tak jak przed reorganizacją OLAF-u w 2012 r.

OPINION No 1/2013

OLAF's preliminary draft budget for 2014

Brussels, 16 July 2013

INTRODUCTION

At the meetings of 27 February and 16 July, 2013, OLAF's Supervisory Committee examined OLAF's preliminary budget for 2014 and adopted the following opinion.

In accordance with the Regulation (EC) No 1073/1999 of the European Parliament and of the Council of 25 May 1999 concerning investigations conducted by the European Anti-Fraud Office (OLAF) ⁽¹⁾ and Article 3 of the Commission Decision 1999/352/EC, ECSC, Euratom ⁽²⁾, the European Anti-Fraud Office (hereinafter OLAF) shall have full independence to exercise its investigative function in all institutions, bodies, offices and agencies established by or on the basis of the Treaty on the European Union, Treaty on the Functioning of the European Union and the Euratom Treaty. To do this and to ensure that OLAF is able to function in an efficient and effective manner and contribute in the best possible way to the Union's objectives of the fight against fraud defined in Article 325 of the Treaty on the Functioning of the European Union, a specific budget line within the Commission budget (European Commission section of the general budget of the European Union) is created for OLAF. ⁽³⁾

In accordance with Article 11 of the Regulation (EC) No 1073/1999 the mission of the OLAF Supervisory Committee (SC) is to reinforce the independence of OLAF in the exercise of OLAF's investigative function. In the reform of Regulation (EC) No 1073/1999 adopted by the European Parliament and the Council in 2013, the role of the SC has been strengthened as guardian of the independence of OLAF in its investigative function and in the supervision of the respect of fundamental rights and freedoms. In this context, and with a view to the powers conferred by the Commission on the SC ⁽⁴⁾, the SC has considered OLAF's preliminary draft budget (PDB) and the Commission draft budget for 2014 concerning OLAF and delivers the following Opinion.

The objective of the procedure in which the SC adopts an Opinion on OLAF's preliminary draft budget and draft budget is to give assurance that the draft budget duly takes into account the independence of the investigative function of OLAF and that OLAF is resourced to function effectively and efficiently as an inter-institutional service in stepping up the fight against fraud as foreseen by the Union legislator in Regulation (EC) No 1073/1999. The SC Opinion on the preliminary draft budget also creates a documented forum of the SC advice to the Director-General of OLAF and to the Budgetary Authority of the Union and other Institutions of the Union on the prerequisites for efficient allocation and use of resources to and within OLAF. In this way the SC Opinion contributes to the attainment of value for money, legal certainty and efficient anti-fraud policy in the European Union. The Opinion of the SC is not therefore limited only to commenting on the budget line on the SC of the OLAF.

I. RESOURCES

In the draft budget presented by the Commission on 26 June 2013, the OLAF budget will be increased by approximately 1,5 % with a total expenditure of EUR 58 523 000. The increase comes principally from the transfer of an additional 6 posts from headquarters budget line 'Expenditure related to officials and temporary staff working with the institution to OLAF'. If the impact of the EU enlargement to include Croatia is taken into account, the increase in the OLAF expenditure is 0,7 %. In the draft budget presented by the Commission the general increase in the Commission's administrative expenditure is 0,1 % and 0,8 % when taking into account the expenditure resulting from the enlargement to Croatia. The OLAF Budget has not been subject to the same strict savings measures as those within the Commission services in general. The SC notes this with satisfaction and considers that this line on resources provides the conditions necessary to continue the fight against fraud as one of the important priorities of the European Union.

The budget line concerning buildings and IT has been kept on zero growth in accordance with the general orientation of the Commission. The SC observes that a well-organised and up-to-date ICT support and infrastructure are necessary

⁽¹⁾ Regulation (EC) No 1073/1999 of the European Parliament and of the Council of 25 May 1999 concerning investigations conducted by the European Anti-Fraud Office (OLAF) (OJ L 136, 31.5.1999, p. 1).

⁽²⁾ Commission Decision 1999/352/EC, ECSC, Euratom of 28 April 1999 establishing the European Anti-Fraud Office (OLAF) (OJ L 136, 31.5.1999, p. 20).

⁽³⁾ See Art. 13 of Regulation (EC) No 1073/1999 (Art. 18 of the Regulation amended as of 1 October 2013).

conditions for a cost-effective fraud investigation function. The SC has no objection to the general orientation in the Commission draft budget but SC would stress the need to keep both OLAF's Case Management, ICT analytics and other information systems up to date in order to enable OLAF to function efficiently.

Allocation of resources to priority activities

The SC has regularly recommended to OLAF in its previous opinions on the budget to allocate more staff to OLAF's core business — investigations — by shifting them from the support units. In addition, the SC has proposed clarification of the distinction between investigative and operational activities of OLAF. The SC notes the reorganisation of OLAF put in place on 1 February 2012 in which resources at the organisational level were increasingly concentrated on investigations. As a result of this, in the OLAF Report of 2012, the distribution of staff in the units dealing with the fight against fraud, OLAF policy strategy and coordination and administrative support is reported separately. This goes in the direction of clarification of the distinction between investigative and other operational activities of OLAF in line with the SC's earlier recommendations. However, the SC considers that clarification between investigation and investigation support functions, anti-fraud policy functions and other operational activities of OLAF should go still further.

Opening and follow up of the investigations

The SC would mention that consistent application over the years of the investigative policy priorities in line with Union's anti-fraud policy and the Commission's anti-fraud strategy is a core issue in the resources management of OLAF and in the performance of its investigative function. The SC notes that in the OLAF Management Plan the alignment with the investigative policy priorities is defined as one of the performance indicators for OLAF. ⁽¹⁾ The SC underlines the importance of transparent and reliable follow-up of the investigative policy priorities.

The SC would refer to its earlier observations and statistics as presented by the European Court of Auditors in the Special Report No 2/2011 ⁽²⁾ on the low number of OLAF investigations leading to convictions by Member States judicial authorities. ⁽³⁾ The SC considers that the rate of OLAF reports leading to convictions is one of the key indicators of the effectiveness of OLAF's investigative function requiring close and open attention. The SC recognises that the reasons why OLAF reports do not lead to conviction may, in some instances lie outside OLAF's control, however, the impact of such external factors should be carefully analysed and transparently reported. The SC therefore encourages OLAF to continue to develop indicators and report on them in a transparent and reliable manner in order to show an example of value for money and to demonstrate the positive impact that contribution of additional resources to OLAF has in the fight against fraud in the European Union, appropriate follow-up thus ensuring that the ultimate results of investigations are achieved. Without this OLAF risks carrying out good, hard work which may ultimately not produce the required results.

HR strategy

The reorganisation of the Office resulted in significant shifts of staff and modifications in their job description or even a completely new allocation of tasks. In such circumstances the SC reiterates its earlier position that it is essential to have an appropriate human resources strategy built on the identified and real needs of the organisation and its priorities, with the aim of giving direction and maximising the use of existing resources. The SC draws particular attention to OLAF's ability to recruit and maintain high quality professionals in its investigative functions as a focal point of cost-effective anti-fraud service at the Union level.

A crucial element of the human resources strategy should continue to be the continuous training related to internal mobility and overall restructuring. It should address the optimum balance between administrators and staff members with administrative professional background performing core investigative tasks and assistants providing support services.

Recommendations:

- **Effective follow-up of investigations must be ensured and results of the investigations reported with timely and reliable indicators**
- **OLAF shall continue to develop indicators describing the efficiency and quality of its investigative function and on the alignment with the anti-fraud policy of the European Union and anti-fraud strategy of the European Commission**
- **A human resources strategy based on a needs assessment of OLAF's current activities should be developed and focus given to training, career development, succession planning and appropriate balance between assistants providing support services and administrators performing core investigative tasks.**

II. BUDGETARY PROCEDURE

The Commission Decision establishing OLAF is clear that the SC must be consulted on the PDB of OLAF *before* it is sent to the Director-General for Budgets ⁽¹⁾. Up to now the Director-General of OLAF has transmitted the PDB to the Committee after 'technical' meetings/arrangements with DG Budget. In 2013 the SC was presented with the preliminary draft budget in February and informed in June with regard to the Commission Decision on the draft budget for 2014. The SC believes that to provide an effective opinion on the PDB is one of its core tasks and would remind the Director-General of OLAF to undertake a substantive consultation with the SC prior to budget negotiations with DG Budget. Furthermore, the SC would encourage the Director-General to consult the SC on the OLAF Annual Management plan in order to have independent support and feed-back based on the follow-up of the investigative function by the SC.

Conclusion:

- **The Director-General of OLAF shall ensure that the SC be effectively consulted regarding the next PDB by means of a real and substantive exchange of opinions between the Director-General and the Committee before the PDB is sent to the Director-General for Budget in any form.**

III. THE SC AND THE SECRETARIAT OF THE SC

The SC expenditure

The SC notes that the budget line of the expenditure related to the SC is not changed in 2014 draft budget.

The SC draws attention to the fact that with the extended responsibilities attributed to the SC by the Union legislator, the performance of the duties of the SC requires the devotion of a considerable amount of time by its Members who, by definition, do so on a part time bases.

The Resources of the Secretariat of the SC

In accordance with Regulation (EC) No 1073/1999 the SC has a crucial role to play in the monitoring of OLAF's investigative function. Moreover, the SC has a specific inter-institutional character.

In the discharge of its duties assigned by the legislator, the SC is dependent on its Secretariat. The SC would like to point out that the role of the Secretariat is primarily not to assist in the organisation and documentation of the meeting of the SC. In practice, the SC Secretariat performs an overall, regular monitoring of the investigative function of OLAF. This results from the fact that it is the SC Secretariat which has access, in accordance with the established access arrangements, to the OLAF Case Management System. The data protection rules *de facto* require that access to case information by the SC is implemented via the SC secretariat. An adequately staffed Secretariat with high quality personnel is thus a vital condition for the SC in the discharge of its duties as stipulated by the legislator.

The SC considers that the 2014 draft budget creates conditions for appropriate resourcing of the SC Secretariat.

The SC would point out the general principle of sincere cooperation between Institutions and bodies of the European Union, which is a general principle of the Union law, specifically that Regulation (EC) No 1073/1999 sets out further requirements on the sincere cooperation between the Director-General of OLAF and the SC. The Director-General of OLAF shall, in the spirit of sincere cooperation, consult the SC on all issues which relate to the staffing, promotion of personnel and resources of the SC Secretariat.

To be fully informative and representative of the total cost of supervision, the budget entry for the SC should incorporate the total cost of operations stemming from the duties stipulated in Regulation (EC) No 1073/1999, that is, all the SC Members' expenditure as well as that of its Secretariat which includes their salaries, training, travel etc.

OLAF has the privilege of transferring its funds freely from one line item to another. By joining up the total cost of the SC's function in a separate budget entry it is ensured that funds targeted for use by the SC are actually used for the supervisory function. However, funds remaining unused could be redeployed to other headings within the OLAF budget. Such redeployment should only be possible with prior notification to the SC and its approval.

⁽¹⁾ Article 6(2) of the Commission Decision 1999/352/EC, ECSC, Euratom cited above provides: 'After consulting the Surveillance Committee, the Director shall send the Director-General for Budgets a preliminary draft budget to be entered in the special heading for the Office in the annual general budget'.

The Head of the SC Secretariat should be sub-delegated as the authorising officer to manage the total fund allocation for the SC's operations under the control of the Committee. Having one budget line which incorporates all expenditure will facilitate the management and efficiencies of the supervisory framework whilst, at the same time, any unused funds are passed on to other OLAF budget lines by the Director-General upon the approval of the SC.

A separate budget line has the benefit of transparency and reflects also the independence of the SC in line with the Regulation. At the same time, this separate budget line will inform the three institutions appointing the SC regarding the resources specifically allocated to the supervisory function.

Secretariat Staff

The SC maintains its position, as expressed in its previous opinions on the OLAF budget, on the minimum requirement of eight Secretariat staff, which is equivalent to the current needs of the SC. This represents about 2 % of OLAF staff ⁽¹⁾ which the SC deems the minimum number required for it to carry out its monitoring function efficiently. ⁽²⁾ The SC would point out that the legal duties of the SC require a small, but high quality staff in Secretariat. The SC has noted with satisfaction the intention of the OLAF Director-General to allocate additional posts to the Secretariat. The SC expects a fluid and rapid implementation of the announced intention.

Furthermore, the SC is of the opinion that, with regard to the appointment of the Head of the Secretariat and other staff for its Secretariat, including internal transfers, there should be close consultation with the Committee, as indicated in its Rules of Procedure ⁽³⁾ reflecting the principle of cooperation stipulated in the Regulation.

The SC acknowledges that the Commission staff rules and the appraisal and promotion system do not currently permit the SC Members to evaluate the performance of the staff of the Secretariat directly. The SC also notes that nothing in the Commission staff rules and appraisal and promotion system excludes the consultation of the SC and that some Institutions have developed consultation systems for situations in which a member of staff is effectively working for another directorate or body than the one which is legally responsible for the appraisal and promotion. Therefore the SC considers that even though the appraisal of the Head of Secretariat and his promotion are ultimately decided by the Director-General of OLAF, he should make these decisions on the basis of the opinions of the Committee under whose direct authority the Secretariat works, as it is foreseen in the SC's Rules of Procedure ⁽⁴⁾. This will ensure the continuous independence of the Secretariat in their day to day functions.

Recommendations:

- **Separate budget line for both the SC and Secretariat should be considered to clearly indicate the costs of the SC function and to highlight in a transparent manner the inter-institutional character of the SC and its Secretariat.**
- **The Director-General of OLAF shall, in sincere and close cooperation with the SC, ensure that appropriate resources and staff members are allocated to the SC Secretariat in line with the intention expressed by the Director-General.**
- **Regular monitoring of the investigative function of OLAF and SC access to information depend on a small but high quality Secretariat. The Secretariat should have eight members of staff.**
- **Appointments, appraisal and promotion of the SC Secretariat staff should only be made following the approval of the SC, thus ensuring full independence of the SC Secretariat in the performance of its duties.**
- **Appraisal of the Head of Secretariat and his promotion should be decided by the Director-General on the basis of the SC's opinion.**

IV. CONCLUSION

The SC supports OLAF's draft budget for 2014 with the provision that the above recommendations be taken into consideration.

⁽¹⁾ According to the OLAF report for 2011, there are 437 staff in the Office.

⁽²⁾ For the detailed analysis of the SC workload and consequently of the necessary SC Secretariat resources, see the note of the Head of the SC Secretariat of 21 March 2013. In view of the incoming amendments to Regulation (EC) No 1073/1999 entrusting additional tasks to the SC, the resources of the SC Secretariat may require reinforcement in the year 2014.

⁽³⁾ Article 11(3) of the SC's Rules of Procedure provides as follows: 'In any case, the Head of the Secretariat shall inform the SC about the candidates for membership of the Secretariat. Once the applications are known, the Committee shall discuss in the plenary session whether they meet the Committee's working needs with a view to submitting a proposal for their appointment to OLAF's Director-General' (OJ L 308, 24.11.2011, p. 114).

⁽⁴⁾ Article 11(5) of the SC's Rules of Procedure provides as follows: 'The Supervisory Committee shall periodically evaluate the work of the Head of the Secretariat and of the Secretariat members'.

In accordance with Article 6(2) of the Commission Decision of 28 April 1999, the Opinion should be transmitted to the Budgetary Authority by OLAF. Furthermore, the SC invites the Director-General of OLAF to update the SC regularly on measures taken by OLAF towards implementation of the recommendations in this Opinion.

OPINION No 2/2013

on establishing an internal OLAF procedure for complaints

The Supervisory Committee of the European Anti-Fraud Office (OLAF) examined the options for redress open to persons involved in OLAF's investigations regarding potential violations of their rights and procedural guarantees. The Committee found that such persons do not have sufficient and immediate remedies to redress potential violations either through an external (an EU or national court, the European Ombudsman or the European Data Protection Supervisor) or internal mechanism (OLAF itself). The Committee believes that the new Regulation (EU, Euratom) No 883/2013 concerning investigations conducted by OLAF has not resolved the problem, since it does not introduce a mechanism for dealing with individual complaints. The Committee expressed the opinion that the current legislative gap could be closed by putting in place a transparent and efficient complaints procedure within OLAF, to deal with complaints alleging potential breaches of fundamental rights and procedural guarantees in the course of an OLAF investigation. The Committee therefore recommended that the Director-General of OLAF institute such an internal procedure and put forward concrete suggestions with regard to its implementation.

INTRODUCTION

1. OLAF has been given far-reaching powers of investigation in order to efficiently carry out its mission to protect the financial interests of the EU. The exercise of these powers is very likely to touch upon the fundamental rights of persons concerned by investigations ⁽¹⁾, and therefore their respect by OLAF is essential. It contributes — as the SC has already emphasised ⁽²⁾ — not only to ensuring the effectiveness and efficiency of OLAF's investigative activities, but also to consolidating its reputation, credibility and ultimately its independence.
2. OLAF is obliged to ensure the protection of fundamental rights by safeguarding the procedural guarantees as listed by the EU Charter of Fundamental Rights ⁽³⁾. In addition, the EU legislator decided to enhance OLAF's accountability for its investigative activities by reforming its legal framework ⁽⁴⁾ which resulted in the adoption of Regulation (EU, Euratom) No 883/2013 ⁽⁵⁾ (hereinafter, the Regulation).
3. The SC welcomes the changes brought by the Regulation but would like, nevertheless, to point out that the mechanisms put in place to enforce the procedural guarantees need further improvement. The Regulation provides for a legality check ⁽⁶⁾ and a monitoring mechanism ⁽⁷⁾, but does not establish a mechanism for dealing with individual complaints which would be, in the SC's view, indispensable for ensuring effective protection of fundamental rights.
4. In the SC's opinion, persons involved in OLAF investigations **do not have sufficient and immediate remedies** to redress potential violations of their rights and the recent reform of the legal framework has not solved that problem. Therefore, the SC takes the view that **the Director-General of OLAF ((hereinafter, the DG) should swiftly establish a transparent and stable internal procedure for dealing with individual complaints.**

I. INSUFFICIENCY OF THE EXISTING REDRESS MECHANISMS

5. Persons considering that, in the course of an investigation, OLAF breached their fundamental rights and wishing to complain, have at their disposal various means of judicial and non-judicial review which, however, may be insufficient, for the reasons stated below.

⁽¹⁾ Although little consideration was given to this aspect when OLAF was created, the few procedural guarantees defined in the former Regulation (EC) No 1073/1999 were developed by the case-law of the EU General Court.

⁽²⁾ See the SC's Opinion No 5/2010 on *Respect for fundamental rights and procedural guarantees in investigations by the European Anti-Fraud Office*, point 3.

⁽³⁾ See in particular Article 41 of the Charter.

⁽⁴⁾ One of the objectives of the reform was to reinforce the protection of fundamental rights and procedural guarantees within OLAF's investigations.

⁽⁵⁾ Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office (OLAF) and repealing Regulation (EC) No 1073/1999 of the European Parliament and of the Council and Council Regulation (Euratom) No 1074/1999 (OJ L 248, 18.9.2013, p. 1).

⁽⁶⁾ The legality check relates, inter alia, to the respect of procedural guarantees and fundamental rights of persons concerned (Article 17(7)).

⁽⁷⁾ Article 15(1).

6. Firstly, they may seek the direct judicial review by an **EU Court** (action for annulment, action for damages and request for interim relief) or indirect judicial review by **EU and national courts** (preliminary ruling procedure). ⁽¹⁾ However, it should be noted that these actions are governed by rather strict rules on admissibility ⁽²⁾ and must fulfil a number of conditions to trigger a right to reparation ⁽³⁾. Even when an action is successful, '*Judicial protection is obtained long after the contested investigative act and the act as such is not affected by the EU court's ruling; only compensation for the prejudice created by that act is obtained*' ⁽⁴⁾.
7. Secondly, persons wishing to complain may address themselves to the **European Data Protection Supervisor** (EDPS), who is specifically entrusted ⁽⁵⁾ with the competence of hearing and investigating complaints lodged by persons whose personal data are processed by OLAF. However, the material scope of his review is limited to the protection of personal data and privacy.
8. Thirdly, the **European Ombudsman** (EO) is competent to investigate complaints regarding maladministration ⁽⁶⁾ against OLAF, namely failure to act in accordance with the law, to respect the principles of good administration, or breaches of fundamental rights. Nevertheless, it is the EO's view — which the SC fully shares — that an institution '*in frequent contact with people who may have reason to complain should provide for a first line complaints mechanism allowing for their problems to be addressed and solved rapidly, before, in the event that resolution is not successful, having to turn to other redress mechanisms, such as Ombudsmen and courts*' ⁽⁷⁾. The SC considers that this statement also applies to OLAF.
9. Fourthly, **the SC** itself — as the OLAF's supervisory body — is quite often the addressee of individual complaints which it takes into consideration as a valuable source of information concerning OLAF's investigations and thus triggering the SC's monitoring activity. The SC's role, as emphasised by a ruling of the EU General Court ⁽⁸⁾ and confirmed by Regulation (EU, Euratom) No 883/2013, is to monitor developments concerning the application of procedural guarantees and the duration of investigations ⁽⁹⁾ which cannot be carried out without examination of individual cases. However, the SC was not established as a complaints body and its supervision takes place only *ex post*, since the SC cannot intervene in ongoing investigations. Furthermore, the SC regrets the lack of appropriate monitoring tools at its disposal and the absence of a specific reporting obligation for the DG to inform the SC of complaints addressed to him and, in particular, on the way they were dealt with.
10. In addition to the external mechanisms, the SC notes that an internal mechanism for dealing with individual complaints is not completely absent from the legal framework governing OLAF's investigations. Any official or other servant of the EU who is the subject of an internal investigation has the right to submit to **the DG** a complaint against an act adversely affecting him in connection with investigations by OLAF ⁽¹⁰⁾. However, according to the existing EU case-law, OLAF's investigative acts do not constitute acts adversely affecting the persons concerned within the meaning of Article 90a of the Staff Regulations and therefore are not challengeable acts ⁽¹¹⁾.
11. Moreover, the SC would point out that OLAF staff who are aware of possible illegal activities or serious violations of professional duties that might trigger potential breaches of fundamental rights and procedural guarantees within an investigation have the additional possibility to report wrongdoing within OLAF to **the President of the SC**, on the basis of Article 22a of the Staff Regulations and of the agreement between the DG and the SC ⁽¹²⁾.

⁽¹⁾ For a thorough overview of the different kinds of judicial review of OLAF's investigative acts, see J.F.H. Inghelram, *Legal and Institutional Aspects of the European Anti-fraud Office (OLAF) — An Analysis with a Look Forward to a European Public Prosecutor's Office*, Europa Law Publishing, 2011, p. 203. See also X. Groussot, Z. Popov, *What's wrong with OLAF? Accountability, due process and criminal justice in European anti-fraud policy*, *Common Market Law Review* 47, 2010, p. 605-643.

⁽²⁾ For example, the actions for annulment introduced against OLAF investigative acts have constantly been declared inadmissible on the grounds that none of such acts has to date been deemed to bring about a distinct change in the applicant's legal position.

⁽³⁾ In actions for damages, there are three conditions to be met in order to trigger a right to reparation: the infringement of a rule of law intended to confer rights on persons; a sufficiently serious breach of this rule; the existence of a direct causal link between the breach of the rule of law and the damage allegedly suffered by the complainant.

⁽¹⁰⁾ See Article 14 of the former Regulation (EC) No 1073/1999. Its content has been included in Article 90a of the Staff Regulations and as a consequence has been deleted from Regulation (EU, Euratom) No 883/2013.

II. LACK OF A COMPLAINT PROCEDURE IN REGULATION (EU, Euratom) No 883/2013

12. The SC notes that the intention of the EU legislator was to strengthen the protection of procedural guarantees applicable in OLAF's investigations (a) by inserting in the Regulation detailed provisions concerning the procedural guarantees and (b) by enforcing them by means of an enhanced review. As a result, Article 9 of the Regulation contains now explicit procedural guarantees and thus defines and clarifies the contents of those foreseen in the Charter. On the other hand, although the EU institutions involved in the legislative process all agreed on the need for a review of potential violation of fundamental rights and put forward various proposals aimed at establishing both an *ex ante* legality check (relating, inter alia, to the respect of procedural guarantees of persons under investigation, during all stages of the investigation) and an *ex post* review procedure for handling individual complaints ⁽¹⁾, it seems that no consensus was finally reached, since the Regulation does not explicitly put in place any such procedure.
13. The SC would point out that in the past, *via* its internal rules, OLAF put in place a review procedure open to all persons concerned in internal and external investigations in which procedural guarantees were allegedly not respected in a manner possibly having an impact on the conclusions of the investigation ⁽²⁾. This procedure evolved under the influence of interinstitutional discussions on reforming the OLAF legal framework. Since the Commission's proposal of 17 March 2011 contained provisions on a review procedure ⁽³⁾, the Instructions to Staff on Investigation Procedures (ISIP) ⁽⁴⁾ adopted by the OLAF DG as of 1 February 2012 anticipated the forthcoming legislative changes with the setting up of a procedure for dealing with complaints concerning an alleged failure to respect procedural guarantees ⁽⁵⁾. However, that Commission's proposal, which was subject to negotiations during the legislative process, was ultimately not maintained. Therefore, when the ISIP were replaced by the new Guidelines on Investigation Procedures (GIP), which entered into force on the same day as the new OLAF Regulation (1 October 2013), this internal procedure disappeared.
14. As a result, neither the Regulation nor OLAF's internal rules foresee any formal procedure for dealing with individual complaints. Therefore, the objective of improving the mechanisms for redressing potential breaches by OLAF of procedural guarantees of persons under investigation has not been achieved. The SC would point out that the recent Communication from the Commission on *Improving OLAF's governance and reinforcing procedural safeguards in investigations* ⁽⁶⁾ supports the SC's view and its repeated recommendations ⁽⁷⁾ concerning the introduction of transparent and stable procedures for an internal legality check and for an independent review of complaints. This Communication also confirms the need for further improvements to the Regulation, by establishing of the office of a 'Controller of procedural safeguards'.
15. With its longstanding experience in monitoring OLAF's investigative function and thereby compliance by OLAF with fundamental rights and procedural guarantees, the SC is therefore concerned by the lack of a transparent procedure for dealing with individual complaints and takes the view that, at least during the transitional period, until further amendments to the Regulation are adopted, the current gap should be closed by the DG re-establishing an internal procedure for complaint in OLAF.

III. THE WAY FORWARD: AN INTERNAL PROCEDURE FOR COMPLAINTS

16. In OLAF's view, the notion of 'complaints' covers (i) complaints concerning procedural guarantees in the context of investigative actions, (ii) complaints against a reply by OLAF to a request for access to personal data and (iii) complaints from whistle-blowers (concerning either OLAF's obligation to inform them on the action taken following their fraud reporting or the protection of their identity) ⁽⁸⁾. According to information provided by OLAF, in the last three years there were 25 complaints concerning OLAF's investigation activity, of which 13 were

⁽¹⁾ During the legislative process, the EU institutions put forward various proposals: an independent Review Adviser with the participation of the SC, a Review Panel consisting of senior officials of OLAF and of the Commission's Legal Service, two separate procedures (legality check by legal experts of OLAF and complaints to the Review Adviser *via* the SC), a review procedure to be set up by the DG within the Office.

⁽²⁾ See the former OLAF Manual — Operational Procedures, version July 2011, point 5.1.6.

⁽³⁾ Article 7b: this procedure aimed at dealing with requests from persons concerned by an investigation, to have an independent opinion regarding the respect of the procedural guarantees provided for in the Regulation.

⁽⁴⁾ Replacing the former OLAF Manual — Operational Procedures.

⁽⁵⁾ Article 23 of the ISIP — '23.1 Where a natural person concerned by an investigation has requested a review of the handling of his procedural guarantees, the Director-General appoints a member of OLAF staff not connected with the investigation, to conduct such a review. 23.2 The person entrusted with the review must act independently in his review of the complaint and report his findings to the Director-General. 23.3 The Director-General may take appropriate action in respect of any failure to respect procedural guarantees and will inform the complainant'.

⁽⁶⁾ COM(2013) 533 final, 17.7.2013.

⁽⁷⁾ See the SC's Annual Activity Report 2012, specifically Section 2 of Annex III.

⁽⁸⁾ OLAF does not count as 'complaint' the applications for access to documents (including 'confirmatory applications'), the requests for access to personal data, staff complaints (Art. 90 of Staff Regulations), motions to courts, complaints addressed to the Commission which do not concern directly OLAF, letters from informants/whistle-blowers unhappy with OLAF's decision to dismiss a case.

addressed to the EO ⁽¹⁾, 8 were addressed to the EDPS ⁽²⁾ and 4 were requests for review addressed to OLAF ⁽³⁾. OLAF is also aware of other complaints, addressed to other bodies (e.g. to the SC), but it does not have any systemic overview, register or statistics related to them.

17. Taking into account the number of cases opened by OLAF (718 in 2012 ⁽⁴⁾) and the fact that complaints against OLAF are addressed, in particular, to the EDPS, the EO and the SC ⁽⁵⁾, the small number of complaints addressed to OLAF itself may lead to the conclusion that the absence of a transparent and independent procedure for handling complaints in OLAF effectively deters potential complainants from exercising their rights.
18. The SC notes, from its monitoring experience, that in the previous years the handling of complaints appeared to be carried out on a case-by-case basis rather than through a stable and consistent procedure. The SC shares the EO's view that a case-by-case approach is not *'the best way to ensure the efficient and transparent handling of complaints'* ⁽⁶⁾ and that without a proper complaint procedure *'compliance [with fundamental rights] cannot ultimately be effective'* ⁽⁷⁾. Such a procedure is a key element of OLAF's accountability and legitimacy, because protecting fundamental rights *'is not only to the benefit of persons under investigation but also of OLAF, whose legitimacy can only increase when fundamental rights are (seen to be) effectively protected'* ⁽⁸⁾.
19. The SC considers that, from the OLAF perspective, a complaint procedure would help (i) the detection by OLAF of any breach of its own legal obligations, thus allowing for a prompt reaction, (ii) monitoring by OLAF of compliance with fundamental rights and procedural guarantees by its own staff, (iii) avoiding the risk of discriminatory treatment of persons concerned, (iv) settling possible disputes before they aggravate ⁽⁹⁾.
20. In the SC's opinion, Article 41 of the Charter of Fundamental Rights ⁽¹⁰⁾ (right to good administration) would offer a sufficient legal basis for establishing an internal procedure for dealing with individual complaints. Complainants are entitled to expect from OLAF that their 'affairs' are 'handled' — according to the principles defined by the Charter.
21. The SC therefore believes that the DG should put in place a transparent and efficient internal procedure for dealing with all the types of complaints related to OLAF investigative activities, including not only complaints alleging potential breaches of fundamental rights in the course of an OLAF investigation, but also those concerning duration of investigations, legality of OLAF's acts, breaches of confidentiality, refusals to provide information. The following practical recommendations are without prejudice to the forthcoming legislative proposals ⁽¹¹⁾ or to the SC's position as expressed in its paper on *Reinforcing procedural safeguards in OLAF — in view of the monitoring experience of the Supervisory Committee* ⁽¹²⁾ — they should be regarded as transitional measures until the current legal framework is improved.
22. The SC would firstly point out that it is for the DG to establish and define the exact scope and content of rules on handling of complaints in OLAF. In so doing, the DG should take into consideration a number of requirements triggered by the right to good administration. Recommendations by the EO and the Code of Good Administrative

⁽¹⁾ 7 complaints in 2013, 3 complaints in 2012 and 3 complaints in 2011.

⁽²⁾ 5 complaints in 2012 and 3 complaints in 2011.

⁽⁵⁾ See the Annual Activity Reports of the EDPS and the EO. The SC itself received 7 complaints in 2012 and 14 complaints in 2013, concerning, inter alia, alleged failure to respect fundamental rights and procedural guarantees, breach of confidentiality of investigations, duration of investigations.

⁽⁷⁾ See the Draft recommendation of the European Ombudsman in his own-initiative inquiry OI/5/2012/BEH-MHZ concerning the European Agency for the Management of Operational Cooperation at the External Borders of the Member States of the European Union (FRONTEX), 9 April 2013, point 79.

⁽¹⁰⁾ Article 41(1) of the Charter: *'Every person has the right to have his or her affairs handled impartially, fairly and within a reasonable time by the institutions and bodies of the Union'*.

⁽¹¹⁾ See the Commission's proposal quoted above.

⁽¹²⁾ This paper was adopted at the SC's plenary meeting on 8 October 2013 and transmitted to the three appointing Institutions on 24 October 2013.

Behaviour should be also taken into account. Without establishing an exhaustive list, the SC would point to the following requirements:

- fairness and impartiality, including, *inter alia*, the requirement that a complaint should be treated by a person not related to the investigation or not in the direct line of hierarchy of the person(s) related to the investigation ⁽¹⁾ and the necessity to set out a minimum level of guarantees ensuring the functional independence of the person handling a given complaint,
 - the requirement to state reasons for the decisions taken following a complaint ⁽²⁾;
 - a reasonable time-limit for handling a complaint ⁽³⁾,
 - the right of access to one's file (subject to limitations explicitly foreseen in the Charter ⁽⁴⁾),
 - the right to address OLAF in one of the EU official languages and to have an answer in the same language ⁽⁵⁾,
 - the requirement to inform the complainant of any possible alternative forms of redress ⁽⁶⁾.
23. Secondly, with regard to the person entrusted with the handling of complaints, he should have the appropriate competencies, qualifications and experience. Such person should have well defined tasks and benefit from access to appropriate resources. He should have access to all relevant case-related information and OLAF staff should fully cooperate with him.
24. Regarding particularly the requirement of independence, the SC would stress that any effective *internal* complaint procedure, which would necessarily imply the handling of a complaint by an OLAF (senior) official, requires that this person act, when carrying out his review duties, in full independence of the DG. This is a key element in ensuring external credibility and public trust. The SC acknowledges the difficulty of implementing such a requirement, since this person should report to the DG on his findings while the latter remains the appointing authority deciding on the career progress of all OLAF officials ⁽⁷⁾.
25. The SC would indicate three possible solutions to that problem.
- (i) Firstly, the SC Secretariat being the only part of OLAF with regulatory guarantees of independent functioning with regard to the DG ⁽⁸⁾, the most logical solution would be to place the (senior) official entrusted with handling complaints under the Head of the SC Secretariat, but without involving him in any regular work of the SC.
 - (ii) Secondly, the official could be nominated as a 'complaint' advisor to the DG, but his functional independence should be safeguarded by the **right** to inform the SC whenever he considers that a measure taken by the Director-General puts his independence into question ⁽⁹⁾ and by the **obligation** to report on all his findings related to the complaints not only to the Director-General, but also to the SC ⁽¹⁰⁾.
 - (iii) Thirdly, the task could be entrusted to the OLAF Legal Advice Unit, but then its Head should have equal safeguards as a 'complaint advisor' — in his capacity of the handler of complaints.

⁽¹⁾ See the Decision of 26 June 2008 of the EO on complaint 1354/2007/VIK against the European Economic and Social Committee, point 2.3: 'it is good administrative practice that complaints against a Community official should normally not be answered by this very same official, but by the superior of this official or by another appropriate official/body'.

⁽²⁾ See Article 18 of the European Code of Good Administrative Behaviour. See also the Draft recommendation of the EO in the inquiry into complaint 1183/2012/MMN against OLAF, 15 November 2013.

⁽³⁾ See Article 17(1) of the European Code of Good Administrative Behaviour, which elucidates the 'reasonable time' requirement of the Charter by establishing a two months period from the date of receipt of a request or complaint. Article 17(2) allows for an extension of this period if it is justified by the 'complexity of the matters which it raises'. The SC notes with interest the EO's statement that extension of the time limit within which an EU institution may deal with a complaint can be justified by the complexity of the issues raised, but not by an alleged lack of sufficient human resources or internal obstacles within its own services, since 'in accordance with the principles of good administration, the EU institutions have the duty to ensure that they provide their various services with sufficient resources to fulfil the tasks which have been entrusted to them' and to 'structure their various services in a such a way as not to hinder the performance of the institution's duties, including in particular, the need to treat complaints by citizens within a reasonable time' (see EO's Decision closing his inquiry into complaint 2288/2011/MMN against the European Investment Bank, 25 September 2013, pt. 28, 30).

⁽⁴⁾ This right may be limited by the need to respect the legitimate interests of confidentiality and of professional and business secrecy.

⁽⁵⁾ See also Article 13 of the European Code of Good Administrative Behaviour.

⁽⁶⁾ See, in this respect, the Decision of the EO on complaint 1512/2007/JMA against the European Commission, 5 June 2008. Article 19 of the European Code of Good Administrative Behaviour may also be relevant in this respect.

⁽⁷⁾ See the concerns expressed by civil society representatives with regard to the compatibility of the principle of independence with the fact that a person works in the interest of a specific entity (see the Draft recommendation of the European Ombudsman in his own-initiative inquiry OI/5/2012/BEH-MHZ quoted above, point 78).

⁽⁸⁾ Recital 40 of Regulation (EU, Euratom) No 883/2013.

⁽⁹⁾ As it was suggested by the Commission in its proposal of 17 March 2011, Article 7b.2.

⁽¹⁰⁾ *Idem*. See also Article 14 a) of the European Parliament legislative resolution of 20 November 2008 on the proposal for a regulation of the European Parliament and of the Council amending Regulation (EC) No 1073/1999 concerning investigations conducted by the European Anti-Fraud Office (OLAF) (COM(2006) 244 — C6-0228/2006 — 2006/0084(COD)) (OJ C 16E, 22.1.2010, p. 201).

26. Finally, the SC considers that information on how to address complaints to OLAF, together with a description of the procedure for handling them, should be published on OLAF's website, for the sake of transparency and legal certainty. Moreover, the SC should be regularly informed of the complaints received by OLAF and the way they have been handled, this allowing it to properly perform its role of monitoring developments concerning the application of procedural guarantees and the duration of investigations.

SUPERVISORY COMMITTEE'S RECOMMENDATIONS

In the light of the above considerations, the Supervisory Committee:

- (1) **Recommends** that the Director-General set up an internal procedure for dealing with individual complaints concerning OLAF investigations;
- (2) **Invites** the Director-General to consult the details of the procedure with the SC, before its adoption;
- (3) **Recommends** that the Director-General publish the procedure on OLAF's website after its adoption;
- (4) **Expects** the Director-General to report regularly to the SC on complaints received by OLAF and the way they have been handled.

OLAF Investigation Policy Priorities

The Supervisory Committee of the European Anti-Fraud Office (OLAF) examined the Investigation Policy Priorities (IPPs) established, on a yearly basis, by the Director-General of OLAF. The Committee compared the IPPs for 2012 and 2013 with the draft IPPs for 2014. The Committee welcomed the improved definition of the IPPs for 2014. The Committee considered however that the policy on financial indicators and the implementation of the proportionality principle needs further clarification. The Committee also drew attention to the need to reconsider the subsidiarity/added value policy and to apply it with caution, as well as to the need of a regular assessment of the IPPs.

INTRODUCTION

1. The Investigation Policy Priorities (IPPs) were established by the European Anti-Fraud Office (OLAF) for the first time within the framework of the Management Plan 2012 as an element of the reorganisation of the Office, aiming at improving the selection procedure. *'The IPPs [were] used by OLAF to decide on the opening of investigations. These priorities [came] into play after the competence of OLAF and the necessary level of suspicions [had] been established'* ⁽¹⁾.
2. On 1 October 2013, Regulation (EU, Euratom) No 883/2013 ⁽²⁾ entered into force. It obliges the Director-General of OLAF (OLAF DG) to determine the IPPs each year and also to forward them, prior to their publication, to the Supervisory Committee (SC) of OLAF ⁽³⁾. In the light of its role of reinforcing OLAF's independence and of its duties to assist the OLAF DG in discharging his responsibilities ⁽⁴⁾, the SC decided to thoroughly examine the IPPs for 2012, 2013 and 2014.

I. THE IPPS ESTABLISHED BY THE DIRECTOR-GENERAL**I.1. IPPs for 2012**

3. There were five IPPs established in 2012:
 - (i) *proportionality,*
 - (ii) *efficient use of investigative resources,*
 - (iii) *subsidiarity/added value,*
 - (iv) *special policy objectives,*
 - (v) *financial impact.*
4. The special policy objectives were related to sectors and geographical areas decided by the OLAF DG on the basis of concerns and priorities expressed by the European Institutions and of OLAF's own risk analyses. For 2012 the special policy objectives included:
 - a) *double funding in external aid,*
 - b) *smuggling of cigarettes and alcohol along the EU eastern border,*
 - c) *cohesion funds,*
 - d) *pre-accession funds in current accession and candidate countries,*
 - e) *suspected corruption or links to organised crime* ⁽⁵⁾.
5. The priority related to the financial impact included financial indicators, e.g. EUR 500 000 in the European Social Fund and Cohesion Fund and € 1 million in the European Regional Development Fund (estimated misappropriation or wrongful retention of funds), over € 1 million (estimated illegal diminution of resources) in the customs sector ⁽⁶⁾.

I.2. IPPs for 2013

6. The IPPs have been updated for 2013 and they include four criteria:
 - (i) *proportionality,*
 - (ii) *efficient use of investigative resources,*
 - (iii) *subsidiarity/added value,*
 - (iv) *special criteria for 2013.*

⁽⁶⁾ *Ib.*, p. 22.

7. The special criteria for 2013 are related to sectors only and no longer to geographical areas. The adoption of those criteria is linked to documents issued by stakeholders ⁽¹⁾. There are three prioritised sectors:
- smuggling of cigarettes and alcohol into the EU,*
 - the EU and national public procurement in the field of regional policies,*
 - rural development* ⁽²⁾.

Finally, the special criteria include also financial indicators which are equivalent, in content, to the *financial impact* priority of 2012 ⁽³⁾.

I.3 **Regulation (EU, Euratom) No 883/2013**

8. Regulation (EU, Euratom) No 883/2013 establishes certain principles to be taken into account by the OLAF DG, alongside the IPPs, when deciding whether or not to open an investigation ⁽⁴⁾.
9. Those general principles include:
- proportionality of the means employed,*
 - efficient use of resources,*
 - added value of an OLAF internal investigation, taking into account the nature of an illegal activity and its financial impact.*

I.4 **Draft IPPs for 2014**

10. On 4 December 2013 the OLAF DG transmitted to the SC the draft IPPs for 2014 which are to be adopted by the end of January 2014. The draft priorities for investigation in 2014 include:
- smuggling of cigarettes and tobacco into the EU, in particular via maritime transport and along the EU Eastern border;*
 - abuse of origin rules and tariff classification in both preferential and non-preferential trade regimes in order to evade payment of conventional customs duty and anti-dumping duties;*
 - cases with indications of fraud and/or corruption in relation to public procurement for infrastructure networks;*
 - cases of fraud concerning specific projects (co)financed by the European Social Fund, the Cohesion Fund, the European Agricultural Fund for Rural Development and Pre-accession Funds and in which action by the Member States or Candidate Countries is deemed to be insufficient.*
11. The draft priorities are related to the areas of activities of OLAF Directorate B only (not Directorate A). They are based on 9 key documents issued by stakeholders and they do not contain any reference to financial indicators.

I.5 **Feedback from other Directorates-General of the European Commission**

12. On 11 February 2013 the responsible unit in the Directorate-General for Agriculture and Rural Development (DG AGRI) formally alerted OLAF via a registered note ⁽⁵⁾ that the financial indicator for one of the priorities — rural development — adopted by the OLAF DG, apparently without having consulted DG AGRI and defined as over EUR 250 000, would exclude 99,83 % of cases, since only 1 036 beneficiaries, out of 563 196, received subsidies above that threshold. DG AGRI expressed the view that it might be worthwhile considering a revision of the threshold of EUR 250 000, in order to increase the impact of OLAF's activities in the rural development sector. In May 2013 the Director-General of DG AGRI complained ⁽⁶⁾ to the OLAF DG that the above mentioned note of 11 February 2013 had never been answered. OLAF DG replied in July 2013, 'taking note' of the proposed 'adaptation of the financial thresholds', stressing that they are just one of the indicators and that when cases are dismissed on the basis of the IPPs, the relevant information is 'systematically' transferred to the competent authorities ⁽⁷⁾.

⁽⁷⁾ Note Ares(2013)2587818.

13. With regard to a number of cases dismissed by OLAF and transferred to DG AGRI for appropriate action, DG AGRI continued to express its disagreement. In particular, DG AGRI pointed out that its competence lies in carrying out system audits; it therefore cannot undertake verifications regarding individual cases (e.g. possibly irregular payments to individual beneficiaries) that would amount to investigative activities for which it is not competent. As a consequence, DG AGRI decided not to follow-up such cases forwarded by OLAF. ⁽¹⁾ In reply, DG AGRI was referred to OLAF's 'Guidance note for treatment of dismissed cases' ⁽²⁾ listing actions that can be taken in such circumstances.
14. The SC's inquiries have shown that the problem of insufficient consultation with the stakeholders concerns also other 'spending' DGs. In particular the issue of criteria for establishing financial indicators and the issue of the follow-up of cases of fraud or irregularity which are dismissed by OLAF seem to be addressed unilaterally by OLAF, without taking effectively into account opinions of the stakeholders.

II. SUPERVISORY COMMITTEE'S ASSESSMENT OF THE IPPS

II.1 *Improved definition of the IPPs*

15. The **IPPs for 2012 and 2013** contained, as priority criteria to be taken into consideration by OLAF to decide on the opening of investigations, three general principles, namely proportionality, need for efficient use of investigative resources and subsidiarity. The SC has pointed out in technical meetings with OLAF that *proportionality* and *subsidiarity* belong to the general principles of the EU law and as such must be always applied by all the EU bodies in accordance with the established EU case-law. As a result, those principles cannot constitute discretionary priorities of the Director-General of OLAF.
16. The SC notes that Regulation (EU, Euratom) No 883/2013 has established a clear distinction between the three general *principles* which always need to be taken into account by the Director-General and the *priorities* which he himself is to determine each year within the context of the annual management plan ⁽³⁾. The principles established in the Regulation correspond largely to the first three IPPs for 2012 and 2013. Therefore, since 1 October 2013, only the special annual criteria and the financial indicators determined by the Director-General can be considered as the IPPs for OLAF in the sense of the Regulation.
17. **The SC welcomes the fact that, following its comments expressed during technical meetings, the Director-General included in the draft IPPs for 2014 only those elements which can be clearly considered under the Regulation as *priorities* (and not *principles*).**
18. Moreover, the SC would draw attention to the fact that the general *principles* established in the Regulation are binding on the Director-General for all his decisions on opening or not an investigation. Since these decisions are based on the opinions of the Investigation Selection and Review Unit, the SC believes that it is important to provide the responsible staff in that unit with guidelines on the application of those principles.

II.2 *Need to clarify the policy on financial indicators*

19. The **IPPs for 2012 and 2013** listed a certain number of financial indicators to be taken into account in the selection process, together with other priority criteria. Already in its 2012 Annual Activity Report, the SC indicated that some of the thresholds were excessively high. At that time, the SC expressed its concern that potential fraud or irregularities likely to have a lower, but still significant financial impact, may not be taken into consideration, despite clear evidence ⁽⁴⁾. In particular, the SC highlighted that '*The setting by the Director-General of high financial thresholds, to be taken into consideration by OLAF prior to open an investigation in various sectors and the possibility for the Director-General not to open an investigation even if there is 'sufficient suspicion', without a parallel duty for the Director-General to inform the competent authorities of institutions when he decides not to open an investigation, risks resulting in areas of impunity*' ⁽⁵⁾.
20. Another concern that the SC wishes to express relates to the fact that those financial indicators were established apparently without any consultation with the stakeholders. It would not be consistent with the European Commission's anti-fraud strategy, which promotes OLAF's proactive and reinforced role in assisting the Commission Services, by providing, inter alia, a methodology and guidance on the development and implementation of the

sectoral anti-fraud strategies ⁽¹⁾. The SC would point out that the departments responsible for managing and/or supervising EU funds should receive proper information concerning suspicions of fraud or irregularities detrimental to the EU financial interests. In the absence of such information, they cannot ensure adequate protection of the EU's financial interests. In addition, the SC considers that OLAF would benefit from a constructive dialogue with its stakeholders with regard to financial indicators, since they are primarily responsible for managing EU funds and, as such, hold the most reliable information on elements of expenditure potentially affected by fraud, irregularities or other illegal activities detrimental to the EU financial interests.

21. **The SC welcomes the fact that, following its comments expressed in its Activity Report for 2012, the Director-General decided to review the policy on financial indicators. The SC is, however, concerned that, as the result, the DG has completely excluded any financial indicators from the draft IPPs for 2014, leaving the unit responsible for case selection without any concrete guidance in this respect.**
22. The SC would point out that, despite the financial indicators for 2012 and 2013 being arbitrary and dangerously overstated, it considers that some financial impact criteria — discussed with the stakeholders — are, however, relevant for the assessment of the seriousness of the risk involved and could be useful as an element of reference and as internal guidelines on the application of the proportionality principle. The financial criteria should take into account the input from the European Commission's Directorates-General and from the EU institutions or bodies involved in the financial lifecycle and which are the best placed for holding timely information on the management of EU funds and on potential risks of fraud or irregularities detrimental to the EU financial interests.

II.3. *Need to reconsider the subsidiarity/added value policy*

23. The SC notes that the subsidiarity principle, combined with the assessment of the added value of OLAF's action, was one of the IPPs for 2012 and 2013. In Regulation (EU, Euratom) No 883/2013 the *added value* appears as a stand-alone principle concerning internal investigations ⁽²⁾, while the principle of *subsidiarity* is referred to (in the meaning of Article 5 of the Treaty on European Union) in the context of external investigations ⁽³⁾. However, they continue to be applied by the Investigation Selection and Review Unit as one selection criterion, regardless of the type of case ⁽⁴⁾. Since the two principles have been reinforced by the Regulation and defined in two different contexts, the SC considers that OLAF should clarify their application in the selection process.
24. The SC also notes, from the feedback received from other Directorates-General of the Commission, as well as from its own analysis of opinions of the Investigation Selection and Review Unit, that the application of this principle by OLAF is a matter of concern and that the likelihood of a follow-up by another authority seems to be insufficiently taken into consideration. While reiterating its views with regard to OLAF's 'de minimis' policy, in particular the opinion that, in cases where minor wrongdoings/low impact cases can be dealt with satisfactorily by other services, OLAF may forward incoming information to other Commission services, rather than decide to open an OLAF investigation ⁽⁵⁾, the SC would point out that OLAF should be careful to verify whether or not the recipient authority has the necessary competence and powers to deal with the case, in order to be sure that appropriate follow-up is given to cases dismissed by another authority.

II.4 *Need to regularly assess the IPPs*

25. The SC notes that the IPPs, which are determined within the context of OLAF's Annual Management Plan, change every year and there are significant differences between the IPPs for 2012, 2013 and 2014. In the SC's opinion, such changes should be justified by concrete needs and measurable indicators. However, the SC is not aware of any internal or external evaluation, feedback or follow-up of the IPPs for 2012 and 2013, and equally notes the absence of any action aimed at assessing the impact of the priorities prior to their adoption.
26. The SC believes that the IPPs should have as a purpose accomplishing certain objectives and therefore their implementation should be regularly assessed by OLAF, in order to establish whether or to what extent those objectives have been achieved. Moreover, the adoption of any new IPPs should be based on an impact assessment, which should include concrete and measurable indicators, lessons learnt from the implementation of previous IPPs and results of internal audits. The draft IPPs which shall be forwarded to the SC every year should be accompanied by the assessment of the implementation of former IPPs and the impact assessment of new IPPs, together with background documents.

III. SUPERVISORY COMMITTEE'S RECOMMENDATIONS

27. In light of the above considerations, the Supervisory Committee:

- (1) recommends that the Director General issue guidelines on application of the three selection principles established by the Regulation, including on the application of financial indicators as a proportionality criterion;
- (2) recommends that the Director General enter into a constructive dialogue with the stakeholders on the determination and implementation of IPPs, in particular with regard to financial indicators and possible follow-up of dismissed cases;
- (3) requests the Director General to provide the SC, by 6 March 2014, with an assessment of the results of the implementation of the IPPs for 2012 and 2013 together with a summary of the feedback provided by the stakeholders; in the following years those documents should be attached to the new draft IPPs transmitted annually to the SC.

ANNEX: THE SELECTION PROCESS — A STEP-BY-STEP APPROACH	52

INTRODUCTION

1. On 1 February 2012, OLAF's investigative procedures and internal organisation were significantly changed. New Instructions to Staff on Investigative Procedures (ISIP) were issued and a new Investigation Selection and Review Unit (ISRU) was created. This unit deals with both the selection and review of cases ⁽¹⁾ and provides opinions on the basis of which the Director-General (DG) of OLAF takes decisions on opening or dismissing cases, on the main investigative activities, on the final report and on the recommendations. The ISRU is thus involved in the whole lifecycle of an investigation or coordination case and most of the decisions taken by the DG in the investigation area are based on its opinions. Therefore, the internal rules, the organisation, the competences, the efficiency and the quality of the work of the ISRU have a major and direct influence on the performance of the whole OLAF investigative function. The Supervisory Committee (SC) has therefore decided to pay particular attention to the execution by this unit of its role.

Scope and purpose of the SC's review

2. The SC's review has focused on the selection function of the ISRU — and, in particular, on the selection process ⁽²⁾. The SC's analysis takes into account the legal provisions and instructions to staff in force at the time when the analysed opinions were delivered, namely Regulation (EC) No 1073/1999 ⁽³⁾ and the ISIP. However, the SC's recommendations are made in the light of the current Regulation (EU, Euratom) No 883/2013 ⁽⁴⁾ and the new Guidelines on Investigative Procedures (GIP), both of which entered into force on 1 October 2013.
3. On 1 February 2012, the assessment of the incoming information of possible investigative interest to OLAF was transferred from the investigation units to the ISRU. A centralised decision-making system was created, consisting of two levels: the decisional level, represented by the DG, and the advisory level, represented by the ISRU. Such centralisation may help to improve the efficiency and consistency of the selection of cases, provided that the ISRU carries out its function in an effective, competent and transparent manner, according to clear principles and drawing on the expertise of investigative, analytical and legal units. The SC's review has as its objective to verify whether those requirements have been satisfied.

Methodology

4. The SC selected a sample of opinions on the opening or dismissal of cases: it consisted of a statistical sample of opinions from all the cases created between 1 September 2012 and 31 March 2013 plus all opinions of May 2013 and plus further 20 opinions selected by the DG. According to the criteria submitted by the SC, OLAF identified 314 opinions ⁽⁵⁾ of which 1 contained erroneous numbering and 20 were submitted in duplicate (appearing twice on OLAF's lists). Therefore the total number of opinions eligible to be examined by the SC came to 293, of which 218 opinions (74,4 %) recommended the dismissal of cases and the remaining 75 opinions (25,6 %) recommended the opening of investigation or coordination cases (*figure 1*). All the recommendations have been followed by the DG.

⁽¹⁾ During the selection stage, the ISRU is in charge of processing the incoming information and provides the DG with opinions on the opening or dismissal of cases; during the investigation stage, it provides opinions on the necessity and legality of the main investigative activities requiring prior authorisation by the DG; before the closure of an investigation or coordination case, the ISRU reviews the final report and recommendations.

⁽²⁾ Article 5 of the ISIP.

⁽³⁾ Valid until 30 September 2013.

⁽⁵⁾ Selecting one in three cases created between 1.9.2012 and 31.3.2013 came to a total of 237 cases of which 11 were found by OLAF to be duplicates of pre-existing cases = 226 opinions; all opinions delivered for the month of May 2013 = 68 opinions.

Cases dismissed/opened

5. The SC's review is based on:
 - (a) an analysis of the selection of the ISRU's opinions;
 - (b) an analysis of the relevant background documentation made available by OLAF — including the ISIP, the GIP, the related work forms, a 'Starter Kit' provided to the selectors ⁽¹⁾, as well as statistical information provided by OLAF ⁽²⁾ or extracted from the OLAF Case Management System (CMS);
 - (c) interviews — according to a semi-structured model — with individual staff members of the ISRU, as well as with staff of investigation units, as immediate recipients of the work of the ISRU (where cases are not dismissed).
6. The details of the analysis and of the findings are presented in Part II of this opinion. In Part I the SC presents its conclusions and recommendations made to the DG.

PART I RESULTS AND RECOMMENDATIONS***Need to improve the resources allocated to the ISRU***

7. The SC's examination of allocation of resources to and within the ISRU revealed that, generally, there are experienced selectors in the unit, covering a wide range of specialisations. However, each selector deals with different sectors, including those where they have less expertise, which, in particular with regard to selectors who have no investigative experience, may have affected the quality of the assessment carried out. The limited number of the training courses completed by the selectors does not appear to compensate for the lack of previous experience. The SC found also that legal knowledge was not sufficiently demonstrated in many opinions and that language expertise was sometimes missing (see paragraphs 31-35 and 38).
8. The SC is of the opinion that the fact that selectors are required to assess information in domains with which they are not always familiar may increase the risk of losing time when having to switch between different sectors and of performing incomplete assessments of incoming information. Selectors need to be experienced and properly trained to perform selection tasks. Selectors should also concentrate their efforts on tasks and sectors in which they are most qualified.

⁽¹⁾ It contains, inter alia, general guidelines for selection and review.

⁽²⁾ Covering two periods of reference: February 2012 to December 2012 and January 2013 to November 2013.

9. The SC equally noted that it was neither possible nor productive to strictly adhere to the mandatory 2-month period foreseen in the ISIP for completing the selection of cases. Therefore, the SC welcomes the fact that the new Guidelines on Investigation Procedures eliminated this overly rigid time limit, which allows for a better balance to be struck between OLAF's objective to improve the efficiency and effectiveness of its investigation and coordination cases (by speeding up the period dedicated to the assessment of incoming information) and the need to avoid excessive time pressure (which might be damaging to the quality of the assessment) (see paragraphs 39-40).
10. Lastly, the SC noted that the adoption of clear instructions for dealing with whistle-blowers, as well as technical improvement of the Fraud Notification System (FNS) would also be desirable (see paragraphs 41-44).

Recommendation 1:

Improve the resources allocated to the ISRU

OLAF should take appropriate measures to ensure that ISRU has at its disposal sufficient and adequate resources to carry out its selection tasks.

In particular, OLAF should:

- (a) Increase the number of selectors with investigative experience;
- (b) Apply the principle of specialisation of selectors more rigorously;
- (c) Ensure that the selectors have the appropriate (legal, linguistic and sectorial) expertise and provide them with sufficient training;
- (d) Improve the functioning of the FNS, in order to allow it to cope with the upload of documents of greater size;
- (e) Adopt proper procedures for dealing with whistle-blowers.

11. The SC also noted that the reviewers have been entrusted not only with review tasks, but also with the selection of cases. The SC would point out that, the tasks of the selectors being fundamentally different from those of the reviewers, combining their responsibilities is questionable. The SC is therefore of the opinion that the attribution of cases for selection to the reviewers, in order to compensate for the insufficiency of the language expertise within the unit and resulting in an increase of the reviewers' workload, should remain a temporary and exceptional solution (see paragraphs 36-37).

Recommendation 2:

Separate structurally the selectors from the reviewers

OLAF should place the selectors in an organisational structure separate from the reviewers. OLAF should also reduce, as much as possible, the number of cases for selection allocated to the reviewers.

Furthermore, OLAF could consider either decentralising the selection function to the investigative Directorates, or introducing a rotation system whereby investigators from each investigation unit are allocated, for a period of time, to the ISRU.

Need to improve the application of the selection criteria

12. The SC found that the assessment of OLAF's competence to act was insufficiently substantiated and in general little consideration was given to the relevant legal instruments (see paragraphs 47-49).

Recommendation 3:

Improve the assessment of the criterion 'OLAF's competence to act'

OLAF should require the selectors:

- (a) **to better explain the concrete illegal or irregular activities to which the allegations refer and the way in which they affect the financial interests of the EU;**
- (b) **to make systematically reference to the relevant legal instruments.**

In addition, OLAF could also consider compensating for the lack of sufficient legal expertise by the introduction of appropriate training courses and procedures for consultations with OLAF's Legal Advice Unit.

13. The SC notes that there are no clear instructions with regard to the indicators to be used by the selectors to evaluate whether or not the information is sufficient to justify the opening of an investigation or coordination case. As a result, evaluation of this selection criterion was not always properly carried out, while at the same time a variety of practices and a certain degree of inconsistency was noted in the ISRU's opinions. The SC concludes that OLAF's approach to assessing this selection criterion needs to be further developed and clarified. To that end, OLAF could take note of concrete indicators used by selectors in some of the opinions (see paragraphs 50-54).

Recommendation 4:

Further develop and clarify parameters for evaluating the 'sufficiency of information'

OLAF should establish a list of concrete and measurable indicators for assessing the reliability of the source, credibility of the allegations and sufficiency of suspicions.

14. The SC notes that the Investigation Policy Priorities (IPPs) established by the DG indicate very clearly a number of concrete and measurable indicators that shall be used in the selection process. However, the SC's review of opinions revealed that these indicators are not systematically and rigorously applied, in particular with regard to 'proportionality', 'efficient use of resources' and 'special policy objectives/criteria'.
15. With regard to assessment of proportionality of OLAF's action, the SC found that, despite instructions in the IPPs, the opinions frequently contain unsubstantiated statements and, in many of them, the proportionality test is either absent or incomplete. Moreover, the special policy objectives/criteria are not systematically used (see paragraphs 56-57 and 64-65).

Recommendation 5:

Clarify the application of the proportionality principle

OLAF should clarify the application of the proportionality principle and provide the selectors with clearer guidelines.

In particular, OLAF should better assess the forecast of the manpower required and other foreseeable costs, weighted against the likelihood of financial recovery and/or of prosecution, and deterrent value. Financial indicators, which are relevant for the assessment of the seriousness of the risk involved, should be used as an element of reference and as internal guidelines on the application of the proportionality principle.

16. The SC also found that the evaluation of the criterion 'efficient use of resources' was not properly carried out. The SC believes that several factors may explain that. On the one hand, the evaluation of the four indicators mentioned in the IPPs is hardly achievable without close contact with the investigation units. While the selectors may indeed check in the CMS on the workload of the investigation units (in terms of number of investigators and investigations per unit), the management of these units is better placed to appreciate whether this workload permits swift and continuous investigative activities or could slow down priority investigations. On the other hand, neither the IPPs nor other guidelines on selection ⁽¹⁾ establish a threshold above which the *ratio* of cases per investigator would be considered to be excessive workload. As a consequence, in the absence of clear instructions as to the way in which the size of the workload should be evaluated and of a systemic dialogue between the ISRU and the investigation units, the evaluation of the efficient use of investigative resources would appear to depend to a great extent on a personal approach of each selector. The variety of approaches and sometimes inconsistencies noted by the SC in the opinions confirm this conclusion (see paragraphs 58-60).
17. The SC's review of opinions revealed that, in the few cases where an estimate of the size of the workload of investigators was made, it was not a determining factor for the dismissal of cases. The SC would support the

⁽¹⁾ The 'Starter Kit'.

approach that the workload of investigation units should not in itself be sufficient justification for the dismissal of a case. The lack of sufficient resources in investigation units should be tackled by other means, especially via management tools (e.g. temporary reallocation of staff).

Recommendation 6:

Clarify the parameters for the evaluation of the criterion 'efficient use of resources'

OLAF should apply more rigorously and, where necessary, clarify the application of some of the indicators established in the IPPs for evaluating the 'efficient use of resources'.

In particular, OLAF should better assess the following indicators: size of workload of investigation units and its impact on the on-going investigations, as well as the availability of expertise. To that end, OLAF could improve the cooperation between the ISRU and the investigation units.

18. The SC found that the reasons outlined as to why an OLAF action would not bring any added value to the control activities carried out by other EU or national bodies, which are better placed to act, are generally well explained. Some reasons are recurring, so it would be more efficient for OLAF to identify the main reasons and establish for the selectors a pre-determined list of possible situations where another authority is considered better placed to act (see paragraph 61).
19. The SC noted with concern that the likelihood of a follow-up by another EU or national authority seems to be insufficiently taken into consideration by OLAF. When information on dismissed cases is forwarded to national or EU authorities, it is of the utmost importance that OLAF follows up the action taken by them, in order to be able to react in an appropriate manner when a case is not effectively dealt with by these authorities (see paragraphs 62-63).
20. The SC would point out that, while the national authorities may indeed often be better placed to act, the situation is, however, different with regard to the EU institutions. When OLAF forwards information on serious suspicions of fraud to various Directorates General of the Commission or to other EU institutions, bodies, offices or agencies for further action, OLAF must check whether they have, apart from a general competence to carry out system audits, the appropriate powers to undertake (possibly investigative) actions in individual cases. These checks are necessary especially in the EU staff sector, where OLAF has, in certain matters, sole competence, while in others it has shared competence with the EU institutions, bodies, offices and agencies, with some of which it has concluded agreements on the *de minimis* policy.

Recommendation 7:

Apply with caution the subsidiarity principle

OLAF should pay special attention to cases it decides to dismiss on grounds of subsidiarity/added value reasons.

In particular, OLAF should:

- (a) Verify that the recipient authority does have the necessary powers to take forward cases dismissed by OLAF on grounds of subsidiarity/added value;
- (b) Establish an appropriate system of monitoring (prompt, systematic and clearly evidenced) of cases dismissed on grounds of subsidiarity/added value and report in a transparent manner on the results of this monitoring exercise.

21. The SC's overall assessment of the way in which selectors evaluated and applied the selection criteria revealed that the quality (in terms of completeness, clarity, consistency) of the motivation of opinions depends to a great extent on the individual approach and experience of selectors. To enhance the quality, OLAF should apply more rigorously the indicators it established for the assessment of these criteria and further develop and clarify some of them.

Recommendation 8:

Improve the quality of the motivation of opinions

OLAF should improve the quality, clarity and consistency of the motivation of the opinions on opening decision.

In particular, OLAF should consider amending the work-form 'Opinion on opening decision', in order to include specific reference to a number of items, to be chosen by the selectors from pre-determined lists.

These pre-determined lists could include references to:

- (a) relevant legal instruments (to be used when assessing OLAF's competence to act);
- (b) concrete and measurable indicators for assessing the reliability of the source, credibility of the allegations and sufficiency of suspicions (to be used when evaluating the sufficiency of information);
- (c) concrete and measurable indicators for assessing the IPPs.

Need to increase transparency of the selection process

- 22. The examination of the information flow during the selection process showed that in general OLAF is ready to provide information on dismissed cases to other EU or national authorities, while at the same time it would appear that sources of information are not systematically informed of OLAF's decisions upon completion of the selection process (see paragraphs 67-69 and 72).
- 23. The SC finds it important for the persons or entities providing OLAF with initial information to be informed of the relevant action (not) taken by OLAF. Appropriate feedback encourages fraud reporting, and it is, at the same time, a strong transparency indicator. The SC shares the view of the European Ombudsman that providing the sources of information with reasons for decisions taken by OLAF as a follow-up to that information increases transparency and strengthens trust in OLAF's functioning ⁽¹⁾.
- 24. The SC also noticed an apparently low level of cooperation between the ISRU and the investigation units (or investigation support units) which receive very little information on dismissed cases. The SC would point out that, when a case is dismissed, the information held (sometimes exclusively) by the ISRU may still be of interest for the investigation units (e.g. to detect new fraud mechanisms), and they could also sometimes provide, thanks to their expertise, useful feedback for the selection unit and thus increase the efficiency of the selection process (see paragraphs 70-71).

Recommendation 9:

Increase transparency of the selection process

OLAF should improve the transparency of the selection process.

In particular, OLAF should:

- (a) Give better feedback to the source of information on the action (not) taken by OLAF following the information provided by the source;
- (b) Reinforce internal consultation and the exchange of information between the ISRU, and the investigation (and investigation support) units.

- 25. The SC noted that the conclusions of the opinions do not always clearly mention the actions that OLAF should take at the end of the selection process. When they are not completely omitted, some of these actions can only be deduced from other sections of the opinion (see paragraphs 67-69 and 72).

⁽¹⁾ See the Draft recommendation of the European Ombudsman in her inquiry into complaint 1183/2012/MMN against OLAF, 15 November 2013, paragraph 28.

Recommendation 10:

Improve the clarity of conclusions of opinions

Further improvements are needed with regard to the conclusions drawn up at the completion of the selection process, which should clearly specify the actions that OLAF should take following a decision to dismiss or open an investigation or coordination case.

In particular, conclusions of opinions should clearly mention the actions that OLAF intends to take upon completion of the selection process, such as:

- (a) to inform the national or EU authorities better placed to act;
- (b) to protect (or not) the identity of the source;
- (c) to inform (or not) the source of information of OLAF's decisions.

Need to improve the reporting to the SC

26. The SC found instances where it had not been informed of obstructions that OLAF had encountered during the selection process. Moreover, OLAF did not inform the SC of cases dismissed where the opinions recommended that information should be transmitted to national judicial authorities. OLAF's obligation to inform the SC of 'cases' requiring information to be forwarded to the judicial authorities of a Member State ⁽¹⁾ covers both cases opened as investigations and cases dismissed. Although such examples may be quite rare, the SC would highlight that such situations fall within its mandate and OLAF should thus provide the SC with appropriate information (see paragraphs 54 and 71).

Recommendation 11:

Improve reporting to the SC on risks to OLAF's independence and on dismissed cases transmitted to national judicial authorities

OLAF should improve its reporting to the SC on issues falling within the mandate of the SC.

In particular, OLAF should:

- (a) Inform the SC whenever actions or omissions of EU or national authorities are likely to jeopardise OLAF's investigative independence and of the measures it intends to put in place in order to improve cooperation with these authorities;
- (b) Inform the SC of all dismissed cases in which information has been transmitted to judicial authorities of Member States, in accordance with Article 17(5) of Regulation (EU, Euratom) No 883/2013.

Final remarks and recommendation

27. During technical meetings with OLAF in 2013, the SC presented some concerns arising from its examination of the ISRU's opinions and from the interviews conducted with OLAF staff, with regard to, inter alia, the time-frame for completing selections, the decreasing number of analysts within the ISRU and the division of tasks between selectors and reviewers. The SC notes that OLAF introduced some significant improvements during the period when this opinion was being drafted. The 2month time limit for selection was removed from the GIP. The internal structure of the ISRU was modified on 1 January 2014: the unit is now divided into 3 sectors (two sectors dedicated to the selection and one dedicated to the review), run by heads of sectors assisting the head of unit. The SC welcomes these improvements.
28. Moreover, the SC wishes to underline that it is not its intention to substitute its own judgment on cases examined for that of OLAF, i.e. the SC is not judging whether individual cases should or should not have been opened. However, taking into consideration all of the above conclusions and recommendations and, in particular, the concerns with regard to the sufficiency of human and time resources allocated to the ISRU as well as with regard to compliance with the selection criteria, the SC believes that it would be of benefit for OLAF to carry out an internal evaluation of the activities of the ISRU, aimed at establishing, inter alia, the level of resources needed (number of staff and expertise), the strengths and weaknesses, the 'error rate' in evaluated cases (in particular those dismissed) and the relation between selectors and reviewers.

⁽¹⁾ See Article 11(7) of the former Regulation (EC) No 1073/1999 and Article 17(5) of Regulation (EU, Euratom) No 883/2013.

Recommendation 12:

Carry out an internal evaluation of the activities of the ISRU

OLAF should carry out an internal evaluation of the activities of the ISRU.

Such evaluation could be done either by OLAF's internal auditor and/or by a special team designated by the Director-General, in close consultation with Directors A and B.

The SC invites OLAF to consider the recommendations of this opinion and to report to the SC on the follow-up given to them. The SC expects to receive OLAF's report by 15 June 2014.

PART II ANALYSIS AND FINDINGS

29. The SC defined a number of indicators for the evaluation it carried out. To assess the efficiency of the selection function, the SC looked into the resources made available to the ISRU to carry out its tasks and the concrete results achieved in 2012 and 2013. The quality of the opinions was evaluated in the light of their conformity with the selection criteria established by the DG ⁽¹⁾, while the transparency of the selection process was scrutinised by looking into the information flow throughout the selection process.

(1) The resources allocated to the selection function

30. Appropriate staff (number and expertise), sufficient time and clear instructions, appropriate technical and IT tools — those elements are critical for a successful selection process. Therefore, the SC has assessed the allocation of these resources to and within the ISRU.

(1.1) Human resources

31. **Number of staff** — The ISRU had 16 selectors in 2012 and 2013 ⁽²⁾, who dealt with an ever increasing amount of incoming information ⁽³⁾. The average number of selections per selector was 74, meaning that an average of 3 working days was spent on one selection ⁽⁴⁾. An opinion was expressed in the interviews conducted by the SC that the staffing of the ISRU may be insufficient and that the heavy workload may affect the quality of the opinions. The SC does not have the necessary means and information to compare whether the performance of the ISRU is equivalent to that of the investigators who formerly carried out the assessment of the initial information prior to the OLAF reform. The SC believes that OLAF itself could and should perform such an analysis. ⁽⁵⁾

32. **Technical and investigative expertise** — In order to accomplish its mission, the ISRU needs to work within all the areas of OLAF's investigative competence. A wide range of expertise is covered by the staff within the unit, both through their education (economy, law, accounting/finances, biology, political sciences) and their professional experience (public finances inspectors, repression of corruption/fraud specialists, lawyers and magistrates, lecturers, auditors, customs officers, national police force, administrative assistants and secretaries). However, it appears from information provided by OLAF that some of the selectors do not have any investigative experience.

33. The SC noted, from the examination of the opinions of the ISRU, that cases appear to be attributed to the selectors on the basis of their personal skills (competencies, language etc.). However, the distribution of cases per

⁽¹⁾ The three selection criteria are: OLAF's competency to act, the sufficiency of information to open an investigation or coordination case and the Investigative Policy Priorities.

⁽²⁾ Ares(2013)3357296.

⁽³⁾ The information of possible investigative interest received by OLAF was defined by the ISIP as 'all information received by OLAF or information gathered on OLAF's own initiative, that could be considered for the opening of an investigation or coordination case and which must be submitted to the selection procedure for analysis'. In 2012, OLAF received 1,264 incoming information items which represented an increase of 21 % compared to 2011 (Source: OLAF 2012 Activity Report, page 13). The number of incoming information items also slightly increased in 2013 compared to 2012: OLAF received 1 156 incoming information items from February 2012 to December 2012, and 1 222 items from January 2013 to December 2013. Source: Ares(2013)3357296.

⁽⁴⁾ According to statistics provided by OLAF, a selector dealt with, on average, 72 cases from February 2012 to December 2012 (221 working days) and 76 from January 2013 to December 2013. Source: Ares(2013)3357296.

⁽⁵⁾ Prior to the reform of OLAF, incoming information was assessed by the investigators allocated to the 8 investigation units. In 2010, the investigation units counted 152 staff members (including Heads of Unit and secretaries). Source: Special Report No 2/2011 of the European Court of Auditors, Annex II.

sector and per selector indicates that each selector provides opinions not only within their sectors of expertise. Statistical information extracted from the CMS showed that selectors without investigative experience dealt with a high number of cases — mostly dismissed — in very different sectors. Some of the opinions examined clearly reflected the lack of specific or investigative expertise of the selectors, who themselves sometimes acknowledged that they 'are not specialist [in the matter analysed]' ⁽¹⁾.

34. **Legal expertise** — In the opinions analysed, the SC notes the limited use of references to the relevant legal instruments ⁽²⁾. This is a clear indicator that the appropriate legal knowledge is either missing or not being sufficiently applied within the unit.
35. **Language expertise** — The ISRU must be able to handle incoming information potentially drafted in all the 24 EU official languages, which is clearly impossible given the current number of selectors ⁽³⁾. As a result, the lack of language expertise has sometimes prevented the selectors from properly assessing the incoming information ⁽⁴⁾.
36. The lack of appropriate language expertise has been supplanted by the attribution of cases for selection to the reviewers ⁽⁵⁾, based mainly on their language skills ⁽⁶⁾, leading to an increase in their workload, while they were already in charge of providing opinions to the DG on the legality of OLAF's key investigative activities ⁽⁷⁾, on the requests to extend the scope of cases ⁽⁸⁾ and on case closures ⁽⁹⁾.
37. The SC believes that this may represent only a temporary solution of an exceptional nature, more especially considering that the workload of reviewers will likely continue to increase in the future given that the new GIP foresee that, in addition to the opinions provided under the ISIP, they will also need to advise the DG on interviews with witnesses ⁽¹⁰⁾ as well as to provide opinions on the requests to split and merge cases ⁽¹¹⁾.
38. **Trainings** — The SC would like to stress that the lack of previous experience or knowledge need not be an impediment to performing a good selection process, at least for 'simple' cases (e.g. cases clearly outside OLAF's competence, the so-called 'prima facie' non-cases or where allegations are not substantiated), as long as appropriate training has been provided. The SC was surprised to note that, on the one hand, the training courses followed by the selectors did not cover all the different sectors of OLAF's field of work while, on the other hand, the specialised courses were followed by only a very limited number of selectors ⁽¹²⁾.

(1.2) Time resources

39. The percentage of selections which the selectors completed within the 2-month period foreseen in the ISIP ⁽¹³⁾ was 76 % ⁽¹⁴⁾. Some cases were dismissed (mainly on the grounds of the insufficiency of information), because it was not possible to acquire the necessary information within the fixed time limit imposed ⁽¹⁵⁾. At the same time, it appears that some cases which were previously dismissed have been opened later, on the basis of the information provided by the source after the fixed period ⁽¹⁶⁾. Moreover, it was ascertained during the interviews conducted by the SC that the assessment of the incoming information was affected by time pressure. These examples show that it was not only impossible, but sometimes also counterproductive to adhere strictly to the

⁽¹⁾ 1 opinion.

⁽²⁾ See Part II.2 of this opinion.

⁽³⁾ According to the 2012 Activity Report of the ISRU, this unit was comprised of 11 different nationalities and was able to deal with information in 16 languages.

⁽⁴⁾ At least in 2 opinions.

⁽⁵⁾ The unit had 7 reviewers. A statistical search in the CMS showed an average of 60 cases dismissed per reviewer (2012 and 2013 cases).

⁽⁶⁾ 71 out of 293 opinions analysed were drafted by the reviewers.

⁽⁷⁾ Article 12.2 of the ISIP. In 2012 OLAF performed 97 on-the-spot checks and inspections, 66 interviews with persons concerned, 38 investigative missions to third countries, 11 inspections of EU premises, 10 digital forensic examinations (Source: OLAF 2012 Activity Report, page 21). These activities were authorised by the DG, on the basis of opinions provided by the reviewers of the ISRU.

⁽⁸⁾ Article 12.3 of the ISIP. The SC has no statistical information as to the number of opinions provided by the ISRU in this respect.

⁽¹²⁾ In January 2012, training for selectors was provided comprising several modules. Module 1 was followed by three participants; module 2 was followed by twelve participants; modules 3 and 5 were followed by seven participants; module 4 was also followed by seven participants. Specialised training courses were also provided later, e.g. in the area of Agricultural funds — Investigations by OLAF (one participant); New financial Regulation (three participants); EIB training on internal procedures (three participants); DEVCO — Budget support (one participant); SPS/SPAS training (four participants); Computer forensics in support of OLAF's investigations (one participant); Operational analysis in support of OLAF's investigations (one participant). ⁽¹⁵⁾ The source of information did not reply to OLAF's requests in 24 out of 125 cases dismissed on the grounds of insufficiency of information (19 %).

⁽¹⁶⁾ 1 case dismissed on the grounds that the information fell outside the IPPs was reopened later on as an investigation.

2-month time limit, in the absence of a procedure, in the ISIP, allowing extending this period, in duly justified situations. The SC believes that a flexible approach is recommendable taking into account that sometimes the necessary supplementary information may emerge after the 2-month period or the source of information may take some time to reply to supplementary questions.

40. The SC notes that Regulation (EU, Euratom) No 883/2013 does not impose a mandatory selection period, except for cases where a Member State concerned or an EU institution, body, office or agency requests that OLAF open an investigation and where a decision whether or not to open an investigation shall be taken within two months of receipt by OLAF of the request, otherwise OLAF shall be deemed to have decided not to open an investigation ⁽¹⁾. The new GIP eliminated the overly rigid 2-month time limit, while at the same time maintaining strict deadlines for the Registry to register the incoming information and transmit it to the ISRU ⁽²⁾.

(1.3) Instructions

41. Selectors carry out their tasks on the basis of instructions given by the DG, namely the ISIP (and, since 1 October 2013, the GIP) and of standardised work-forms ⁽³⁾. The SC has analysed these instructions and already provided the DG with a number of comments ⁽⁴⁾. The SC also makes some recommendations with regard to the work-form 'Opinion on opening decision' used by the selectors in Part I of this opinion.
42. During the interviews carried out with OLAF staff it was stated, inter alia, that in all probability many cases are not reported to OLAF due to the lack of a clear procedure for dealing with whistle-blowers. The SC notes that the selectors are instructed to comply with general rules ⁽⁵⁾, but do not have specific instructions or any formal procedure for dealing with whistle-blowers (e.g. formal contact points, work forms, process for the selectors to contact the OLAF's Legal Advice Unit). As a result, different approaches have sometimes been noted amongst the selectors ⁽⁶⁾. While taking note of the increase over the past few years, of the number of cases where the source of information was a whistle-blower (figure 2), the SC believes that the adoption of clear and detailed guidelines on how to deal with them would be helpful for the selectors.

⁽²⁾ Selection period of no longer than 2 months nevertheless remained a target in OLAF 2013 Management Plan.

⁽³⁾ General guidelines on the selection appear also in the 'Starter Kit'.

⁽⁴⁾ On 5 July 2013 the DG provided the SC with a copy of an amended version of the ISIP, which the DG envisaged adopting at the date of the entry into force of the new OLAF Regulation. The SC provided its first comments by letter of 30 July 2013.

⁽⁵⁾ Articles 22a and 22b of Staff Regulations and Commission Guidelines on Whistleblowing (SEC(2012)679 final).

⁽⁶⁾ In one opinion the identity of the whistle-blower is clearly mentioned, while in another opinion it is anonymised. Both opinions recommended the opening of an investigation.

(1.4) **IT/technical resources**

43. Successful assessment of incoming information depends to a great extent on IT/technical tools available to the ISRU which is able to access various internal and external databases. The SC noted that, for the most part, the opinions make clear mention of the consultation of databases and of the results of the research carried out by the selectors.
44. The IT tools made available to the public to report fraud are also important. One of them is the OLAF Fraud Notification System (FNS), a web-based information system that may be used to submit information to OLAF, and through which the selectors may communicate with the source of information ⁽¹⁾. On several occasions, the opinions of the ISRU mention that the informants have tried to send documents through the FNS, but these documents have not been received because of the restrictions imposed by the FNS, which blocks the upload of overly large files or limits the number of characters that can be used, without, however, informing the sender.

(2) **The selection process: compliance with the selection criteria**

45. The selection process consists of a step-by-step application of three selection criteria: OLAF's competency to act, the sufficiency of information to open an investigation or coordination case and the Investigative Policy Priorities (IPPs) established by the DG ⁽²⁾. If the first selection criterion (or the first and second selection criteria) is not fulfilled, the case is dismissed and the information assessed no further ⁽³⁾. Figures 3 and 4 show the distribution of cases dismissed and opened by sector.

Figure 3

Distribution of cases dismissed by sector

Figure 4

Distribution of cases opened by sector

46. The ISIP and the IPPs contain instructions on how to apply each of the selection criteria. The SC's review of the opinions was thus aimed at assessing their conformity with these instructions.

(2.1) **OLAF's competency to act**

ISIP, Art. 5.4: In assessing whether OLAF is competent to act, consideration must be given to relevant EU Regulations, Decisions, Interinstitutional Agreements and other legal instruments relating to the protection of the financial and other interests of the EU ⁽⁴⁾.

⁽¹⁾ Through the FNS, OLAF collects information supplied by users of the system in a questionnaire, including a free text field. Messages are recorded and analyzed by OLAF staff. If the user chooses to register for ongoing communications, OLAF collects the information subsequently transmitted in all following communications between OLAF and the user. This information is recorded on a dedicated server, and used as a source of intelligence/evidence.

⁽²⁾ Article 5.3 of the ISIP, which corresponds to Article 5.3 of the GIP. The latter was not significantly changed.

⁽³⁾ See the Annex which illustrates this approach.

⁽⁴⁾ This provision was slightly changed in the GIP: 'In assessing whether OLAF is competent to act, consideration shall be given to relevant EU Regulations, Decisions, Interinstitutional Agreements and other legal instruments relating to the protection of the financial interests of the EU, and any other interest of the EU the protection of which falls under OLAF's mandate.'

47. The SC notes that the lack of OLAF's competence to act, being the reason given for the dismissal of 15 % of the cases (figure 5), was in general well explained ⁽¹⁾. On the other hand, little consideration was given to the relevant legal instruments in those cases where OLAF was considered to be competent to act ⁽²⁾. Moreover, the assessment of OLAF's competency to act is not sufficiently substantiated: in many opinions there is a general and unsubstantiated reference to a potential impact on the EU financial interests or to the fact that EU funds were involved ⁽³⁾; in some opinions it is just stated 'yes' in the parts referring to the potential impact on the EU financial interests/potentially serious matter relating to the discharge of professional duties ⁽⁴⁾; other, very few, opinions only mention that 'OLAF is competent' without giving any further explanation ⁽⁵⁾.
48. In general, the SC notes that the quality of the assessments varies according to selectors and their experience in specific sectors: opinions concerning customs, cigarettes and EU staff are comprehensive and generally contain a clear explanation as to the irregularity arising from the allegations, the way it impacts the EU budget and the amount at stake (when determined).
49. The SC also notes that the work-form 'Opinion on opening decision' used by the selectors includes two different options for referring to the potential impact on the EU financial interests and to possibly serious matters relating to the discharge of professional duties: one in the 'summary' part of the work-form, where the selectors need to tick the relevant boxes, and one in the body of the opinion (part 3 of the work-form), where the selectors need to assess *in concreto* OLAF's competency to act. This double option might have created some confusion amongst the selectors, since some of them seem to assume that ticking the boxes in the 'summary' part exempts them from carrying out a concrete analysis of OLAF's competency to act in Part 3 of the opinion, which should not be the case.

(2.2) Sufficiency of information

ISIP, Art. 5.4: In evaluating whether the information is sufficient to open an investigation or coordination case, consideration must be given to the reliability of the source and the credibility of the allegations. In addition, all information collected during the selection process must be taken into account when justifying the opening of an investigation or coordination case ⁽⁶⁾.

50. The insufficiency of information was the main reason for dismissing cases (figure 5). The SC therefore paid particular attention to the grounds on which the selectors based their conclusions.

Figure 5
Reasons for dismissing cases

⁽¹⁾ 34 cases, concerning mainly civil/private disputes between individuals/companies where EU funds were not concerned, questions of interpretation of the EU legislation, matters falling within the exclusive competence of the Member States such as criminal offences (e.g. kidnapping).

⁽²⁾ Reference to legal instruments was made in 25 out of 259 opinions where OLAF was considered to be competent to act (9,6 %).

⁽³⁾ 55 out of 259 opinions where OLAF was considered to be competent to act (21 %).

⁽⁴⁾ 6 out of 259 opinions where OLAF was considered to be competent to act (2,31 %).

⁽⁵⁾ 3 out of 259 opinions where OLAF was considered to be competent to act (1,15 %).

⁽⁶⁾ This provision was not significantly changed in the GIP.

51. The SC identified opinions where the assessment of the sufficiency of the information (reliability of the source and credibility of the allegations) is unsubstantiated ⁽¹⁾, incomplete ⁽²⁾ or inconsistent ⁽³⁾. Equally, little consideration was given to a third parameter emerging from the EU case-law (sufficiency of suspicions), which was rather rarely used, mainly because it was not mentioned in the ISIP or in the workform used by the selectors ⁽⁴⁾. Moreover, it seems to have various meanings for the selectors: most of the time it was considered that the information was insufficient due to lack of 'clear indications of fraud' or 'absence of fraud elements' or because there was 'no concrete information as regards possible irregularities or fraud' ⁽⁵⁾; in other cases the (in)sufficiency of suspicions was determined by the quality of the information at OLAF's disposal ⁽⁶⁾, sometimes the 'seriousness of the allegations' was also an element taken into consideration ⁽⁷⁾. Bearing in mind the existing difference between the 'seriousness of the allegations' and the 'seriousness of suspicions', the SC would point out that this latter parameter should not have been considered as optional, since the EU case-law has established the 'sufficiently serious suspicion' as a precondition for the opening of an investigation ⁽⁸⁾. The new Regulation (EU, Euratom) No 883/2013 has now explicitly incorporated this requirement ⁽⁹⁾ and this change is reflected in an amended work-form accompanying the new GIP. The SC welcomes this improvement.
52. The SC believes that the deficiencies noted above could be explained, at least partially, by the fact that neither the ISIP nor any other internal document ⁽¹⁰⁾ provides the selectors with precise indicators for implementing this criterion, namely concrete situations when a source of information can be considered reliable (or not), when the allegations put forward are credible (or not) or when there are sufficient suspicions of fraud or irregularities (or not). Appreciation of these elements depends, therefore, very much on the personal approach of each selector, based on their investigative experience and specialised knowledge.
53. The SC was, however, able to identify a number of concrete indicators used in some of the opinions. The reliability of the source was evaluated by using indicators such as (i) the verifiability of the source (anonymous or not), (ii) the type of the source (natural person; EU institution, body, office, agency or a Member State or third country authority; OLAF itself), (iii) the (in)direct knowledge of or connection with the matter reported to OLAF, (iv) the possibility for OLAF to contact the source to request further information (v) the degree of cooperation between the source and OLAF, (vi) the trustworthiness of the source, (vii) the motivation of the source and potential degree of subjectivism. As to the assessment of the credibility of the allegations, their appreciation was based on indicators such as (i) the quality of the initial information provided to OLAF ⁽¹¹⁾, (ii) its verifiability ⁽¹²⁾, (iii) the context.
54. On the other hand, the SC identified a number of objective reasons explaining the insufficiency of information gathered during the selection process, such as (i) the imprecision of the initial information, which did not allow further research; (ii) technical problems with the FNS preventing the reception of documents; (iii) time pressure of the 2-month period for selection, which did not allow in-depth searches for additional information; (iv) lack of response from stakeholders (EU, national or third countries authorities, sources of information) or even obstruction on their part ⁽¹³⁾. The SC regrets that, in the latter case, such obstruction was not reported to it.

(2.3) Investigation Policy Priorities

ISIP, Art. 5.4: The IPP set out the criteria to be applied in determining whether information falls within an established investigative priority ⁽¹⁴⁾.

- ⁽¹⁾ In 64 out of 259 opinions (24,71 %) where OLAF was considered to be competent to act and the (in)sufficiency of information was evaluated, the SC noted the use of unsubstantiated statements — usually one sentence such as 'the information is/would/should (not) be sufficient/enough to open an investigation' (58 opinions), 'all the elements needed to further investigate have clearly been identified' (1 opinion), 'the information is sufficient and the sources are reliable' (3 opinions), or even a simple 'yes' (2 opinions).
- ⁽²⁾ No consideration was given either to the reliability of the source or to the credibility of the allegations in 22 out of 259 opinions (8,5 %) where OLAF was considered to be competent to act and the (in)sufficiency of information was evaluated.
- ⁽³⁾ In some cases where the source was anonymous, the selectors considered either that its reliability cannot be proved or assessed (5 opinions) or considered it to be unreliable (2 opinions).
- ⁽⁴⁾ The sufficiency of suspicions was clearly assessed in 69 out of 259 opinions (26,64 %) where OLAF was considered to be competent to act and the (in)sufficiency of information was evaluated.
- ⁽⁵⁾ 58 opinions.
- ⁽⁶⁾ 8 opinions.
- ⁽⁷⁾ 3 opinions.
- ⁽⁸⁾ Cases C-15/00 *Commission v EIB* and C-11/00 *Commission v ECB*.
- ⁽⁹⁾ Article 5(1).
- ⁽¹⁰⁾ In particular the 'Starter kit'.
- ⁽¹¹⁾ Clarity, preciseness, completeness: information has been considered to be detailed and substantiated/documentated when it provided the names of persons/entities involved, dates, location, and fraud mechanism.
- ⁽¹²⁾ Information has been considered to be verifiable and accurate when confirmed after being cross checked with information otherwise provided to or gathered by OLAF.
- ⁽¹³⁾ Lack of cooperation from a Member State was reported in one opinion. Obstructions from an EU Delegation were also reported in one opinion (disclosure of the existence of OLAF's case to the person concerned and lack of cooperation with OLAF, mainly by not providing the information requested by the latter).
- ⁽¹⁴⁾ This provision was removed from the GIP. However, the reference to the IPPs as a selection criterion was kept in Article 5.3 of the GIP.

55. Each of the investigation policy priorities established by the DG — proportionality, efficient use of investigative resources, subsidiarity/added value and special policy objectives/criteria for 2012/2013 — can be assessed on the basis of the concrete and measurable indicators which are clearly indicated in the IPPs. The SC's review is aimed at assessing the way in which the selectors applied those indicators. ⁽¹⁾

(2.3.1) *Proportionality*

IPPs: OLAF should focus on cases where it can expect a fair return for its efforts. The expected results need to be balanced against the human and material resources that will be needed to bring a case to a successful conclusion.

This entails formulating a reasonable forecast of the manpower required and other foreseeable costs (e.g. due to missions) in connection with the investigation while also taking into account:

- Likelihood of financial recovery
- Likelihood of prosecution — for example, whether there is sufficient time to investigate before time-barring and whether there are reasons *prima facie* to suspect a criminal intent
- Possible high deterrent value: for example action is taken in a high value area where little action has been taken before

56. In general terms, the proportionality principle requires that there be a reasonable relationship between an objective to be achieved and the means used to achieve it. Applied to OLAF's decisions, these require an appropriate *equilibrium* between, on the one hand, the investigative **means** to be deployed by OLAF if a decision to open an investigation or coordination case is taken and, on the other, the **results** that are expected. This approach is well reflected in the IPPs, which provide the selectors with clear indications as to the elements that need to be weighed against each other, resulting in a '*fair return for [OLAF's] efforts*'.
57. The SC notes however that there are a limited number of cases where the indicators for proportionality, as mentioned in the IPPs (likelihood of recovery and of prosecution, possible deterrent value) are clearly indicated and where a balance is struck between the number and type/complexity of the investigative activities needed to be carried out and the expected amount to be recovered/the likelihood of action to be taken by a competent authority, or between the relatively low financial impact of the alleged irregularities and the workload of the investigative unit ⁽²⁾. However, the indicators contained in the IPPs were not rigorously applied in some cases: investigations were opened on the basis of only the two first selection criteria ⁽³⁾; the proportionality test consisted of unsubstantiated statements ⁽⁴⁾ or in remarks with regard to a different policy criteria ⁽⁵⁾; reference to a financial cost/benefit *ratio* of an investigation to be carried out was incomplete ⁽⁶⁾.

(2.3.2) *Efficient use of investigative resources*

IPPs: An efficient use of resources means *inter alia* that once opened, investigations should be dealt expeditiously.

This will entail checking whether:

- The workload of the relevant Unit will permit to begin investigative activities soon after the case has been opened
- The workload of the relevant unit will permit to carry out work continuously as required by Regulation (EC) No 1073/99
- Investigations underway and whose priority is higher are not slowed down
- Expertise required in order to carry out the investigation is available (language/sectoral/technical/legal knowledge)

⁽¹⁾ The SC's comments on the IPPs themselves can be found in the SC's Opinion No 1/2014.

⁽²⁾ 37 out of 134 opinions (27,61 %) where the IPPs were assessed (59 opinions recommending dismissing a case on the grounds outlined in the IPPs and 75 opinions recommending the opening of investigation/coordination cases).

⁽³⁾ 2 cases.

⁽⁴⁾ In 24 out of 134 opinions (18 %) where the IPPs were assessed it was only stated that 'it is/it would be proportionate/disproportionate' or 'it would be/not be proportional' to open an investigation or coordination case or OLAF 'can/cannot expect a fair return from its investigative efforts'.

⁽⁵⁾ E.g. when carrying out the proportionality test, reference was made to the subsidiarity/added value of OLAF's action (the assumption that an OLAF action would not be proportionate because action was already taken at national level and OLAF cannot bring any added value was found in 15 out of 59 opinions (25,42 %) recommending dismissing a case on the grounds outlined in the IPPs).

⁽⁶⁾ Where the potential financial impact of the irregular activity affecting the EU budget was estimated or the likelihood of prosecution in the Member State or of disciplinary action by the EU institution concerned was anticipated, there is no reference to the forecast of the human and material resources needed to investigate: 8 out of 59 opinions (13,55 %) recommending dismissing a case on the grounds outlined in the IPPs.

58. The SC notes that the evaluation of the workload of the investigation units is often missing ⁽¹⁾, unsubstantiated ⁽²⁾, inconsistent ⁽³⁾, or makes reference to indicators such as proportionality or the added value of OLAF's action ⁽⁴⁾. When verification *in concreto* of the workload of the investigation unit is carried out, the selectors mention the number of cases per unit and the number of investigators per unit, without making any estimate as to the size of the workload of the investigation unit ⁽⁵⁾. In the few cases where such an estimate was made, the heavy workload of the investigators was a reason for dismissing them, but always used in conjunction with subsidiarity reasons ⁽⁶⁾.
59. The number of opinions making reference to the possibility to carry out activities continuously and without slowing-down on-going or priority investigations is also very limited ⁽⁷⁾, while the availability of expertise within a specific unit seems to be better evaluated ⁽⁸⁾.
60. Few opinions make explicit reference to an internal consultation as to the availability of the human resources and/or expertise within the investigation units ⁽⁹⁾. From the interviews conducted by the SC it is also clear that the investigation units are only rarely consulted regarding the resources situation.

(2.3.3) Subsidiarity/added value

IPPs: OLAF will prioritise cases where it is the only authority with competence in a specific situation or when it can clearly add value to the actions of others.

This will entail checking whether:

- OLAF has sole competence (in certain matters in relation to EU staff) or whether there is an identifiable authority that can act
- One or several authorities have requested the assistance of OLAF in a complex case and OLAF is therefore in a position to add value
- An OLAF investigation could add value in terms of recovery, prosecution or deterrence to the control activities already carried out by other EU or national bodies

61. The SC notes that the criterion of subsidiarity/added value represents the main reason used for advising the dismissal of a case on the grounds outlined in the IPPs, taken alone or combined with other reasons ⁽¹⁰⁾. Apart from a small number of opinions giving it no consideration ⁽¹¹⁾ or unsubstantiated ⁽¹²⁾, the reasons outlined as to why an OLAF action would not bring any added value in terms of recovery, prosecution or deterrence to the control activities carried out by other EU or national bodies, which are better placed to act, are generally well explained ⁽¹³⁾.
62. The SC received information, from other Directorates-General of the Commission, pointing out that OLAF is dismissing cases, while at the same time forwarding them for action to those Directorates without, however,

⁽¹⁾ The evaluation of the workload is missing in 50 out of 134 opinions (37,31 %) where the IPPs were assessed: some opinions mention that no investigative resources should be used (22 opinions), while others make no reference to the investigative resources (28 opinions).

⁽²⁾ In the sense that it is stated that OLAF would be able to carry out an investigation or that a specific unit would be competent to investigate or would have the necessary resources available, but without any further explanation (30 out of 134 opinions (22,38 %) where the IPPs were assessed).

⁽³⁾ One opinion mentions that the workload of a specific investigation unit would not allow investigative activities to begin soon after the case has been opened and consequently recommended the dismissal of the case, while another opinion issued in the same period by a different selector indicates the contrary with regard to the same investigation unit, and as a consequence recommends the opening of an investigation case.

⁽⁴⁾ 7 out of 134 opinions (5,22 %) where the IPPs were assessed.

⁽⁵⁾ 40 out of 134 opinions (29,85 %) where the IPPs were assessed.

⁽⁶⁾ In 5 out of 59 opinions (8,47 %) recommending dismissing a case on the grounds outlined in the IPPs.

⁽⁷⁾ Such reference was made in 5 out of 134 opinions (1,49 %) where the IPPs were assessed.

⁽⁸⁾ 42 out of 134 opinions (31,34 %) where the IPPs were assessed.

⁽⁹⁾ 3 out of 59 opinions (5 %) recommending dismissing a case on the grounds outlined in the IPPs.

⁽¹⁰⁾ It was found that OLAF's action could have an added value only in 1 out of 59 cases dismissed on the grounds outlined in the IPPs. The case was however dismissed because it was considered that an OLAF action would not have been proportionate (financial *ratio cost/benefit* too high).

⁽¹¹⁾ 1 opinion, advising dismissal of a case exclusively on the grounds that the financial impact was too low.

⁽¹²⁾ 2 opinions out of 59 opinions (3,38 %) recommending dismissing a case on the grounds outlined in the IPPs.

⁽¹³⁾ E.g. the EU/national authorities were aware or already dealing with the matters submitted to OLAF or with similar matters; due to the nature of the denounced acts they were better placed to conduct a national enquiry or they had more powerful means to investigate than OLAF; there would be duplication of work if OLAF was involved and consequent risk of jeopardising a national investigation; it was considered that, in accordance with principles of subsidiarity and proportionality, the Member State had the primary responsibility for the management and control of the EU funded projects). Those explanations were found in 56 out of 59 opinions (95 %) recommending dismissal of a case on the grounds outlined in the IPPs.

checking whether they had the necessary competence and powers to act. The SC notes with concern that the Directorates-General of the Commission, which have been considered by OLAF to be better placed to act and thus receive from OLAF information on dismissed cases, are not required to report back to OLAF on actions taken ⁽¹⁾.

63. Moreover, the SC notes that cases concerning Members of the European Parliament (EP), where OLAF has clearly competence to act ⁽²⁾ were dismissed on the grounds of subsidiarity, although it was stated that in similar cases the EP did not report back to OLAF, despite an explicit request, on the action taken with regard to the information sent by OLAF ⁽³⁾. The SC would draw attention to the *Practical Arrangements* recently agreed between the EP and OLAF ⁽⁴⁾ which do not include such situations on the list of activities which usually/probably do not lead to serious situations requiring OLAF investigations and where OLAF is presumed not to intend to open an investigation or where there is a high probability that OLAF will not open an investigation ⁽⁵⁾.

(2.3.4) *Special policy objectives/criteria*

64. According to the IPPs, OLAF will focus its investigative activity on sectors considered to be a priority and also on those cases where financial indicators determine the seriousness of fraud ⁽⁶⁾. When it comes to the prioritised sectors, the SC noted that the reference to them was quite rare ⁽⁷⁾. Similarly, the financial indicators were not always used: in some cases there is no reference at all, even when the financial impact is known ⁽⁸⁾. When they are referred to, mainly in sectors such as EU staff or structural funds, they are used either to dismiss cases on the grounds that the financial impact was non-existent or too low, taken alone or in conjunction with other IPPs, or to recommend the opening of an investigation or coordination case. The SC noted that the financial indicators were not always a determining factor when proposing to dismiss or open a case: when the financial indicators correspond to the IPPs, the case may, however, be dismissed on subsidiarity/added value grounds ⁽⁹⁾ or, conversely, when a case does not fall within the special policy objectives it may however be opened as an investigation if the other selection criteria are fulfilled ⁽¹⁰⁾.
65. As a general remark, the SC would point out that the financial indicators should not be used as thresholds for justifying the dismissal or opening of cases, but rather as an indicator for estimating or measuring the seriousness of the fraud risk involved (proportionality test) ⁽¹¹⁾.

(3) *The information flow during the selection process*

66. A centralised system where the number of OLAF staff aware of specific incoming information is very limited ⁽¹²⁾ may lead, in the SC's opinion, to a lack of transparency and of accountability in the decision-making process, especially with regard to the cases dismissed. It should be balanced by a procedure for providing the appropriate information to the relevant EU or national authorities with which OLAF shares competence in the antifraud fight, to the investigation directorates and also to the sources providing OLAF with the initial information. The SC therefore examined the transparency of the selection process in the light of these three information-sharing requirements.

⁽¹⁾ According to the replies by the EC to the EP's written questions to Commissioner Šemeta, in the framework of the 2012 discharge to the Commission (questions 6d and 6e).

⁽²⁾ 2 cases regarding allegations of possible irregular cost declarations or possible irregular defrayal of parliamentary assistance expenses, with direct impact on the EU financial interests and representing a potentially serious matter relating to the discharge of professional duties of Members of the European Parliament.

⁽³⁾ The 2 cases referred to in the previous footnote were dismissed on subsidiarity grounds five and, respectively, seven months after another similar case was dismissed and referred to the EP. It was proposed to refer the two cases to the EP, despite the fact that, at the time of the drafting of the opinions, OLAF had not received any feedback from the EP.

⁽⁴⁾ 19 July 2013. The cases referred to above were however dismissed several months before the signature of the Practical arrangements.

⁽⁵⁾ See Annex II to the Practical arrangements with the EP.

⁽⁶⁾ See the IPPs for 2012 and 2013 and the SC's Opinion No 1/2014 on the IPPs.

⁽⁷⁾ 17 out of 134 opinions (12,68 %) where the IPPs were assessed.

⁽⁸⁾ The financial impact was known in 80 (out of 134) cases where the IPPs were assessed. In 13 of them (16,25 %) the opinions did not make explicit reference to the financial indicators.

⁽⁹⁾ The financial impact was known in 34 (out of 59) cases dismissed on the grounds outlined in the IPPs. In 7 of them the financial impact corresponded to the IPPs, but they were dismissed on subsidiarity/added value grounds.

⁽¹⁰⁾ The financial impact was known in 46 (out of 75) cases opened (investigation or coordination cases). In 6 of them the financial impact was below the financial indicators as mentioned in the IPPs.

⁽¹¹⁾ See the SC's Opinion No 1/2014 on the IPPs.

⁽¹²⁾ With regard to dismissed cases, the information flow includes staff of the Registry (the person registering the incoming information), of the ISRU (the selector in charge and/or the Head of Unit) and the DG, who takes the ultimate decision to dismiss the case. The circulation chain may thus include from two persons (the Director-General and the Head of the ISRU, when the latter is acting as selector — this was the case in two of the opinions analysed) — when the incoming information is transmitted exclusively and directly to one of them) up to a maximum of four persons (the Director-General, the Head of the ISRU, the selector and the Registry staff).

(3.1) Information provided to the competent EU or Member States' authorities

67. Whenever an EU or national authority is better placed to deal with a case, OLAF should transfer it there. Such follow-up is necessary for every case where a sufficient suspicion of fraud has been established, but where OLAF decides not to open an investigation. Otherwise, not only would areas of impunity be created, but the transparency and coherence of the selection process would also be compromised.
68. Opinions advising dismissal of a case on the grounds of subsidiarity/added value usually indicate that information should be forwarded to the authority considered better placed to act ⁽¹⁾. However, it is not always clearly stated in the 'conclusions' part of the opinion, but can sometimes only be deduced from other sections.
69. Another important aspect that OLAF needs to take into account when transferring information to a competent authority is the necessity to protect the identity of the source, in particular of whistle-blowers. The SC notes the very limited number of opinions recommending non-disclosure of the identity of the source to those authorities, sometimes upon request by the source itself ⁽²⁾.

(3.2) Information provided to the investigation directorates

70. During the interviews with OLAF staff, the lack of transfer of information on dismissed cases to the investigation units was described as inhibiting the exchange of knowledge and experience. On the other hand, the SC was informed by OLAF notes ⁽³⁾ that there was a regular contact between the ISRU and the investigation units during the selection phase, principally in order to check the availability of investigative resources in a specific unit, or connections between new incoming information and already existing cases.
71. However, the opinions reviewed by the SC do not reflect regular contacts. Few opinions make explicit reference to an internal consultation ⁽⁴⁾ or to the forwarding of information on a dismissed case of possible interest for an on-going investigation to the investigator in charge ⁽⁵⁾. This lack of consultation is even more evident in a few other cases where the selectors faced difficulties in carrying out searches or assessing information drafted in a language with which they were not familiar and where the investigation units (possessing the relevant language expertise) were never consulted ⁽⁶⁾, as well as in instances where investigation/coordination cases similar to or connected with the information being assessed were identified ⁽⁷⁾. That situation could raise problems in cases where it is recommended to send the information under assessment to a competent national judicial authority but not to the investigation unit dealing with the connected case, or to the SC ⁽⁸⁾.

(3.3) Information provided to the source of information

72. The SC notes that the opinions of the ISRU do not systematically propose informing the source of information of OLAF's decisions ⁽⁹⁾. While this is understandable with regard to decisions to open investigation/coordination cases (for confidentiality reasons) ⁽¹⁰⁾, it may be questionable with regard to dismissed cases.

⁽¹⁾ 47 out of 59 opinions (79,66 %) recommending dismissing a case on the grounds outlined in the IPPs.

⁽²⁾ In cases dismissed where it was proposed to forward relevant information to the competent authority, recommendations of non-disclosure of the identity of the source was found in 7 opinions (out of 42 cases where the identity of the source is known by OLAF).

⁽⁴⁾ 29 out of 134 opinions (21,64 %) where the IPPs were assessed make reference to an internal consultation, with regard to the availability of the human resources and/or expertise (3 opinions), verification of connection of the information being assessed to existing investigations (3 opinions), or discussions on the proposal to dismiss a case or to open an investigation/coordination case (23 opinions — mainly in those cases where the initial information was forwarded for assessment to the ISRU by the investigation units themselves).

⁽⁵⁾ 1 out of 59 opinions (1,69 %) recommending dismissing a case on the grounds outlined in the IPPs.

⁽⁶⁾ 2 out of 59 opinions recommending dismissing a case on the grounds outlined in the IPPs.

⁽⁷⁾ 3 out of 59 opinions recommending dismissing a case on the grounds outlined in the IPPs.

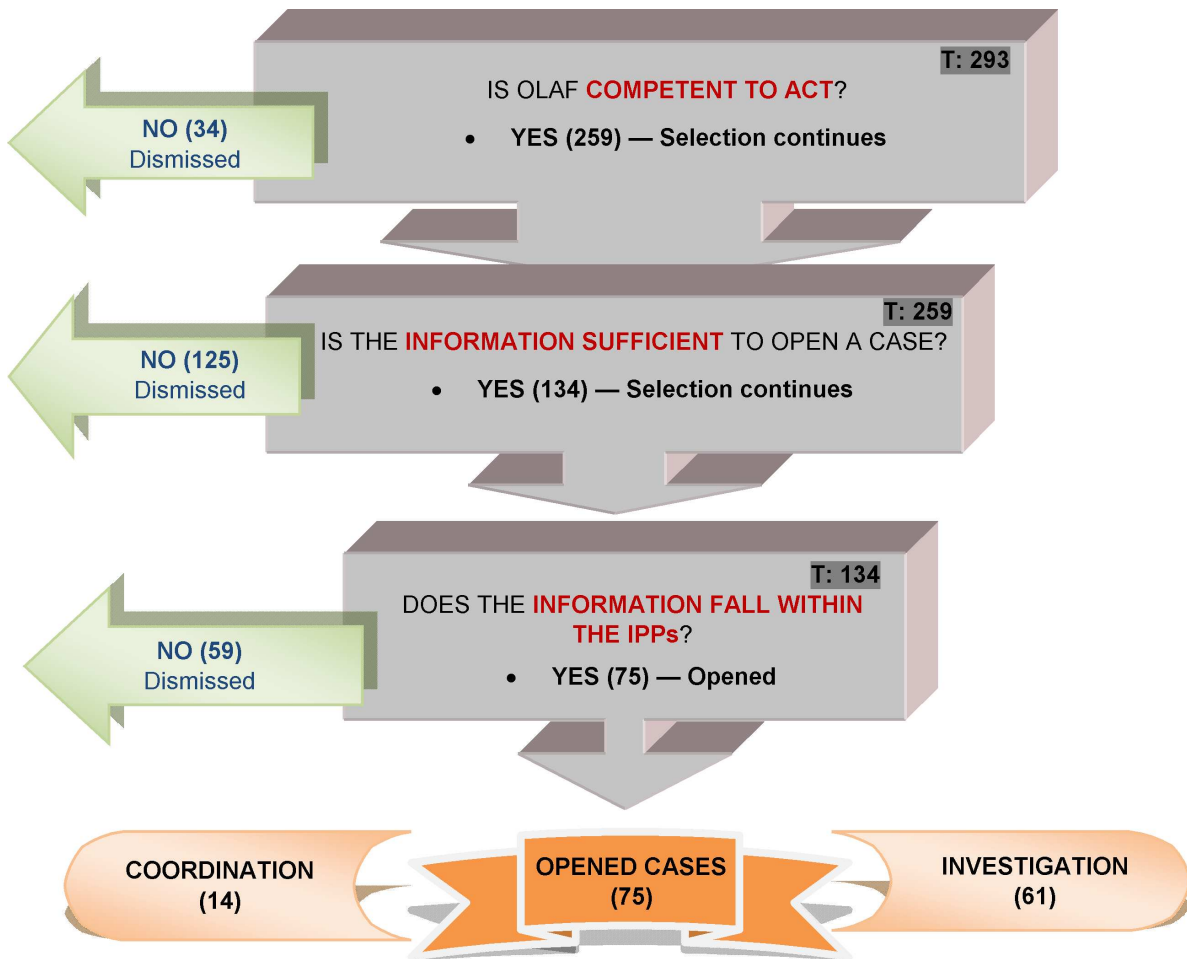

⁽⁸⁾ 1 out of the 3 cases mentioned in the previous footnote.

⁽⁹⁾ The identity of the source was known by OLAF and/or OLAF can communicate with the source in 132 out of 218 cases dismissed. It was proposed to inform the source of information of OLAF's decisions to dismiss cases in 22 out of these 132 opinions (16,66 %).

⁽¹⁰⁾ 1 out of 75 opinions recommending the opening of investigation/coordination cases proposed that the source of information be informed of OLAF's decision.

SUPERVISORY COMMITTEE'S OBSERVATIONS ON THE AMENDED ISIP

GENERAL CONSIDERATIONS

In general, the Committee considers that by their content, the Instructions to Staff on Investigation Procedures (ISIP), which as of February 2012 replaced the OLAF Manual, constitute the governing principles of OLAF investigative procedures. They merit completion by the institution of operational guidelines (practical guidance according to Recital 18 of the amended Regulation) aimed at a concrete definition of the implementation of these guidelines in order to ensure a transparent, coherent implementation, to ensure respect for the equal treatment of all persons. Such guidelines would be useful when confronting those obstacles or difficulties faced by investigators, which are not mentioned in the ISIP.

SPECIFIC COMMENTS

1. The selection procedure (chapter I)

Decision on the opening of a case

Regarding the conditions governing the opening of cases, the ISIP refer, in Article 5.3, to the existence of *information sufficient to open an investigation or coordination case*. However, they do not refer to the *sufficient suspicion*, as provided in the amended Regulation. The existing European jurisprudence has established 'sufficiently serious suspicion' as a precondition for the opening of the investigation. Given the importance of that condition for the sake of the guarantee of fundamental rights, the SC considers this notion should be explicitly mentioned.

The measures the ISRU is entitled to take prior to the decision whether to open a case

The ISIP provide the possibility, inter alia, to *take a statement from any person able to provide relevant information*. The glossary defines a statement as a written record of evidence relevant to an investigation provided by a person within the framework of an OLAF case, which could be applied to a witness. The SC questions to what extent and what type of measures the ISRU is entitled to take prior to the opening of a case taking into consideration the procedural guarantees as outlined in the ISIP following the opening of the case. Clarification on this point would appear useful.

The internal competencies within the ISRU

Whilst enjoying the power of assessment and proposal to open an investigation, the ISRU has, in addition, the responsibility for reviewing the legality of a certain number of investigative measures as foreseen by the investigation units. In order to clearly set out the principle of an independent legality control within OLAF, it would be appropriate to clearly define in the ISIP the separation of selectors and reviewers in this unit.

Dismissed cases where there are grounds for sufficient suspicion

As pointed out by the SC in its annual report, the text of the Reform strengthens the primacy of the principal of opportunity in the opening or investigations without establishing a subsequent duty for the Director-General to inform the competent authorities of the Member State or the institution concerned when he decides not to open an investigation.

As further mentioned by the SC in its annual report, the ISIP does not make any provision for those cases where there may be sufficient grounds for suspicion but which may not necessarily lead to a decision to open an investigation.

2. The provisions regarding the investigations and coordination cases (chapter II)

The nature of the investigations

The SC notes that any reference to the administrative nature of the investigative measures OLAF is entitled to conduct has been deleted. There could therefore be a risk of confusion for persons and the public at large as to the extent of its powers.

The SC notes that the distinction between internal and external investigations has also been removed also and endeavours to understand the reasons supporting this change given that this categorisation is provided for in the text of the amended Reform, as well as in the previous ISIP. The SC would suggest it to be of a particular importance to maintain this distinction, since the powers and the investigative measures OLAF is entitled to carry out do not appear to be similar, according to the scope of the investigation.

The scope of the legality check during an investigation

The ISIP establishes a prior legality check of specific and limited investigative measures.

As the SC has pointed out in its annual activity report, some others investigative measures may have a significant impact on procedural guarantees and fundamental rights, for example measures that could be seen as 'interference by a public authority' with the exercise of the right to respect for private life could result in an interference with fundamental rights.

The text of the Reform has specifically foreseen that the Director-General shall put in place an internal advisory and control procedure including a legality check relating, *inter alia*, to respect (...) of the national law of the Member States concerned.

It appears therefore that the ISIP should include provisions for organising a wider internal control covering, in particular, verification of the consistency of the gathering of elements for investigations when requested from Member States.

3. Cooperation with others agencies (Europol, Eurojust)

The ISIP do not contain provisions relating to the rules applicable for the implementation of cooperation, in particular the content and procedures for the exchange of information with other agencies liable to carry out investigations or to coordinate action by Member States in the areas of competence shared with OLAF.

In this regard the SC shares the Recommendations 3 and 4 as issued by the European Court of Auditors in its follow-up report 2011 to its Special Report No 1/2005 on the management of OLAF.

4. Decisions of the Director-General

In order to ensure transparency and impartiality where the Director-General decides not to follow the opinion of the ISRU at important stages (*inter alia*, the opening or dismissal of cases, closure decisions, extension of the scope of an investigation), the ISIP should provide a reasoned decision from the Director-General.

In several sections of the ISIP (Articles 5.4, 8.1), reference is made to '*the financial and other interests of the EU*'. This wording should be clarified, in light of recital 6 of the amended Regulation.

Article 13.4 — In the view of the Supervisory Committee, the ISIP should specify the principle according to which inspections of EU premises are conducted in the presence of the Member or official concerned, prior to providing provisions for inspection in the case of absence of the person concerned from the office.

5. Specific changes

The SC would like, in particular, to know the reasons for the modifications to the following Articles:

14.6: on-the spot checks,

15.2: digital forensic operations within inspections or on-the-spot checks,

16.2 and 16.5: interviews,

18.1 and 18.2: the opportunity to provide comments,

19.10: the final report and proposed recommendations.

Reinforcing procedural safeguards in OLAF in view of the monitoring experience of the OLAF Supervisory Committee**Present supervision structure**

1. The European Antifraud Office (OLAF) and its Supervisory Committee (SC) have been established by Commission Decision of 28 April 1999 ⁽¹⁾. The scope of supervision has been reinforced and specified by Regulation No 883/2013 ⁽²⁾ of 11 September 2013. The SC is the guarantor of OLAF's independence and it supervises the investigatory function of OLAF through regular monitoring aimed at ensuring the proper conduct of investigations. The SC focuses in particular on examining whether fundamental rights and procedural guarantees are respected in OLAF's investigations and whether the cases are dealt with efficiently, effectively, in due time and according to the relevant rules and legal provisions.

SC recommendations and Commission proposals

2. In its Annual Activity Report 2012 (in particular in Section 2 of Annex III), the SC recommended, on the basis of its monitoring experience and in view of the identified shortcomings, a number of actions aiming at reinforcing procedural safeguards in OLAF's investigations. The SC recommended in particular introduction of transparent and stable procedures for the internal legality check and for independent review of complaints. The SC recommended also clarification of OLAF's powers in different types of administrative investigations and insisted on providing the SC with effective tools for monitoring the respect of procedural guarantees and fundamental rights by OLAF.
3. That need to strengthen the procedural safeguards and legality checks seems to be a common conclusion of the European Parliament, the Council, the Commission, the Court of Auditors and the SC as expressed in their exchanges of opinions on OLAF investigative activities.
4. Such strengthening should be considered in view of the Commission's proposal for the establishment of the European Public Prosecutor's Office (EPPO). Creation of the EPPO would be a change of paradigm by transferring cases of possible criminal fraud from administrative investigations in OLAF to criminal investigations conducted by European prosecutors. Such change is to result in a substantial reinforcement of the procedural guarantees for persons concerned by investigations.
5. Even with the establishment of the EPPO, OLAF would still have a significant role to play in the protection of the EU against offences and irregularities affecting its financial interests. There is a high degree of uncertainty when it comes to the geographical coverage of the EPPO which most probably will be established by enhanced cooperation of some Member States — their number remains unknown, but almost surely not all of them are going to participate. Therefore investigations of similar nature might be in future conducted in parallel by the EPPO and OLAF, depending on a Member State, which would require strengthening the procedural safeguards in OLAF's investigations, so that they could match the foreseen EPPO standards.
6. Therefore, the SC welcomes with satisfaction the Commission's Communication on *Improving OLAF's governance and reinforcing procedural safeguards in investigations* ⁽³⁾. The SC is currently analysing possible consequences of particular solutions proposed there and is looking forward to discussing them with the Institutions and with OLAF. As the first reflection, the SC considers the substance of the proposals as positive, providing for instruments potentially enabling to improve the current level of safeguards. At the same time, some structural solutions, as proposed in the Communication, should be reconsidered with particular regard to the independence of OLAF and of the SC, to ensure avoiding conflicts of competences with respect to the supervision of OLAF as well as duplication of work and inefficient allocation of resources.

New bodies and their competences

7. At this stage, the SC is considering specifically the issues of the institutional framework for two new offices proposed by the Commission and the scope of their competences.

⁽¹⁾ Commission Decision 1999/352/EC, ECSC, Euratom of 28 April 1999 establishing the European Anti-fraud Office (OLAF), (OJ L 136, 31.5.1999, p. 20) as recently amended by Commission Decision 2013/478/EU of 27 September 2013 (OJ L 257, 28.9.2013, p. 19).

⁽²⁾ Regulation (EU, Euratom) No 883/2013 of the European Parliament and of the Council of 11 September 2013 concerning investigations conducted by the European Anti-Fraud Office (OLAF) and repealing Regulation (EC) No 1073/1999 of the European Parliament and of the Council and Council Regulation (Euratom) No 1074/1999 (OJ L 248, 18.9.2013, p. 1).

⁽³⁾ COM(2013)533 final, 17.7.2013.

8. The Communication advocates establishment of a new office of a 'Controller of procedural safeguard' who would 'monitor compliance with the procedural guarantees applicable to OLAF investigations and of prompt handling of investigations to avoid undue delay'. It is very hard to see how the Controller could avoid having his work overlapping with the work of the SC which would 'monitor systemic developments regarding respect of procedural rights and reasonable deadlines for handling cases'.
9. Even if the differentiation between the tasks of the Controller and of the SC could be possible argued on a theoretical level, the practical experience of the SC shows that review of individual cases is an indispensable element of systemic monitoring of OLAF. Therefore, the daily work — in the separate secretariats of both bodies — would be very similar and consist in examination of individual case files in view of respect of procedural rights and duration of investigation.
10. In its systemic analyses based on samples of individual cases, the SC could be examining, coincidentally and even unknowingly, the same case as would be examined by the Controller in the framework of his individual review. It could lead not only to redundant duplication of work, but also to issuing diverging or even conflicting recommendations to the Director-General of OLAF.
11. Furthermore, the Commission proposes to establish an office of a judicial reviewer who would authorise OLAF's intrusive investigative measures concerning Members of EU Institutions. As a result, also his work (as the SC's and Controller's work) would concern examination of the respect of procedural/fundamental rights (although *ex ante* and not *ex post*).
12. The reviewer's competences, his punctual interventions and his placement within or next to the Commission could raise serious concerns as regards OLAF's independence. In view of his placement, his competence to advise on investigative measures against Members of the Commission but also of other Institutions could affect the interinstitutional balance.
13. Also as regards the Controller, who would be similarly placed and separated from the SC, there could be concerns with regard to his independence and to the cost effectiveness of him having a separate secretariat doing the job currently done by the SC's Secretariat.
14. Creation of two additional offices controlling OLAF but separate from the Supervisory Committee of OLAF would lead to multiplication of independent supervising structures, probably resulting in confusion or conflict of competences and duplication of work. That could ultimately decrease the efficiency of the supervision of OLAF.

Alternative solutions

15. The SC is considering other options which would retain the useful instruments proposed by the Commission, but which would at the same time incorporate them into a comprehensive and effective supervision structure.
16. To achieve the important aim of reinforcing the procedural safeguards in OLAF set forth by the Communication, the Controller should form a part of a wider supervisory committee. His independence would be strengthened and he could benefit from the expertise of the SC and its Secretariat having a long experience in examining the respect of procedural guarantees in OLAF. The whole joint structure would be stronger, more efficient and would produce an effect of synergy. A common secretariat would ensure consistency, economy of scale and allow avoiding duplication of work.
17. As regards the judicial reviewer, he could be, theoretically, also attached to a wider supervisory committee to benefit from the knowledge and independent resources of the already established structure. On the other hand, the judicial reviewer being attached to the SC (or to the Commission) would implicate the SC (or the Commission, respectively) in the decision-making process in OLAF which could jeopardise OLAF's independence.
18. Therefore, it seems more logical to place the judicial review back in a dedicated judicial unit within OLAF which would consist, as it used to be the case, of national magistrates. They could, without putting OLAF's independence in danger (as it could be the case with an external body), provide the Director-General, rather expeditiously thanks to their presence within OLAF, with independent and formal legal advice, *ex ante*, on all intrusive investigative measures and other actions requiring compliance with specific national provisions. The SC would continue to monitor, *ex post*, the judicial recommendations to the Director-General and his ensuing decisions, with a view of ensuring OLAF's independence, on the one hand, and the procedural rights of persons concerned, on the other.

19. In the light of its monitoring experience, the SC supports the Commission's proposal to reinforce the procedural safeguards in OLAF investigations. It is particularly recommendable having regard to the abolition in the reformed OLAF of the SC's prior examination of the respect of fundamental right and procedural guarantees before an OLAF case is sent to national judicial authorities — which was considered by the Court of Justice as a crucial safeguard for persons concerned. The improved supervisory structure must be functional and efficient. The SC is looking forward to the forthcoming exchange of opinions between the Institutions under the new OLAF Regulation which could focus on working out optimal and broadly supported legislative solutions.

INTRODUCTION

1. In the light of the mission and tasks entrusted to it by Regulation (EU, Euratom) No 883/2013 ⁽¹⁾, the Supervisory Committee (SC) of the European Anti-fraud Office (OLAF) hereby defines its strategic objectives and priorities for the first half of its five years mandate (as of 23 January 2012).

1. LEGAL FRAMEWORK

1.1. *Mission and role of the Supervisory Committee*

2. The mission of the SC, as outlined by Regulation (EU, Euratom) No 883/2013, is to reinforce OLAF's independence in the proper exercise of the competences conferred upon it ⁽²⁾. To accomplish this mission, the SC was entrusted with a threefold role:
 - The SC is the **supervisory body** of OLAF and a guardian of OLAF's independence.
 - The SC plays an **advisory role** towards the Director-General of OLAF (DG).
 - The SC is a **dialogue partner** of the EU institutions.

1.2. *Core tasks of the Supervisory Committee*

3. The core tasks of the SC are also defined by the Regulation from this triple perspective.
 - As a **supervisory body**, the SC shall regularly monitor the implementation by OLAF of its investigative function and, in particular, developments concerning the application of procedural guarantees and the duration of investigations ⁽³⁾.
 - In the framework of its **advisory role**, the SC provides consultation to the DG:
 - by communicating to him the results of the SC's monitoring of the implementation of the OLAF investigative function, the application of procedural guarantees and the duration of investigations and making, where necessary, appropriate recommendations;
 - by addressing to him opinions including, where appropriate, recommendations on, inter alia, the resources needed to carry out OLAF's investigative function, on the investigative priorities and on the duration of the investigation ⁽⁴⁾;
 - by submitting its observations (including, where appropriate, recommendations) on the guidelines on investigation procedures (and any modification thereto) adopted by the DG in accordance with Article 17(8) of the Regulation.
 - As a **dialogue partner** of the EU institutions, the SC reports to them on its activities ⁽⁵⁾ and exchanges views at a political level ⁽⁶⁾, thus providing the EU institutions with expertise based on its monitoring experience.

1.3. *Reporting*

4. The SC reports to the European Parliament, the Commission, the Council and the European Court of Auditors on its findings and activities *via*:
 - *activity reports*, which remain the primary medium to report to the EU institutions on the SC's findings and assessment of OLAF's independence, the application of procedural guarantees and the duration of investigation ⁽⁷⁾;
 - *reports* on the results of OLAF's investigations and the action taken on the basis of those results ⁽⁸⁾;
 - *opinions*, including, where appropriate, recommendations adopted on the SC's own initiative or at the request of the DG or of an institution, body, office or agency ⁽⁹⁾.
5. The SC underlines that opinions issued at the request of the DG or by an institution, body, office or agency should relate to the core activities of the SC and should not interfere with the conduct of investigations in progress, or put the independence and the objectivity of the SC at risk.

⁽⁸⁾ Article 15(9) second paragraph.

1.4. Access to information

6. The SC's monitoring is based on information that the DG is obliged to provide:
- The investigation policy priorities determined in the context of the annual management plan ⁽¹⁾;
 - Periodic information on OLAF's activities, on the implementation of its investigative function and the action taken by way of follow-up to investigations ⁽²⁾;
 - Periodic information on cases in which the recommendations made by the DG have not been followed, on cases in which information has been transmitted to judicial authorities of the Member States and on the duration of investigations ⁽³⁾;
 - Decisions to defer informing an institution, body, office or agency that its member, official or other servant may be a person concerned in an internal investigation ⁽⁴⁾;
 - The OLAF preliminary draft budget ⁽⁵⁾.
7. In addition, the SC may ask the Office for additional information on investigations, including reports and recommendations on closed investigations, without however interfering with the conduct of investigations in progress ⁽⁶⁾.

2. MONITORING FORMULA

8. The SC provides OLAF and the EU institutions with a first-hand practitioners' view based on their expertise as high-level external professionals and on the regular monitoring of OLAF's investigative function.
9. The SC's monitoring is carried out both on a systemic level and on a case-by-case basis, using a matrix review of OLAF investigative activities: the SC collects and examines information concerning OLAF's cases horizontally and on sampling bases for the purpose of systemic and structural analyses; in addition it examines individual files or their components in order to obtain a more profound and concrete understanding of sensitive areas.
10. The SC's monitoring experience, based on examination of individual case files (or their representative samples), on information regularly forwarded by the DG as well as on the SC Members' specific knowledge (*savoir-faire*) of investigations, allows the SC to provide particular added value to the implementation by OLAF of its investigative function. The SC thus effectively contributes to ensuring, within OLAF, good administration, good governance and respect for fundamental rights and procedural guarantees as set out in EU law.

3. SECRETARIAT OF THE SUPERVISORY COMMITTEE

3.1. Role of the Secretariat

11. The role of the Secretariat of the SC (SCS) is to assist the SC Members in the discharge of their functions. The SCS staff members, legal and operational experts, prepare and carry out the initial examination of those matters subject to the SC monitoring and present the results for the SC Members' consideration.
12. The Regulation obliges OLAF to allocate staff to the SCS 'in close consultation with the SC' ⁽⁷⁾ and to *guarantee the independent functioning of the SCS in order to ensure that the SC can carry out its mission efficiently* ⁽⁸⁾ — as already recommended by the European Court of Auditors ⁽⁹⁾ and by the SC ⁽¹⁰⁾ in 2011.

⁽⁸⁾ Recital (40).

⁽⁹⁾ Point 44 of the European Court of Auditor's Opinion No 6/2011: *In order to reinforce the independent role of the Supervisory Committee, the Court recommends that the proposed Article 11(6) should provide that the Committee's secretariat must act solely in accordance with the Committee's instructions and independently of OLAF, and may not be appointed by or subject to the authority of the Director-General.*

⁽¹⁰⁾ Point 41 of the SC's Opinion no 4/2011: *Although provided by OLAF, the secretariat shall work in complete independence under the chair of the SC and its members. (...) members of the secretariat shall be appointed by an Appointing Authority different from OLAF DG, at the suggestion of the SC; they shall be periodically evaluated solely by the SC; they shall act with loyalty and in full respect of the instructions received exclusively from the SC. (...) the independence of its secretariat — and consequently of the SC — is illusory if the staff of the secretariat is appointed, administered and promoted by the service which it is in charge of monitoring.*

3.2. *Independent functioning of the Secretariat*

13. It is crucial that the SCS be able to assist the SC in the implementation of its monitoring functions in a loyal and efficient manner without being exposed to the risks of potential conflicts of interest as OLAF staff subordinate to the DG.
14. Therefore, the SC has recommended to the DG four conditions to ensure the independent functioning of the SCS ⁽¹⁾:

— **Reclassification of the Head of the SCS as a senior manager**

15. The Head of the SCS, also having the function of the SC Secretary, represents the SC in the daily monitoring of OLAF's investigative activities. Since, as an OLAF official, he is hierarchically subordinate directly to the DG, it is essential for the integrity of the SC's monitoring to put in place safeguards of independence for the Head of the SCS. Therefore, when the SCS was originally established, its Head was nominated at Director level ⁽²⁾ (in OLAF only the senior management enjoys certain, although very limited, independence with regard to the DG, who is not alone to decide on their appointments, internal transfers or leave) ⁽³⁾.

— **Recruitment, appraisal and promotion of the Head of the SCS on the basis of SC decisions**

16. The recruitment of the Head of the SCS should be done through an open competition to reinforce the independent nature of the SC. His appraisal and promotion should be decided on the basis of input from the SC Chairman.

— **Recruitment, appraisal and promotion of the SCS's staff by its Head**

17. The recruitment, appraisal and promotion of the SCS's staff should be delegated, as far as possible, to the Head of the SCS ⁽⁴⁾.

— **Sub-delegation of the SCS's budget implementation to its Head**

18. Powers of the authorising officer with regard to the SCS's budget should be delegated to the Head of the SCS as is already the case for the SC's budget. This would mean, for example, that authorisation of missions for the SCS staff and their participation at public events on behalf of the SC be sub-delegated to the Head of the SCS and thus reinforce the ability of the SC Members to carry out their duties efficiently and to work with their Secretariat in a flexible manner.
19. Such sub-delegation would also be in line with the new wording of the provisions on the financing of OLAF (which introduce independently fixed resources for the SCS ⁽⁵⁾) as well as with the European Parliament's position ⁽⁶⁾.

4. STRATEGIC OBJECTIVES AND PRIORITIES

20. In the light of the mission and tasks entrusted to it by the Regulation, the SC hereby defines its strategic objectives for the forthcoming period of its mandate, aiming at increasing the effectiveness and impact of its core activities and thus at supporting OLAF's investigative function and reinforcing OLAF's investigative independence. To meet these objectives, the SC has identified the following priorities.

⁽¹⁾ Cf. SC's Opinion No 1/2013 on OLAF's Preliminary Draft Budget for 2014 and the previous SC's opinions on OLAF's Preliminary Draft Budget.

⁽²⁾ His successor was a senior Head of Unit, but the then DG ensured the then SC Chairman on 13.2.2007 that: 'The status of your Secretariat is indicated by the fact that your present Secretary is one of only three OLAF Heads of Unit to hold the rank of AD14'.

⁽³⁾ If, under the general rules of the Commission, it were undesirable to classify a Head of a relatively small team as a director, then the model of the Legal Service could be followed with the Head of the SCS classified as a principal (legal) advisor with management functions over a team of legal officers and secretarial staff (e.g. the M team in the Legal Service consists of a principal legal advisor, 7 lawyers and 5 assistants). The tasks of the SCS Head consist mainly in providing legal advice to the SC Members. Alternatively, the arrangements concerning principal advisors in the European Commission's Bureau of European Policy Advisers could be applied.

⁽⁴⁾ In accordance with Article 6(1) of Commission Decision 1999/352/EC, ECSC, Euratom establishing OLAF (as amended by Commission Decision 2013/478/EU: *The Director General of the Office shall exercise, with regard to the staff of the Office, the powers of the appointing authority and of the authority empowered to conclude contracts of employment delegated to him. He shall be permitted to sub-delegate those powers (...)*).

⁽⁵⁾ Article 18 of Regulation (EU, Euratom) No 883/2013:

The total appropriations for the Office, including for the Supervisory Committee and its secretariat, shall be entered under a specific budget line within the section of the general budget of the European Union relating to the Commission and shall be set out in detail in an Annex to that section.

The establishment plan of the Office, including the secretariat of the Supervisory Committee, shall be annexed to the establishment plan of the Commission.

⁽⁶⁾ On 23 October 2013 the Parliament recommended to 'split the line for OLAF expenditure related to officials and temporary staff, to reflect the widened mandate and strengthened independence of the Secretariat of the OLAF Supervisory Committee provided for in the new OLAF Regulation'.

Objective 1: Develop effective (and pragmatic) monitoring tools1. *Adopt evaluation grids*

- Propose new (and/or update the existing) evaluation grids concerning the application of procedural guarantees and the duration of investigations, to be filled in and regularly provided by OLAF.

2. *Define and use criteria for the sampling of OLAF cases*

- Define and use random, statistical and risk-based criteria for the selection of representative samples of OLAF cases.

3. *Rely on the experience of experts from Member States*

- Rely on the experience of experts from judicial and administrative authorities of Member States, working with OLAF and/or on the follow-up to OLAF cases.
- Return to the practice of hearing these experts for the purpose of the preparation of the SC activity reports and opinions.
- Organise such hearings by an SC rapporteur together with a member of the SCS working on a specific topic, and/or, exceptionally, in the context of the SC plenary meetings.
- Consider the possibility to occasionally organise the SC's plenary meetings in (some of) the Member States, in order to gather — from national experts — information and evidence on subjects precisely defined in advance.

Objective 2: Improve cooperation with OLAF and its Director-General1. *Agree on new working arrangements with OLAF*

- Propose to OLAF and agree on new working arrangements.

2. *Organise regular exchanges of views with the Director-General*

- Establish a direct reporting and consultation line with the DG and regularly invite him to the SC's plenary meetings.
- Exchange views and information with the DG on specific topics relating to OLAF's investigative activity.

3. *Raise awareness of the SC's role and work within OLAF*

- Organise/participate in workshops/meetings/lunch debates with OLAF staff.

Objective 3: Act as an important player in the fight against fraud1. *Participate in the exchange of views with the institutions*

- Actively participate in the exchange of views with the EU institutions and the DG.
- Use this new inter-institutional forum as a platform for discussing the results of its monitoring as presented in the SC's opinions, reports and activity reports.
- Ensure that the exchange of views represents a positive arena for discussion and for assessment of the effectiveness of OLAF's work and thus becomes an asset in the fight against fraud.
- Ensure that the exchange of views does not entail the politicising of OLAF.

2. *Hold bilateral meetings*

- Hold regular (yearly) meetings with the three appointing EU institutions and with the European Court of Auditors (at least every two years).
- Hold bilateral meetings with the Commissioner responsible for the fight against fraud (at least once a year).

3. *Take a proactive role in the legislative process concerning the revision of the EU antifraud legislation*

- Take a proactive role in the on-going/forthcoming revision of the EU antifraud legislation, without however interfering in the EU legislative process.
- Assess the application of Regulation (EU, Euratom) No 883/2013.
- Make appropriate recommendations on the instructions/guidelines to staff on investigative procedures as a way to address some of the remaining weaknesses of the OLAF Regulation, in particular, regarding fundamental rights and procedural guarantees.
- Contribute to the development of the Commission's legislative proposal on *Improving OLAF's governance and reinforcing procedural safeguards in investigations* ⁽¹⁾, in order to:
 - reinforce procedural guarantees applicable in OLAF's investigations;
 - reinforce OLAF's supervision while at the same time safeguarding its investigative independence.

Objective 4: Increase the SC's visibility among EU institutions and Member States

1. *Develop an effective communication strategy*

2. *Improve reporting tools*

- Inform the appointing institutions of the decisions/action points decided on by the SC during its plenary meetings, in full respect of the principle of confidentiality of investigations.
- Change the format of the activity report, in order to better reflect the reinforced role and the core activities of the SC.

3. *Increase interaction with stakeholders on a broader range of issues*

- Organise and/or participate in events promoting the SC's work (workshops, presentations, conferences, cocktails etc.).

Objective 5: Develop the SC's working methods

1. *Ensure a consistent approach in monitoring OLAF cases*

- Adopt monitoring guidelines.
- Adopt a workflow system to monitor the follow-up by OLAF of the SC's recommendations.

2. *Update the SC's Rules of procedure*

- Update the SC's Rules of procedure, in order to reflect the changes brought about by the new Regulation.

3. *Develop an ethical code of conduct*

- Develop an ethical code of conduct for the use of the SC Members.

⁽¹⁾ COM(2013)533 final, 17.7.2013.

Objective 6: Safeguard the independent functioning of the SC and its Secretariat

- Advocate the modernisation of the remuneration and financial arrangements for the SC's Members.
 - Advocate a separate budget line for the SC and its Secretariat.
 - Recommend to the DG appropriate measures for ensuring the independent functioning of the SCS: (1) reclassification of the Head of the SCS as a senior manager; (2) recruitment, appraisal and promotion of the Head of the SCS on the basis of SC's decisions; (3) recruitment, appraisal and promotion of the SCS's staff by its Head; (4) sub-delegation of the SCS's budget implementation to its Head.

Explanatory memorandum on the Code of Conduct of the Members of the Supervisory Committee: safeguards of impartiality and risks of conflict of interest in the exercise of the monitoring functions

INTRODUCTION

1. The Supervisory Committee (SC) of OLAF, whose mission is to reinforce OLAF's independence by the regular monitoring of its investigative function, is composed of five independent members having experience in senior judicial, investigative or comparable functions relating to the areas of OLAF's activities ⁽¹⁾. The membership of the SC is a parttime function.
2. As such, the Members of the SC generally hold key functions in their national judicial system or administration, allowing them to act as a counterpart/partner of OLAF at a national level at any stage of an OLAF case. At the same time, they regularly monitor OLAF's cases, in particular those where information has been transmitted to national judicial authorities. Situations may thus occur when they are to deal with the same OLAF case both in the framework of their national duties and as the SC Members.
3. It is essential to make sure that dealing with a case in this dual capacity does not give rise to actual or potential conflicts of interest and then endanger impartiality and objectivity as well as the public trust in the impartiality and objectivity in the exercise of the national functions of the SC Members or in the discharge of their duties in the SC. Actual or potential conflicts of interests could have a negative impact on the impartiality of the decisions taken and on the quality of their work, could damage their reputation and undermine both the EU institutions' and the public's trust in the SC. Given the potential risks involved, it is important therefore to identify the risk areas for conflict of interest situations in order to prevent them.
4. To do so, after defining the conflict of interest (*part 1*), it is necessary to make an overview of the specific tasks of the SC Members which may possibly lead to conflict of interest situations (*part 2*), followed by an inventory of concrete situations when conflicts of interest may occur (*part 3*). Finally, a clear procedure on how to manage conflict of interest situations is also necessary (*part 4*).

1. DEFINITION OF THE CONFLICT OF INTEREST

5. Apart from their obligation to act independently, without seeking nor taking instructions from any government or any institution, body, office or agency ⁽²⁾, the Members of the SC are required to act in full objectivity and impartiality.
6. In general terms, the requirement of impartiality is enshrined in the European Union Charter of Fundamental Rights, which foresees that 'every person has the right to have his or her affairs handled impartially, fairly and within a reasonable time by the institutions, bodies, offices and agencies of the Union' ⁽³⁾.
7. According to the case law of the European Court of Human Rights (standing as a source of general principles of the Union law in accordance with the Article 6(3) of the Treaty on the European Union), '*as a rule, impartiality denotes the absence of prejudice or bias and even appearances may be of a certain importance*' or, in other words, '*justice must not only be done, it must also be seen to be done*' ⁽⁴⁾.
8. The requirement of impartiality and objectivity and the obligation to avoid situations in which appearance may give rise to doubts with regard to objectivity and impartiality is also reflected in Article 298 of the Treaty on the Functioning of the European Union which stipulates that, in carrying out their missions, the institutions, bodies, offices and agencies of the Union shall have the support of an open, efficient and independent European administration. Independence here refers generally to objectivity and impartiality. Even though this provision concerns directly only the SC Secretariat (composed of EU officials), it expresses a general principle of Union law guiding also the activities of the SC itself.

⁽⁴⁾ ECtHR, judgment of 9 January 2013, *Oleksandr Volkov v. Ukraine*, application no 21722/11, §§ 104-106.

9. The requirement of impartiality, applied to the execution by the SC Members of their tasks, includes an obligation to avoid conflicts of interest, as established in the Decision on their appointment and their Rules of Procedure which stipulate that the SC Members 'shall not deal with a matter in which, directly or indirectly, they have any personal interest, in particular, any family or financial interests such as to impair their independence' ⁽¹⁾.
10. The above mentioned acts do not define the concept of conflict of interest. A comprehensive definition can be found in the Guidelines of the Organisation for Economic Cooperation and Development (OECD) ⁽²⁾, which indicates also three types of conflict of interest:
- **Conflict of interest (actual):** 'a conflict between the public duty and private interests of a public official, in which the public official has private-capacity interests which could improperly influence the performance of their official duties and responsibilities'.
 - **Conflict of interest (apparent):** 'an apparent conflict of interest can be said to exist where it appears that a public official's private interests could improperly influence the performance of their duties but this is not in fact the case'.
 - **Conflict of interest (potential):** 'a potential conflict arises where a public official has private interests which are such that a conflict of interest would arise if the official were to become involved in relevant (i.e. conflicting) official responsibilities in the future'.
11. It is also worth noting the Article 13 of Council of Europe's Committee of Ministers Recommendation No. 2000 (10):
1. Conflict of interest arises from a situation in which the public official has a private interest which is such as to influence, or appear to influence, the impartial and objective performance of his or her official duties.
2. The public official's private interest includes any advantage to himself or herself, to his or her family, close relatives, friends and persons or organisations with whom he or she has or has had business or political relations. It includes also any liability, whether financial or civil, relating thereto'.
12. This definition of conflict of interest has three dimensions: (i) the existence of a private or personal interest of a public official, which (ii) comes into conflict with his official duty, and thus (iii) leads to a conflict of interest interfering with professional principles. Essentially, in a conflict of interest situation, the private interest of the public official can or could influence the objective and impartial performance of his official duties ⁽³⁾.
13. Conflict of interest was also defined in the EU case-law. The EU judiciary assessed the scope of the conflict of interest under the Staff Regulations, and gave it a broad definition ⁽⁴⁾. Although the Members of the SC are not bound by the Staff Regulations, the interpretation of the Court is relevant on the matter since the wording of the legal provisions concerning conflict of interest — in the Staff Regulations and in the Decision on their appointment — is quite similar. They are an expression of the same underlying general principles of EU law enshrined in the Charter of Fundamental Rights.
14. The term *conflict of interest* as defined above does not, however, take into account expressly all the situations in which the impartiality and independence (as well as the appearance of impartiality and independence) of the SC Members may actually or potentially be endangered. Classic conflict of interest concerns situations in which a public official may have a private interest in conflict with his or her public duties. In the case of the SC Members, the independence and impartiality could be jeopardised also due to their dual roles as high national judicial or administrative officials and SC Members at the same time.

⁽⁴⁾ Case T-89/01 *Willeme v Commission*, where the Court of First Instance analysed the scope of the concept of conflict of interest under former Article 14 of the Staff Regulations (currently, Article 11a).

15. Generally, the national in-depth expertise is of great benefit for the discharge of the duties of the SC. Yet, in some situations, an SC Member might have a dual role related to a particular OLAF investigation. This may raise the issue as to whether the judgment of the SC is, or appears to be independent of the judgment and proceedings of national authorities, or whether the data protection and confidentiality requirements either by national law or by Union law are fully observed. In addition, it is important for the independence and impartiality of the SC Members that the third parties understand in all communications in which capacity the SC Members are acting. The analyses of and the measures related to the conflict of interest situations shall cover, in particular, the situation of concurrent duties as national officials and SC Members.

2. SC MEMBERS' TASKS WHICH MAY LEAD TO CONFLICT OF INTEREST SITUATIONS

16. The particular situation of the SC Members arises from the principle that they have their national duties as their primary public obligations. Article 15(2) of Regulation (EU, Euratom) No 883/2013 requires the SC Members to have experience in the senior judicial or investigative functions in the Member States and the appointing Decision specifies that the membership of the SC is a part-time function. As a result the SC Members usually exercise simultaneously their dual roles: national officials and SC Members.
17. When exercising their national duties, the SC Members (or a national office or service which is directed by an SC Member or over which an SC Member exercises effective control or influence) ⁽¹⁾ may be involved in an OLAF case at different stages:
- they may provide information or assist OLAF in an investigation (e.g. during an on-the-spot check) ⁽²⁾;
 - they may conduct a national investigation which may be coordinated by OLAF (coordination case) or requiring assistance from OLAF;
 - they may be the addressees of OLAF's reports drawn up following an investigation and of subsequent recommendations (of judicial/financial nature) based on the findings of the OLAF investigation ⁽³⁾.
18. In their capacity as SC Members, they carry out the tasks laid down in Regulation (EU, Euratom) No 883/2013 and in Commission Decision 1999/352/EC, ECSC, Euratom establishing OLAF ⁽⁴⁾. The duties of the SC include, inter alia, the regular monitoring of the implementation by OLAF of its investigative function, in order to reinforce the Office's independence in the proper exercise of its competences and, in particular, the monitoring of developments concerning the application of procedural guarantees and the duration of investigations in the light of the information supplied by the Director-General of OLAF. In duly justified situations, the SC may ask OLAF for additional information on investigations, including reports and recommendations on closed investigations, without however interfering with the conduct of investigations in progress.

3. POSSIBLE CONFLICT OF INTEREST SITUATIONS

19. Taken separately, both capacities in which the SC Members may act are official/public qualities. They are generally national officials, and as SC Members they are appointed by three EU institutions and exercise a mission of public interest. However, from the perspective of the definition of the conflict of interest, each of these two capacities could be regarded as a private interest when set against the other: when they act as national officials, their membership of the SC may be seen as a 'private interest'; conversely, when they act as SC Members, their national duty could also be regarded as being a 'private interest' in the widest sense of the term (personal interest).
20. The conflict of interest would then occur when the activity as SC Members would improperly influence the performance of their official national responsibilities and *vice versa*, when their activity as national officials would improperly influence the performance of their responsibilities as SC Members.

⁽¹⁾ Judicial and administrative structures of the Member States differ substantially, which must be taken into account when establishing rules on potential conflict of interest. The expression 'directs or exercises effective control over' comes from Article 25 of the Rome Statute of International Criminal Court which stands as a generally accepted legal definition of *de jure* or *de facto* direction or command. The expression 'exercises effective influence' is an extension to cover situations in which an SC Member is not formally in the chain of command and thereby not necessarily exercises effective control over a case, but in which he can substantively influence the handling of a case by being, for example, an authority to be heard, actually or potentially, or by being in a position to comment or influence the handling of a case (for example, if an SC Member were a Deputy Prosecutor General and the officer working on an OLAF case reports to the Prosecutor General).

⁽²⁾ For example, in accordance with Article 3(3) of Regulation (EU, Euratom) No 883/2013, especially as the anti-fraud coordination service (AFCOS) of the Member State concerned pursuant to Article 3(4).

⁽³⁾ Article 11(3) of Regulation (EU, Euratom) No 883/2013.

⁽⁴⁾ As amended by Commission Decision 2013/478/EU of 27 September 2013 (OJ L 257, 28.9.2013, p. 19).

(a) **Situations when the national duties (as 'private interest') could affect the performance of the SC duties (as 'official duties')**

21. *Example 1:*

- *Assumption:* after being involved in an OLAF investigation in his national capacity, an SC Member becomes an addressee of an OLAF report to the SC on that investigation.
- *Possible conflict of interest:* participation in a dual role in the same process (as an SC Member evaluating the proper conduct of an investigation in which he was involved at the national level as a national official).

22. *Example 2:*

- *Assumption:* after having received as a national judicial official an OLAF report on an investigation, possibly with recommendations to initiate judicial proceedings, an SC Member would have to evaluate compliance by OLAF in that investigation with fundamental rights and with procedural requirements as laid down by the national law.
- *Possible conflict of interest:* a dual role in the same process; use of inside (confidential) information⁽¹⁾; lack of impartiality or lack of independence when acting under the authority of the national office.

23. *Example 3:*

- *Assumption:* after having received as a national judicial official an OLAF report on an investigation, with recommendations to initiate judicial proceedings, an SC Member would have to monitor the follow-up by his national judicial authorities of the recommendations made by OLAF.
- *Possible conflict of interest:* a dual role in the same process; use of inside information; lack of impartiality or lack of independence when acting under the authority of the national office.

(b) **Situations when the SC duties (as 'private interest') could affect the performance of the national duties (as 'official duties')**

24. *Example 4:*

- *Assumption:* after having evaluated an OLAF investigation as an SC Member (in particular with regard to the respect of the fundamental rights and of procedural requirements laid down in the national law), he could receive the case in his national capacity (as a judicial official to whom OLAF report and recommendations or a complaint related to them are addressed).
- *Possible conflict of interest:* a dual role in the same process; use of inside information; lack of impartiality (when acting in his national capacity, he would already have issued/expressed an opinion on the case in his capacity as an SC Member).

25. There may be potentially other situations where the risk of a conflict of interest is not that obvious. They should be assessed on a case by case basis in order to establish *in concreto* whether there are real risks of lack of independence or impartiality, liable to affect the capability to evaluate cases in an impartial and independent manner. The case-law suggests here a pragmatic approach based on the assumption that a purely abstract risk of a conflict of interest (between the dual national and EU role) is not sufficient to establish an infringement of the obligations of impartiality and integrity — it is necessary to identify a concrete factual element supporting the conclusion that there exists a conflict of interest⁽²⁾.

⁽¹⁾ 'Using confidential information means that a public official disclose to others, or use to further their personal interest, confidential information acquired by them in the course of their official duties. A specific example of this is 'insider information' which means the use of information that is gained in the execution of a public official's office and is not available to the general public to further or seek to further the member's private interest' (see page 7 of the Academic Report quoted in footnote 7).

⁽²⁾ This pragmatic approach is taken, for example, by the EU judiciary in cases concerning the statutory obligations of the EU officials: see case T-157/04 *De Bry v Commission*, paragraphs 36 to 38. See also the Opinion of the Advocate General Mazak delivered on 27 March 2012 in joined cases *European Commission (C-553/10 P) and Lagardère SCA (C-554/10 P) v Éditions Odile Jacob SAS*, paragraphs 35-36.

4. PROCEDURE FOR DEALING WITH CONFLICT OF INTEREST SITUATIONS

26. The procedural steps for dealing with conflict of interest situations are currently set out in Article 4(3) of the SC Rules of Procedure: 'The members of the Supervisory Committee shall inform it of any situation liable to compromise any of the principles governing its activity as referred to in paragraphs 1 and 2 so that the Committee may take appropriate measures'.
 27. The SC considers that in order to maintain the high integrity of the SC and to ensure a high level of public trust in the proper supervision of the investigative activities of OLAF and in the independence and impartiality of the SC, it will benefit from the establishment of more comprehensive guidance on the matter and more detailed procedures to be followed.
 28. Therefore, the SC adopts hereby its Code of Conduct supplemented by this explanatory memorandum.
 29. This Code of Conduct will be incorporated in the SC Rules of Procedure which require further amendment following the entry into force of Regulation (EU, Euratom) No 883/2013.

INFORMATION MADE CONTINUOUSLY AVAILABLE BY OLAF ⁽¹⁾*Article 10***Access to general case-related data**

1. When the SC considers that it is necessary for monitoring of the implementation of OLAF's investigative function and that the otherwise accessible information is not sufficient in a given case, the SC may request partial or full access to an OLAF case file.
2. Access to the case file will be granted to specified staff members of the SC Secretariat for a specified duration which may be extended upon written request.

*Article 15***Sampling**

(Article 15(1) paragraph five, Regulation (EU, Euratom) No 883/2013)

CHAPTER IV

FINAL PROVISIONS*Article 17***Timetable for providing information**

Unless otherwise indicated in these Working Arrangements, the information to be provided by the DG on its own initiative will be transmitted to the SC four times a year, by the following dates: (i) 31 January, (ii) 30 April, (iii) 31 July, (iv) 31 October.

*Article 18***Delegation**

The DG may delegate in writing the exercise of his functions under these Working Arrangements to one or more members of the staff of the Office.
